We have contacted Integris Health, but they refuse to resolve this issue. We give you the opportunity to remove your personal data from our databases before we sell the entire database to data brokers on Jan 5 2024.

Our tor shop allows users to purchase data for fraud. Any buyer can purchase data "exclusively" for 50\$. This gives the buyer exclusive rights on the data and will remove the data from the shop completely. This feature is useful for fraud activity such as identity theft, opening SIM lines, opening bank accounts, taking out loans, and making USA companies. A buyer can also purchase data without exclusive rights for 3\$. In this case, the data will still be listed on the shop.
