*Attorneys for Plaintiffs*

**UNITED STATES DISTRICT COURT**

**FOR THE NORTHERN DISTRICT OF CALIFORNIA**

**SAN JOSE DIVISION**

ANDREW COHEN, KALEAH C. ALLEN,  
KIMBERLY BENJAMIN, TIMOTHY  
HORNICK, NICHOLAS CARLSON,  
JONATHAN WOLFE, MARK WEILER, CHAD  
SMITH, SARAH D. SMITH, and SCOTT  
CISCHKE, individually and on behalf of all  
others similarly situated,

**Plaintiffs,**

vs.

APPLE, INC. and SAMSUNG ELECTRONICS  
AMERICA, INC.

**Defendants.**

Case No.:

**CLASS ACTION COMPLAINT**

**DEMAND FOR JURY TRIAL**

1 Plaintiffs Timothy Hornick, Andrew Cohen, Kaleah C. Allen, Kimberly Benjamin, Nicholas  
2 Carlson, Mark Weiler, Chad Smith, Sarah D. Smith, Matt Koppin, Scott Cischke, and Albert Collins,  
3 by and through their attorneys, for their Complaint, allege as follows based upon their personal  
4 information and investigation of their attorneys:

5  
6 **I. INTRODUCTION**

7 1. If a cellphone is marketed and sold to consumers, the device is never supposed to  
8 exceed the maximum allowable limit for radiofrequency (“RF”) radiation exposure.

9 2. In fact, Defendants market and sell some of the most popular smartphones in the world  
10 – including Apple’s iPhones and Samsung’s Galaxy phones - as emitting less RF radiation than that  
11 set by law and as being completely safe to carry and use on or in close proximity to the human body.

12 3. Hold your smartphone to your ear for a phone call? No problem, say Defendants. Carry  
13 your smartphone in your back pocket? Of course, say Defendants. Use your smartphone to conduct a  
14 sonogram of your unborn child in utero? That’s ok too, according to Samsung.

15 4. In fact, however, recent testing of Defendants’ products shows that the potential  
16 exposure for an owner carrying the phone in a pants or shirt pocket was over the exposure limit,  
17 sometimes far exceeding it – in some instances by 500 percent.

18 5. Numerous recent scientific publications, supported by hundreds of scientists worldwide,  
19 have shown that RF radiation exposure affects living organisms at levels well below most  
20 international and national guidelines. Effects include increased cancer risk, cellular stress, increase in  
21 harmful free radicals, genetic damages, structural and functional changes of the reproductive system,  
22 learning and memory deficits, neurological disorders, and negative impacts on general well-being in  
23 humans. Thus, Defendants’ design, manufacture, and sale of smartphones that far exceed federal  
24 guidelines exacerbates the health risks to Plaintiffs and the Classes.

25 6. Plaintiffs thus bring this Complaint for negligence, breach of warranty, consumer fraud  
26 and unjust enrichment, seeking actual damages, the costs of medical monitoring, restitution and  
27 injunctive relief.  
28

1 **II. JURISDICTION**

2 7. This Court has jurisdiction over this matter pursuant to 28 U.S.C. §1332(a)(1) as  
3 modified by the Class Action Fairness Act of 2005, because at least one member of the Class is a  
4 citizen of a different state than Defendant, there are more than 100 members of the Class, and the  
5 aggregate amount in controversy exceeds \$5,000,000.00, exclusive of interest and costs.

6 8. Pursuant to 28 U.S.C. §1391(b), venue is proper in this district because a substantial  
7 part of the events giving rise to the claims occurred in this District.

8 **III. INTRADISTRICT ASSIGNMENT**

9 9. Assignment to the San Jose division of this district is appropriate under Civil Local Rule  
10 3-2 because a substantial part of the events or omissions which give rise to the claims occurred in the  
11 San Jose division.

12 **IV. PARTIES**

13 **A. Plaintiffs**

14 10. Andrew Cohen is a resident of Scottsdale, Arizona and citizen of the United States.  
15 Cohen purchased an iPhone X in August 2017, and regularly carries and uses the phone on or near his  
16 body. Cohen would not have purchased the phone and/or would not have paid as much for the phone  
17 had he understood the risk of radiation exposure from the phone. As a result of Apple's actions as  
18 alleged herein, Cohen has been damaged and is now at risk for problems associated with RF radiation  
19 exposure.

20 11. Kaleah C. Allen is a resident of Des Moines, Iowa and citizen of the United States.  
21 Allen purchased an iPhone 8 in January 2018, and regularly carries and uses the phone on or near her  
22 body. Allen would not have purchased the phone and/or would not have paid as much for the phone  
23 had she understood the risk of radiation exposure from the phone. As a result of Apple's actions as  
24 alleged herein, Allen has been damaged and is now at risk for problems associated with RF radiation  
25 exposure.

26 12. Kimberly Benjamin is a resident of Raymore, Missouri and citizen of the United States.  
27 Benjamin purchased an iPhone X in or about 2017, and regularly carries and uses the phone on or  
28

1 near her body. Benjamin would not have purchased the phone and/or would not have paid as much  
2 for the phone had she understood the risk of radiation exposure from the phone. As a result of  
3 Apple's actions as alleged herein, Benjamin has been damaged and is now at risk for problems  
4 associated with RF radiation exposure.

5 13. Timothy Hornick is a resident of Windber, Pennsylvania and citizen of the United  
6 States. Hornick purchased an iPhone 8 in January 2018, and regularly carries and uses the phone on or  
7 near his body. Hornick would not have purchased the phone and/or would not have paid as much for  
8 the phone had he understood the risk of radiation exposure from the phone. As a result of Apple's  
9 actions as alleged herein, Hornick has been damaged and is now at risk for problems associated with  
10 RF radiation exposure.

11 14. Nicholas Carlson is a resident of Lake Worth, Florida and citizen of the United States.  
12 Carlson purchased an iPhone 7 Plus in September 2016, and regularly carries and uses the phone on  
13 or near his body. Carlson would not have purchased the phone and/or would not have paid as much  
14 for the phone had he understood the risk of radiation exposure from the phone. As a result of Apple's  
15 actions as alleged herein, Carlson has been damaged and is now at risk for problems associated with  
16 RF radiation exposure.

17 15. Mark Weiler is a resident of Fargo, North Dakota, and citizen of the United States.  
18 Weiler received a replacement iPhone 8 in January 2019 through insurance, and regularly carries and  
19 uses the phone on or near his body. Weiler would not have purchased the phone and/or would not  
20 have paid as much for the phone had he understood the risk of radiation exposure from the phone. As  
21 a result of Apple's actions as alleged herein, Weiler has been damaged and is now at risk for problems  
22 associated with RF radiation exposure.

23 16. Scott Cischke is a resident of LaGrange Park, Illinois, and citizen of the United States.  
24 Cischke purchased an iPhone X in June 2018, and regularly carries and uses the phone on or near his  
25 body. Cischke would not have purchased the phone and/or would not have paid as much for the  
26 phone had he understood the risk of radiation exposure from the phone. As a result of Apple's actions  
27 as alleged herein, Cischke has been damaged and is now at risk for problems associated with RF  
28 radiation exposure.

