If you are very concerned about becoming a victim of fraud or identity theft, you may request a "Security Freeze" be placed on your credit file at no cost. Keep the PIN or password in a safe place. You will need it if you choose to lift the freeze.

If you do place a security freeze prior to enrolling in the credit monitoring service as described above, you will need to remove the freeze in order to sign up for the credit monitoring service. After you sign up for the credit monitoring service, you may refreeze your credit file.

accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

5. Protecting Your Health Information.

As a general matter the following practices can help to protect you from medical identity theft.

- Only share your health insurance cards with your health care providers and other family members who are covered under your insurance plan or who help you with your medical care.

- Review your "explanation of benefits" statement which you receive from your health insurance company. Follow up with your insurance company or the care provider for any items you do not recognize. If necessary, contact the care provider on the explanation of benefits statement and ask for copies of medical records from the date of the potential disclosure (January 20, 2023) to current date.

- Ask your insurance company for a current year-to-date report of all services paid for you as a beneficiary. Follow up with your insurance company or care provider for any items you do not recognize.

6. Additional Helpful Resources.

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them on the web at www.ftc.gov/idtheft, by phone at 1-877-IDTHEFT (1-877-438-4338), or by mail at Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580. Your complaint will be added to the FTC's Identity Theft Data Clearinghouse, where it will be accessible to law enforcement for their investigations. In addition, you may obtain information from the FTC about fraud alerts and security freezes.

If your personal information has been used to file a false tax return, to open an account or to attempt to open an account in your name or to commit fraud or other crimes against you, you may file a police report in the City in which you currently reside.