1           17. Matt Koppin is a resident of Yorkville, Illinois and citizen of the United States. Koppin  
2 purchased an iPhone 8 in Spring 2018, and regularly carries and uses the phone on or near his body.  
3 Koppin would not have purchased the phone and/or would not have paid as much for the phone had  
4 he understood the risk of radiation exposure from the phone. As a result of Apple’s actions as alleged  
5 herein, Koppin has been damaged and is now at risk for problems associated with RF radiation  
6 exposure.

7           18. Albert Collins is a resident of Indio, California and citizen of the United States. Collins  
8 purchased a Galaxy S8, and regularly carries and uses the phone on or near his body. Collins would  
9 not have purchased the phone and/or would not have paid as much for the phone had he understood  
10 the risk of radiation exposure from the phone. As a result of Apple’s actions as alleged herein,  
11 Collins has been damaged and is now at risk for problems associated with RF radiation exposure.

12           19. Sarah D. Smith is a resident of Harrisburg, Pennsylvania and citizen of the United  
13 States. Smith purchased a Samsung Galaxy Note 8 in or about January 2018, and regularly carries and  
14 uses the phone on or near her body. Smith would not have purchased the phone and/or would not  
15 have paid as much for the phone had she understood the risk of radiation exposure from the phone.  
16 As a result of Samsung’s actions as alleged herein, Smith has been damaged and is now at risk for  
17 problems associated with RF radiation exposure.

18           20. Chad Smith is a resident of Harrisburg, Pennsylvania, and citizen of the United States.  
19 Smith purchased a Galaxy S8 in June 2018, and regularly carries and uses the phone on or near his  
20 body. Smith would not have purchased the phone and/or would not have paid as much for the phone  
21 had he understood the risk of radiation exposure from the phone. As a result of Samsung’s actions as  
22 alleged herein, Smith has been damaged and is now at risk for problems associated with RF radiation  
23 exposure.

24           21. Andrew Cohen, Kaleah C. Allen, Kimberly Benjamin, Timothy Hornick, Nicholas  
25 Carlson, Mark Weiler, Matt Koppin, and Scott Cischke are collectively referred to as the “Apple  
26 Plaintiffs.” Chad Smith, Sarah D. Smith, and Albert Collins are collectively referred to as the  
27 “Samsung Plaintiffs”. The Apple Plaintiffs and Samsung Plaintiffs are collectively referred to as  
28 “Plaintiffs.”

**B. Defendants**

22. Apple, Inc. (“Apple”) is a California corporation with its headquarters and principal place of business in Cupertino, California, which lies within this District. Apple designs, manufactures and sells various consumer electronics, computer software and online services. Apple’s consumer electronics products include the iPhone 8 and iPhone X. In addition to being headquartered and having its principal place of business in Cupertino, California, Apple transacts substantial business throughout the State of California, through advertising, marketing and ownership of numerous Apple retail stores throughout California, including several in this District. Apple also transacts business nationwide, advertising, marketing, distributing and selling its iPhone products nationwide and ownership of Apple retail stores in 44 states and the District of Columbia.

23. Samsung Electronics America, Inc. (“Samsung”) is a New York corporation that maintains its principal place of business at 85 Challenger Road, Ridgefield Park, New Jersey 07669. In 2015, Samsung opened the Samsung Device Solutions America campus at 3655 North 1st Street, San Jose, CA 95134, where it maintains its home to Samsung’s digital health and data center projects. In addition to maintaining its campus in San Jose, California, Samsung transacts substantial business throughout the State of California. Samsung also transacts business nationwide, advertising, marketing, distributing and selling its smartphone products nationwide.

## V. SUBSTANTIVE ALLEGATIONS

### A. The Role of Smartphones in American Culture

24. According to Pew Research Center, 96 percent of Americans own a cellphone of some kind.<sup>1</sup> Of those, 81 percent own smartphones,<sup>2</sup> up from just 35% in Pew Research Center's first survey of smartphone ownership conducted in 2011.<sup>3</sup>

25. Roughly 20 percent of American adults are "smartphone-only" internet users, meaning they own a smartphone but don't otherwise subscribe to internet service.<sup>4</sup>

26. According to the Chicago Tribune, there are currently an estimated 285 million smartphones in active use in the United States.<sup>5</sup>

27. And, 29 percent of U.S. teens sleep with their cellphones in bed with them, according to a 2019 report by the nonprofit organization Common Sense Media.

### B. Defendants Market and Sell Their Smartphones as Being Safe to Use on and Close to the Human Body at All Times.

28. Widely recognized as Apple's premier product line, iPhone is a line of industry-leading smartphones that debuted on June 29, 2007.

29. When Steve Jobs introduced the iPhone in 2007, he described it as "the Internet in your pocket for the first time ever." He emphasized that the "iPhone is like having your life in your pocket."<sup>6</sup> And displayed behind Jobs as he launched the iPhone was the following picture:

---

<sup>1</sup> <https://www.pewinternet.org/fact-sheet/mobile/> (last visited August 23, 2019).

<sup>2</sup> PC Magazine defines the term "smartphone" as "[a] cellphone and handheld computer that created the greatest tech revolution since the Internet. A smartphone can do everything a personal computer can do, and because of its mobility, much more . . . A smartphone combines a cellphone with e-mail and Web, music and movie player, camera, camcorder, GPS navigation, voice recorder, alarm clock, flashlight, photo album, address book and a lot more. It is also a personal assistant that delivers information and answers questions about almost everything . . . . A lot more personal than a personal computer, a smartphone is generally within reach at all times." *See* <http://www.pcmag.com/encyclopedia/term/51537/smartphone> (last visited August 23, 2019).

26  
27  
28

30. In July of 2016, Apple celebrated the sale of its billionth iPhone.<sup>7</sup> Apple included within the press release announcing that milestone sale the following quote from its CEO Tim Cook: “iPhone has become one of the most important, world-changing and successful products in history. It’s become more than a constant companion. iPhone is truly an essential part of our daily life and enables much of what we do throughout the day.”<sup>8</sup>

31. Throughout the years, Apple has continued to expound on the theme of keeping the iPhone in your pocket.

32. For example, in May 2018, Apple released a commercial for iPhone X, touting the phone’s camera and portrait lighting capabilities. In the ad, a woman is seen taking the iPhone X out of her pocket. Immediately, lights, umbrellas and all of the other trappings of a professional studio appear around her.<sup>9</sup>

33. The commercial ends with the slogan “Studio in Your Pocket”:<sup>10</sup>

34. Apple’s commercials also regularly show people listening to music through headphones with their iPhones in their pockets<sup>11</sup> or using the iPhones while holding it in their bare hands.<sup>12</sup>

35. Apple’s commercials show people using iPhones in their beds,<sup>13</sup> even being held against a person’s body as they fall asleep while watching a video.<sup>14</sup>

36. Following Apple’s lead, Samsung launched the first android-based smartphone in April 2009. The Galaxy S series of smartphones has made Samsung the biggest seller of smartphones in the world.

37. Like Apple, Samsung advertises people using its smartphones in close proximity to their bodies.

38. For example, one commercial shows a pregnant woman lying in bed and touching the cell phone to her belly to take a sonogram of her child in utero. In the same commercial, a child has a smartphone tucked into his backpack.<sup>15</sup>

---

<sup>11</sup> <https://www.ispot.tv/ad/wC3Y/apple-iphone-x-sway-song-by-sam-smith> (last accessed August 23, 2019).

1 39. Another commercial shows a hiker take the Samsung phone out of her back pants’  
2 pocket at the summit.<sup>16</sup>

3 40. Thus, at all relevant times, Defendants have touted the use of their smartphones as being  
4 safe and appropriate to use while touching or within close proximity to the human body.

### 5 **C. The Dangers of Cellphone Exposure**

#### 6 **1. Radio Frequency (RF) Exposure**

7 41. Cellphones use radio waves to communicate with a vast network of fixed installations  
8 called base stations or cell towers. These radio waves are a form of electromagnetic radiation, in the  
9 same frequency range used by TVs and microwave ovens.

10 42. The public relations position from cellphone manufacturers, including Defendants, is  
11 that this kind of radiation, also known as radio frequency (RF) exposure, is not the same as ionizing  
12 radiation, such as gamma rays and X-rays, which can strip electrons from atoms and cause serious  
13 biological harm, including cancer.

14 43. However, RF exposure, sometimes also called non-ionizing electromagnetic field  
15 exposure, at high levels can heat biological tissue and cause harm. Eyes and testes are especially  
16 vulnerable because they do not dispel heat rapidly.

17 44. In fact, in 2015, more than 150 scientists from around the world sent an appeal to the  
18 United Nations and World Health Organization, calling for more protective RF exposure guidelines,  
19 and education of the public concerning the attendant health risks, particularly to children and fetal  
20 development.

21 45. The appeal, titled “International Appeal: Scientists call for Protection from Non-  
22 ionizing Electromagnetic Field Exposure,” was signed by 40 scientists in the United States, including  
23 a Member of the U.S. National Academies of Sciences Committee for Radio Frequencies; a retired  
24 leader of the National Toxicology Project’s health effects studies of cell phone radio frequency  
25 radiation under the National Institute of Environmental Health Sciences; and multiple physicians and  
26 scientists from esteemed universities, such as Harvard, Columbia, UCLA, USC and others.

27 \_\_\_\_\_  
28 <sup>16</sup> <https://www.bestadsonTV.com/ad/107658/Samsung-Do-What-You-Cant> (last accessed August 23, 2019).

1 46. In relevant part, the appeal explained the risk of RF exposure:

2  
3 Numerous recent scientific publications have shown that EMF affects living organisms at  
4 levels well below most international and national guidelines. Effects include increased  
5 cancer risk, cellular stress, increase in harmful free radicals, genetic damages, structural  
6 and functional changes of the reproductive system, learning and memory deficits,  
7 neurological disorders, and negative impacts on general well-being in humans.

8 47. Moreover, in the fall of 2018, in one of the largest studies to date, the National  
9 Toxicology Program (“NTP”), a research group within the National Institutes of Health, U.S.  
10 Department of Health and Human Services, found that high exposure to the kind of radiofrequency  
11 radiation used by cellphones was associated with “clear evidence” of cancerous heart tumors in male  
12 rats.

13 48. The NTP studies were conducted to test the assumption that cell phone radiofrequency  
14 radiation could not cause cancers or other adverse health effects (other than by tissue heating) because  
15 this type of radiation (non-ionizing) did not have sufficient energy to break chemical bonds.<sup>17</sup>

16 49. The results of the NTP studies demonstrated that cell phone radiation caused Schwann  
17 cell cancers of the heart and brain gliomas in rats, as well as DNA damage in the brain.<sup>18</sup>

18 50. Consistent with these findings, in May 2011, the International Agency for Research on  
19 Cancer (IARC), a part of the World Health Organization, classified radio-frequency radiation from  
20 wireless devices as a “possible human carcinogen” based largely on findings of increased risks of  
21 gliomas (a malignant type of brain cancer) and Schwann cell tumors in the brain near the ear in  
22 humans after long term use of cellphones.<sup>19</sup> Thus, the same tumor types are elevated in both animals  
23 and humans exposed to cell phone radiation.

## 24 2. Testing for RF Exposure

25 51. When cellphones hit the market in the 1980s, authorities focused on setting an exposure  
26 limit to address only the heating risks of cellphones. Scientists found that animals showed adverse

---

27 <sup>17</sup> <https://thehill.com/opinion/healthcare/416515-theres-a-clear-cell-phone-cancer-link-but-fda-is-downplaying-it> (last accessed August 23, 2019).

28 <sup>18</sup> <https://thehill.com/opinion/healthcare/416515-theres-a-clear-cell-phone-cancer-link-but-fda-is-downplaying-it> (last accessed August 23, 2019).

<sup>19</sup> [https://www.iarc.fr/wp-content/uploads/2018/07/pr208\\_E.pdf](https://www.iarc.fr/wp-content/uploads/2018/07/pr208_E.pdf) (last accessed August 23, 2019).

1 effects when exposed to enough radiofrequency radiation to raise their body temperature by 1 degree  
2 Celsius. Authorities used this finding to help calculate a safety limit for humans, building in a 50-fold  
3 safety factor.

4 52. The final rule, adopted by the Federal Communications Commission (“FCC”) in 1996,  
5 stated that cellphone users cannot potentially absorb more than 1.6 watts per kilogram averaged over  
6 one gram of tissue. To demonstrate compliance, phone makers were told to conduct two tests: when  
7 the devices were held against the head and when held up to an inch from the body.

8 53. Before a new cellphone model can be brought to market, a sample phone must be tested  
9 and comply with an exposure standard for radiofrequency radiation.

10 54. Companies testing a new phone for compliance with the safety limit are permitted to  
11 position the phone up to 25 millimeters away from the body — nearly an inch — depending on how  
12 the device is used.

13 55. Nonetheless, on its website, in the “Legal” section, Apple warrants that it tests the  
14 iPhone at the “highest transmission levels and placed in positions that simulate uses against the head,  
15 ***with no separation***, and when worn or carried against the torso of the body, with 10mm separation.”<sup>20</sup>

16 ///

17 ///

18 ///

19 ///

20 ///

21 ///

22 ///

23 ///

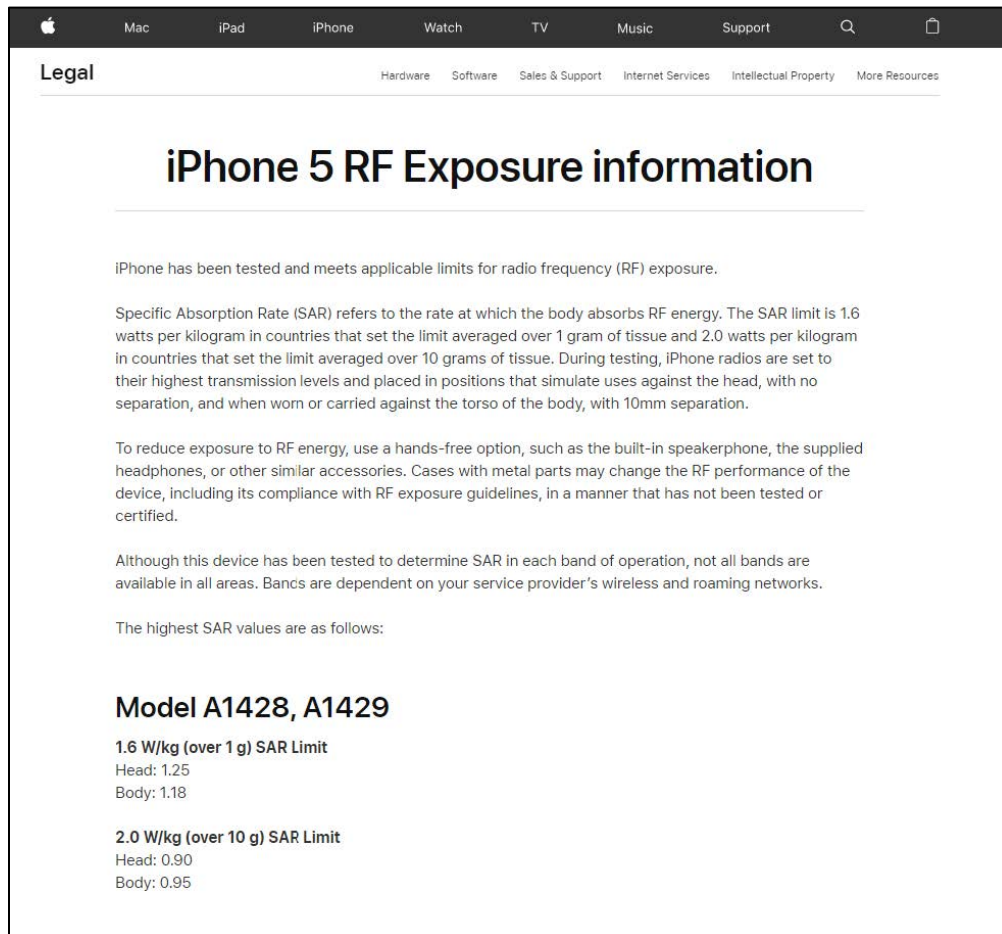

24 ///

25 ///

26

---

27 <sup>20</sup> <https://www.apple.com/legal/rfexposure/iphone5,1/en/> (emphasis supplied) (last accessed  
28 August 23, 2019). Apple also warrants that it tests its iPods at 5mm separation.  
<https://www.apple.com/legal/rfexposure/ipod5,1/en/> (last accessed August 23, 2019).

56. For some past models, Apple's website told users of the iPhone 4 and 4s: "Carry iPhone at least 10mm away from your body to ensure exposure levels remain at or below the as-tested levels." The site says those phones were tested at a distance of 10 millimeters.

57. When Apple submitted its application to the FCC to market the iPhone 7, the company included a similarly worded radiation statement, suggesting users carry the device at least 5 millimeters from the body, records show.

58. But iPhone 7s (and subsequent models) sold to the public did not include that advice.<sup>21</sup>

59. Similarly, on its website, Samsung provides users the opportunity to check the RF emission levels on its website. Samsung represents not only its smartphones meet federal

<sup>21</sup> <https://www.chicagotribune.com/investigations/ct-cell-phone-radiation-testing-20190821-72qgu4nzlfa5kyuhteieh4da-story.html> (last accessed August 23, 2019).

1 requirements, but also that “Body-worn SAR testing has been carried out at a separation distance of  
2 0.0 cm.” Samsung thus implies that using, carrying or wearing its smartphones on or in close  
3 proximity to the human body is completely safe.

### 4 **3. Testing RF Exposure Shows Clear Risk to Plaintiffs and the Class**

5 60. Beginning in or about August 2018, the Chicago Tribune hired RF Exposure Lab in San  
6 Marcos, California to measure eleven different cellphone models for radiofrequency radiation.<sup>22</sup>

7 61. RF Exposure, an accredited testing lab recognized by the FCC, has conducted radiation  
8 tests for fifteen years for wireless companies seeking FCC approval for new products.<sup>23</sup>

9 62. In August and October 2018, twelve phones were tested: three iPhone 7s, an iPhone X,  
10 an iPhone 8, an iPhone 8 Plus, a Galaxy S9, a Galaxy S8, a Galaxy J3, a Moto e5 Play, a Moto g6  
11 Play and a Vivo 5 Mini (collectively, the “Affected Phones”).<sup>24</sup>

12 63. According to the lab, all of the tests were done in accordance with FCC rules and  
13 guidelines.<sup>25</sup>

14 64. In one phase of the testing, all phones were positioned at the same distance from the  
15 simulated body tissue that the manufacturers chose for their own tests — from 5 to 15 millimeters,  
16 depending on the model.<sup>26</sup>

17 65. Prior to each test, the laboratory reviewed the publicly-available testing data that phone  
18 manufacturers had submitted to the FCC to demonstrate compliance with radiofrequency radiation  
19 limits and gain permission to market the devices.<sup>27</sup>

20 66. For each phone model, the laboratory determined which licensed band, frequency and  
21 channel yielded the highest radiofrequency radiation reading in the manufacturer’s own tests, and then  
22 replicated this configuration.<sup>28</sup>

23  
24 <sup>22</sup> [https://www.chicagotribune.com/investigations/ct-cell-phone-radiation-testing-methodology--  
25 20190821-whddrljk6fbmxoqh25u5t7lkb4-story.html](https://www.chicagotribune.com/investigations/ct-cell-phone-radiation-testing-methodology--20190821-whddrljk6fbmxoqh25u5t7lkb4-story.html) (last accessed August 23, 2019).

26 <sup>23</sup> *Id.*

27 <sup>24</sup> *Id.* Plaintiffs expect that the list of smartphones included in this group will expand with discovery.

28 <sup>25</sup> *Id.*

<sup>26</sup> *Id.*

<sup>27</sup> *Id.*

<sup>28</sup> *Id.*

1 67. To conduct the tests, each phone was placed underneath a tub containing specially  
2 formulated liquid intended to simulate the electrical properties of human body tissue.<sup>29</sup>

3 68. The laboratory used a base station simulator to place a call to the phone and adjusted the  
4 base station's settings to replicate the desired configuration, causing the phone to operate at full  
5 power.<sup>30</sup>

6 69. A probe attached to a robotic arm then moved in the liquid for eighteen minutes, taking  
7 276 measurements of the radiofrequency radiation absorbed. The results constituted the Specific  
8 Absorption Rate, or SAR, which must be under the federal safety limit.<sup>31</sup>

9 70. Two tests were conducted on each phone. In the first tests, each device was placed the  
10 same distance away from the outside of the tub that the manufacturers selected when they tested the  
11 phone.<sup>32</sup>

12 71. In the second test, the phones were placed 2 millimeters from the tub, a smaller distance  
13 meant to reflect a phone being carried in a pants or shirt pocket, based on actual measurements of  
14 pieces of dress shirts, T-shirts, jeans, track pants and underwear.<sup>33</sup>

15 72. In a second round of testing in March 2019, a person touched or grasped the originally-  
16 tested iPhones, plus one additional one, for the duration of the process. This was action intended to  
17 activate sensors designed to reduce the phones' power.<sup>34</sup>

18 73. The results by model follow.

19 74. For the iPhone 7 models, in the original or standard test at 5 millimeters, the RF  
20 exposure averaged 2.59 W/kg – more than the 1.6 W/kg limit. In the second or modified test at 5  
21 millimeters, the RF exposure averaged 3.225 W/kg – more than twice the federal exposure limit.<sup>35</sup> At  
22 2 millimeters, results from the original and modified tests ranged from 3.5 W/kg to 7.15 W/kg.

23  
24 <sup>29</sup> *Id.*

25 <sup>30</sup> *Id.*

26 <sup>31</sup> *Id.*

27 <sup>32</sup> *Id.*

<sup>35</sup> <https://www.chicagotribune.com/investigations/ct-cell-phone-radiation-testing-20190821-72qgu4nzzlfa5kyuhteieh4da-story.html> (last accessed August 23, 2019).

KEY:  Federal exposure limit of 1.6 W/kg

**Apple iPhone 7**

75. The Apple iPhone X and iPhone 8 each scored three out of four tests above the federal limit of 1.6W/kg:

**Apple iPhone X**

**Apple iPhone 8**

1  
2           76. When tested at 2 millimeters, the Samsung Galaxy S8 exceeded the federal limit by  
3 more than 500 percent:

#### Samsung Galaxy S9

##### Standard test

Test distance	W/kg
15mm from body	0.63
2mm from body	3.8

#### Samsung Galaxy S8

##### Standard test

Test distance	W/kg
10mm from body	1.53
2mm from body	8.22

#### Samsung Galaxy J3

##### Standard test

Test distance	W/kg
10mm from body	1.38
2mm from body	6.55

16  
17  
18  
19  
20  
21           77. These results are not an aberration, but instead reflect actual emissions conducted by an  
22 FCC-accredited laboratory under the same conditions used by the manufacturers themselves.

23           78. Notwithstanding these results and the studies reflecting the dangers inherent at these  
24 levels, Defendants have failed to take steps to prevent this excessive RF radiation exposure or to warn  
25 Plaintiffs and the Class of the dangers associated with using their products.

## VI. CLASS ACTION ALLEGATIONS

26  
27           79. The Apple Plaintiffs bring this action as a class action pursuant to Federal Rules of Civil  
28 Procedure 23(a) and 23(b) on behalf of themselves and all others similarly situated as members of the

1 following “Apple Class”: “All persons who purchased an iPhone 7, 8, or X for personal or household  
2 use in the United States.”

3 80. The Samsung Plaintiffs bring this action as a class action pursuant to Federal Rules of  
4 Civil Procedure 23(a) and 23(b) on behalf of themselves and all others similarly situated as members  
5 of the following “Samsung Class”: “All persons who purchased a Samsung Galaxy S8, S9, or J3 for  
6 personal or household use in the United States.”

7 81. Specifically excluded from the proposed Classes are Defendants, any of their past,  
8 present or future officers, directors, trustees, agents, representatives, employees, principals, trusts,  
9 partners, joint ventures or controlled entities; any successors, assigns, heirs or other persons or entities  
10 related to or affiliated with Defendants; the Judge assigned to this action; and any member of the  
11 Judge’s immediate family.

12 82. *Numerosity.* The members of the Classes are so numerous as to render their individual  
13 joinder impracticable. Although the precise number of Class members is unknown, based upon  
14 information and belief Plaintiffs allege that the Class contains millions of members.

15 83. The true number of Class members is known by Defendants, however, and, thus, may  
16 be notified of the pendency of this action through electronic mail, first class mail and/or by published  
17 notice.

18 84. *Existence and Predominance of Common Questions of Law and Fact.* Common  
19 questions of law and fact applicable to all members of the Class predominate over any questions  
20 affecting only individual Class members. These common legal and factual questions include, but are  
21 not limited to, the following:

- 22 a. Whether Apple and Samsung properly tested their smartphones before selling them to  
23 the Plaintiffs and the Class;
- 24 b. Whether Apple and Samsung represented and/or warranted that their smartphones  
25 were safe for ordinary use;
- 26 c. Whether the smartphones were safe for ordinary use;
- 27 d. Whether the RF radiation from the smartphones placed Plaintiffs and Class members  
28 at risk for cancer and other health problems;

- e. Whether Defendants owed a duty to Plaintiffs and Class members to disclose the dangers of their smartphones;
- f. Whether Defendants intentionally misrepresented the safety of the Plaintiffs' and Class members' smartphones to them and the public;
- g. Whether Plaintiffs or Class Members are entitled to medical monitoring;
- h. Whether Plaintiffs and the members of the Class have sustained financial loss, and the proper measure of any such financial loss;
- i. Whether Plaintiffs and the members of the Class are entitled to restitution;
- j. Whether Plaintiffs and the members of the Class are entitled to damages, and the proper measure of any such damages.

85. **Typicality.** Plaintiffs' claims are typical of those held by the other members of the Class in that each of them own one of Defendants' smartphones that exceed federal RF radiation exposure limits.

86. **Adequacy of Representation.** Plaintiffs will fairly and adequately protect the interests of the Class. Plaintiffs have retained trial counsel highly experienced in complex litigation including complex consumer class action litigation, and Plaintiffs intend to vigorously prosecute this action. Plaintiffs have no interests in this action that are adverse or antagonistic to the interests of the Class.

87. **Superiority.** Class action litigation is superior to all other available means for the fair and efficient adjudication of this controversy. The damages, harm and financial detriment suffered by individual members of the Class are relatively minor compared to the burden and expense that would be entailed by individual prosecution of their claims against Defendants.

88. It would thus be practically impossible for the members of the Class, on an individualized basis, to effectively seek and obtain redress for the wrongs committed against them. In addition, even if the Class members could—and realistically would be willing—to pursue such individualized litigation, this Court likely could not reasonably sustain the imposition on resources that individualized litigation over this controversy would entail.

89. Further, individualized litigation would create the danger of inconsistent or contradictory judgments arising from the identical factual predicate.

1 105. Plaintiffs, in reliance on Defendant's claims regarding the ways in which the iPhone was  
2 safe to and should be used, continued to use and place the iPhone on and in close proximity to their  
3 bodies.

4 106. Plaintiffs' reliance was justified given Defendant's superior position of authority and  
5 knowledge.

6 107. As a result, on information and belief, Plaintiffs have been exposed to harmful levels of  
7 RF radiation that could negatively affect their health for many years to come.

8 108. Plaintiffs and Class members are thus entitled to the establishment of a medical  
9 monitoring program that includes, among other things: (i) Establishing a trust fund, in an amount to  
10 be determined, to pay for the medical monitoring of all Class members; and (2) Notifying all Class  
11 members in writing that they may require frequent medical monitoring necessary to diagnose  
12 conditions resulting from RF radiation exposure.

13 **COUNT III**  
**NEGLIGENCE AGAINST APPLE**

14 109. The Apple Plaintiffs incorporate by reference all other paragraphs of this Complaint as  
15 if fully set forth here.

16 110. Apple owed Plaintiffs a duty to exercise reasonable care in selling smartphones that  
17 emitted RF radiation at safe levels when placed on or in close proximity to their bodies.

18 111. Defendant failed to exercise reasonable care when, after knowingly designing and  
19 manufacturing iPhones whose RF exposure exceeded safe limits when used on or in close proximity  
20 to the human body, it did not take any measures to warn or protect Plaintiffs and Class members from  
21 RF exposure and, instead, covered up any risks by misrepresenting the safety of the smartphones.

22 112. Defendant knew or should have known that Plaintiffs and the Class members would  
23 foreseeably suffer injury from RF radiation exposure as a result of Defendant's failure to exercise  
24 ordinary care.

25 113. Defendant's negligence proximately caused Plaintiffs' and the Class members' damages  
26 and their increased risk of harm as documented herein.

27 114. Plaintiffs and Class members are therefore entitled to the establishment of a medical  
28 monitoring program that includes, among other things: (1) Establishing a trust fund, in an amount to

1 be determined, to pay for the medical monitoring of all Class members; and (2) Notifying all Class  
2 members in writing that they may require frequent medical monitoring necessary to diagnose  
3 conditions resulting from RF radiation exposure.

4  
5 **COUNT IV**  
6 **NEGLIGENCE AGAINST SAMSUNG**

7 115. The Samsung Plaintiffs incorporate by reference all other paragraphs of this Complaint  
8 as if fully set forth here.

9 116. Samsung owed Plaintiffs a duty to exercise reasonable care in selling smartphones that  
10 emitted RF radiation at safe levels when placed on or in close proximity to their bodies.

11 117. Defendant failed to exercise reasonable care when, after knowingly designing and  
12 manufacturing iPhones whose RF exposure exceeded safe limits when used on or in close proximity  
13 to the human body, it did not take any measures to warn or protect Plaintiffs and Class members from  
14 RF exposure and, instead, covered up any risks by misrepresenting the safety of the smartphones.

15 118. Defendant knew or should have known that Plaintiffs and the Class members would  
16 foreseeably suffer injury from RF radiation exposure as a result of Defendant's failure to exercise  
17 ordinary care.

18 119. Defendant's negligence proximately caused Plaintiffs' and the Class members' damages  
19 and their increased risk of harm as documented herein.

20 120. Plaintiffs and Class members are therefore entitled to the establishment of a medical  
21 monitoring program that includes, among other things: (1) Establishing a trust fund, in an amount to  
22 be determined, to pay for the medical monitoring of all Class members; and (2) Notifying all Class  
23 members in writing that they may require frequent medical monitoring necessary to diagnose  
24 conditions resulting from RF radiation exposure.

25 **COUNT V**  
26 **VIOLATIONS OF THE CALIFORNIA UNFAIR COMPETITION LAW (CAL. BUS. &**  
27 **PROF. CODE § 17200 ET SEQ.) AGAINST APPLE**

28 121. The Apple Plaintiffs incorporate by reference all paragraphs as though fully set forth  
herein.

122. This claim is brought by the Apple Plaintiffs on behalf of the nationwide Apple Class.

1 123. California’s Unfair Competition Law (UCL), CAL. BUS. & PROF. CODE § 17200 et  
2 seq., proscribes acts of unfair competition, including “any unlawful, unfair or fraudulent business act  
3 or practice and unfair, deceptive, untrue or misleading advertising.” Defendant’s conduct, as  
4 described herein, was and is in violation of the UCL.

5 124. Defendant’s conduct violates the UCL in at least the following ways: Defendant failed  
6 to disclose that the Affected Phones (i) emitted RF radiation exposure when used or carried on or in  
7 close proximity to the human body at unsafe levels; and (ii) that the RF radiation exposure was far  
8 worse than a reasonable consumer would expect given the premium paid for these smartphones over a  
9 cellphone.

10 125. Defendant intentionally and knowingly misrepresented material facts regarding the  
11 Affected Phones with an intent to mislead Plaintiffs and the Class.

12 126. In purchasing or leasing the Affected Phones, Plaintiffs and the other Class members  
13 were deceived by Defendant’s failure to disclose that the phones emitted RF radiation exposure when  
14 used or carried on or in close proximity to the human body at unsafe levels.

15 127. Plaintiffs relied upon Defendant’s false misrepresentations when purchasing their  
16 phones and as a result suffered an injury-in-fact and lost money.

17 128. Plaintiffs relied on Defendant’s material representations and/or omissions that the  
18 Affected iPhones they were purchasing were safe to use and free from defects.

19 129. Defendant owed Plaintiffs and the Class a duty to disclose the truth about its the RF  
20 radiation exposure from its Affected Phones, because Defendant: (i) possessed exclusive knowledge  
21 of the levels of RF radiation exposure emitted from its phones; and (ii) misrepresented and/or made  
22 incomplete representations concerning the levels of RF radiation exposure when the phones were used  
23 or carried on or in close proximity to the body.

24 130. Plaintiffs and the other Class members were injured and suffered ascertainable loss,  
25 injury-in-fact, and/or actual damage as a proximate result of Defendant’s conduct in that Plaintiffs and  
26 the other Class members overpaid for their smartphones, and/or their smartphones have suffered a  
27 diminution in value. These injuries are the direct and natural consequence of Defendant’s  
28 misrepresentations and omissions.

1 131. Defendant’s violations present a continuing risk to Plaintiffs as well as to the general  
2 public. Defendant’s unlawful acts and practices complained of herein affect the public interest.

3 132. Absent those misrepresentations and omissions, Plaintiffs and the other Class members  
4 would not have purchased or leased these smartphones, would not have purchased or leased these  
5 smartphones at the prices they paid, and/or would have purchased or leased less expensive alternative  
6 cellphones that did not emit RF radiation exposure at unsafe levels.

7 133. Accordingly, Plaintiffs and the other Class members have suffered injury in fact,  
8 including lost money or property, as a result of Defendant’s misrepresentations and omissions.

9 134. Plaintiffs request that this Court enter such orders or judgments as may be necessary to  
10 restore to Plaintiffs and members of the Class any money it acquired by unfair competition, including  
11 restitution and/or restitutionary disgorgement, as provided in CAL. BUS. & PROF. CODE § 17203  
12 and CAL. CIV. CODE § 3345; and for such other relief as may be appropriate.

13  
14 **COUNT VI**  
15 **VIOLATIONS OF THE CALIFORNIA UNFAIR COMPETITION LAW (CAL. BUS. &**  
16 **PROF. CODE § 17200 ET SEQ.) AGAINST SAMSUNG**

17 135. The Samsung Plaintiffs incorporate by reference all paragraphs as though fully set forth  
18 herein.

19 136. This claim is brought by the Samsung Plaintiffs on behalf of the nationwide Samsung  
20 Class.

21 137. California’s Unfair Competition Law (UCL), CAL. BUS. & PROF. CODE § 17200 et  
22 seq., proscribes acts of unfair competition, including “any unlawful, unfair or fraudulent business act  
23 or practice and unfair, deceptive, untrue or misleading advertising.” Defendant’s conduct, as  
24 described herein, was and is in violation of the UCL.

25 138. Defendant’s conduct violates the UCL in at least the following ways: Defendant failed  
26 to disclose that the Affected Galaxy Phones (i) emitted RF radiation exposure when used or carried on  
27 or in close proximity to the human body at unsafe levels; and (ii) that the RF radiation exposure was  
28 far worse than a reasonable consumer would expect given the premium paid for these smartphones  
over a cellphone.

1 139. Defendant intentionally and knowingly misrepresented material facts regarding the  
2 Affected Phones with an intent to mislead Plaintiffs and the Class.

3 140. In purchasing or leasing the Affected Phones, Plaintiffs and the other Class members  
4 were deceived by Defendant's failure to disclose that the phones emitted RF radiation exposure when  
5 used or carried on or in close proximity to the human body at unsafe levels.

6 141. Plaintiffs relied upon Defendant's false misrepresentations when purchasing their  
7 phones and as a result suffered an injury-in-fact and lost money.

8 142. Plaintiffs relied on Defendant's material representations and/or omissions that the  
9 Affected Phones they were purchasing were safe to use and free from defects.

10 143. Defendant owed Plaintiffs and the Class a duty to disclose the truth about its the RF  
11 radiation exposure from its Affected Phones, because Defendant: (i) possessed exclusive knowledge  
12 of the levels of RF radiation exposure emitted from its phones; and (ii) misrepresented and/or made  
13 incomplete representations concerning the levels of RF radiation exposure when the phones were used  
14 or carried on or in close proximity to the body.

15 144. Plaintiffs and the other Class members were injured and suffered ascertainable loss,  
16 injury-in-fact, and/or actual damage as a proximate result of Defendant's conduct in that Plaintiffs and  
17 the other Class members overpaid for their smartphones, and/or their smartphones have suffered a  
18 diminution in value. These injuries are the direct and natural consequence of Defendant's  
19 misrepresentations and omissions.

20 145. Defendant's violations present a continuing risk to Plaintiffs as well as to the general  
21 public. Defendant's unlawful acts and practices complained of herein affect the public interest.

22 146. Absent those misrepresentations and omissions, Plaintiffs and the other Class members  
23 would not have purchased or leased these smartphones, would not have purchased or leased these  
24 smartphones at the prices they paid, and/or would have purchased or leased less expensive alternative  
25 cellphones that did not emit RF radiation exposure at unsafe levels.

26 147. Accordingly, Plaintiffs and the other Class members have suffered injury in fact,  
27 including lost money or property, as a result of Defendant's misrepresentations and omissions.  
28

1 148. Plaintiffs request that this Court enter such orders or judgments as may be necessary to  
2 restore to Plaintiffs and members of the Class any money it acquired by unfair competition, including  
3 restitution and/or restitutionary disgorgement, as provided in CAL. BUS. & PROF. CODE § 17203  
4 and CAL. CIV. CODE § 3345; and for such other relief as may be appropriate.

5 **COUNT VII**  
6 **VIOLATIONS OF THE CALIFORNIA CONSUMERS LEGAL REMEDIES ACT (CAL. CIV.**  
7 **CODE. §§ 1750, ET SEQ.) AGAINST APPLE**

8 149. The Apple Plaintiffs incorporate by reference all paragraphs as though fully set forth  
9 herein.

10 150. This claim is brought by the Apple Plaintiffs on behalf of the nationwide Apple Class.

11 151. Defendant violated the California Consumers Legal Remedies Act (CLRA) in numerous  
12 respects. Defendant failed to disclose that the Affected Phones (i) emitted RF radiation exposure when  
13 used or carried on or in close proximity to the human body at unsafe levels; and (ii) that the RF  
14 radiation exposure was far worse than a reasonable consumer would expect given the premium paid  
15 for these smartphones over a cellphone.

16 152. Defendant intentionally and knowingly misrepresented material facts regarding the  
17 Affected Phones with an intent to mislead Plaintiffs and the Class.

18 153. In purchasing or leasing the Affected Phones, Plaintiffs and the other Class members  
19 were deceived by Defendant's failure to disclose that the phones emitted RF radiation exposure when  
20 used or carried on or in close proximity to the human body at unsafe levels.

21 154. Plaintiffs and Class members reasonably relied upon Defendant's false  
22 misrepresentations and omissions. They had no way of knowing that Defendant's representations were  
23 false and gravely misleading. Plaintiffs and Class members did not, and could not, unravel  
24 Defendant's deception on their own.

25 155. Defendant knew or should have known that its conduct violated the CLRA.

26 156. Defendant owed Plaintiffs and the Class a duty to disclose the truth about its the RF  
27 radiation exposure from its Affected Phones, because Defendant: (i) possessed exclusive knowledge  
28 of the levels of RF radiation exposure emitted from its phones; and (ii) misrepresented and/or made

1 incomplete representations concerning the levels of RF radiation exposure when the phones were used  
2 or carried on or in close proximity to the body.

3 157. Plaintiffs and the other Class members relied on Defendant's material representations  
4 and/or omissions that the Affected iPhones they were purchasing were safe to use and free from  
5 defects.

6 158. Defendant's conduct proximately caused injuries to Plaintiffs and the other Class  
7 members.

8 159. Plaintiffs and the other Class members were injured and suffered ascertainable loss,  
9 injury-in-fact, and/or actual damage as a proximate result of Defendant's conduct in that Plaintiffs and  
10 the other Class members overpaid for their smartphones, and/or their smartphones have suffered a  
11 diminution in value. These injuries are the direct and natural consequence of Defendant's  
12 misrepresentations and omissions.

13 160. Defendant's misrepresentations and omissions alleged herein caused Plaintiffs and the  
14 other Class members to make their purchases or leases of their Affected Phones.

15 161. Absent those misrepresentations and omissions, Plaintiffs and the other Class members  
16 would not have purchased or leased these smartphones, would not have purchased or leased these  
17 smartphones at the prices they paid, and/or would have purchased or leased less expensive alternative  
18 cellphones that did not emit RF radiation exposure at unsafe levels.

19 162. Plaintiffs were deceived by Apple's failure to disclose the true nature of its  
20 Smartphones.

21 163. Plaintiffs demand judgment against Defendant under the CLRA for injunctive relief as  
22 may be appropriate and an award of attorneys' fees and costs.

23 164. Plaintiffs have provided Defendant with notice of its violations of the CLRA pursuant to  
24 CAL. CIV. CODE § 1782(a). The notice was transmitted to Defendant on August 23, 2019. If after  
25 thirty days of receipt of this letter, Defendant has failed to adequately address the violations alleged  
26 herein, Plaintiffs will amend the complaint to add a claim for damages under the CLRA.  
27  
28

1 **COUNT VIII**  
2 **VIOLATIONS OF THE CALIFORNIA CONSUMERS LEGAL REMEDIES ACT (CAL. CIV.**  
3 **CODE. §§ 1750, ET SEQ.) AGAINST SAMSUNG**

4 165. The Samsung Plaintiffs incorporate by reference all paragraphs as though fully set forth  
5 herein.

6 166. This claim is brought by the Samsung Plaintiffs on behalf of the nationwide Samsung  
7 Class.

8 167. Defendant violated the California Consumers Legal Remedies Act (“CLRA”) in  
9 numerous respects. Defendant failed to disclose that the Affected Phones (i) emitted RF radiation  
10 exposure when used or carried on or in close proximity to the human body at unsafe levels; and (ii)  
11 that the RF radiation exposure was far worse than a reasonable consumer would expect given the  
12 premium paid for these smartphones over a cellphone.

13 168. Defendant intentionally and knowingly misrepresented material facts regarding the  
14 Affected Phones with an intent to mislead Plaintiffs and the Class.

15 169. In purchasing or leasing the Affected Phones, Plaintiffs and the other Class members  
16 were deceived by Defendant’s failure to disclose that the phones emitted RF radiation exposure when  
17 used or carried on or in close proximity to the human body at unsafe levels.

18 170. Plaintiffs and Class members reasonably relied upon Defendant's false  
19 misrepresentations and omissions. They had no way of knowing that Defendant's representations were  
20 false and gravely misleading. Plaintiffs and Class members did not, and could not, unravel  
21 Defendant's deception on their own.

22 171. Defendant knew or should have known that its conduct violated the CLRA.

23 172. Defendant owed Plaintiffs and the Class a duty to disclose the truth about its the RF  
24 radiation exposure from its Affected Phones, because Defendant: (i) possessed exclusive knowledge  
25 of the levels of RF radiation exposure emitted from its phones; and (ii) misrepresented and/or made  
26 incomplete representations concerning the levels of RF radiation exposure when the phones were used  
27 or carried on or in close proximity to the body.  
28

1 173. Plaintiffs and the other Class members relied on Defendant's material representations  
2 and/or omissions that the Affected Phones they were purchasing were safe to use and free from  
3 defects.

4 174. Defendant's conduct proximately caused injuries to Plaintiffs and the other Class  
5 members.

6 175. Plaintiffs and the other Class members were injured and suffered ascertainable loss,  
7 injury-in-fact, and/or actual damage as a proximate result of Defendant's conduct in that Plaintiffs and  
8 the other Class members overpaid for their smartphones, and/or their smartphones have suffered a  
9 diminution in value. These injuries are the direct and natural consequence of Defendant's  
10 misrepresentations and omissions.

11 176. Defendant's misrepresentations and omissions alleged herein caused Plaintiffs and the  
12 other Class members to make their purchases or leases of their Affected Phones.

13 177. Absent those misrepresentations and omissions, Plaintiffs and the other Class members  
14 would not have purchased or leased these smartphones, would not have purchased or leased these  
15 smartphones at the prices they paid, and/or would have purchased or leased less expensive alternative  
16 cellphones that did not emit RF radiation exposure at unsafe levels.

17 178. Plaintiffs were deceived by Samsung's failure to disclose the true nature of its  
18 Smartphones.

19 179. Plaintiffs demand judgment against Defendant under the CLRA for injunctive relief as  
20 may be appropriate and an award of attorneys' fees and costs.

21 180. Plaintiffs have provided Defendant with notice of its violations of the CLRA pursuant to  
22 CAL. CIV. CODE § 1782(a). The notice was transmitted to Defendant on August 23, 2019. If after  
23 thirty days of receipt of this letter, Defendant has failed to adequately address the violations alleged  
24 herein, Plaintiffs will amend the complaint to add a claim for damages under the CLRA.

25 **COUNT IX**  
26 **VIOLATIONS OF THE CALIFORNIA FALSE ADVERTISING LAW (CAL. BUS. & PROF.**  
27 **CODE § 17500 ET SEQ.) AGAINST APPLE**

28 181. Plaintiffs incorporate by reference all paragraphs as though fully set forth herein.

1           182. This claim is brought by the Apple Plaintiffs on behalf of purchasers who are members  
2 of the Apple Class.

3           183. CAL. BUS. & PROF. CODE § 17500 states: "It is unlawful for any . . . corporation . . .  
4 with intent directly or indirectly to dispose of real or personal property . . . to induce the public to  
5 enter into any obligation relating thereto, to make or disseminate or cause to be made or disseminated  
6 . . . from this state before the public in any state, in any newspaper or other publication, or any  
7 advertising device, . . . or in any other manner or means whatever, including over the Internet, any  
8 statement . . . which is untrue or misleading, and which is known, or which by the exercise of  
9 reasonable care should be known, to be untrue or misleading."

10           184. Defendant failed to disclose that the that the Affected iPhones (i) emitted RF radiation  
11 exposure when used or carried on or in close proximity to the human body at unsafe levels; and (ii)  
12 that the RF radiation exposure was far worse than a reasonable consumer would expect given the  
13 premium paid for these smartphones over a cellphone.

14           185. Defendant caused to be made or disseminated through California and the United States,  
15 through advertising, marketing and other publications, statements that were untrue or misleading, and  
16 which were known, or which by the exercise of reasonable care should have been known to  
17 Defendant, to be untrue and misleading to consumers, including Plaintiffs and the other Class  
18 members.

19           186. Defendant has violated § 17500 because the misrepresentations and omissions regarding  
20 the functionality, reliability, and safety of the Affected iPhones as set forth in this Complaint were  
21 material and likely to deceive a reasonable consumer.

22           187. Plaintiffs and the other Class members have suffered an injury in fact, including the loss  
23 of money or property, as a result of Defendant's unfair, unlawful, and/or deceptive practices. In  
24 purchasing or leasing their Affected iPhones, Plaintiffs and the other Class members relied on the  
25 misrepresentations and/or omissions of Defendant with respect to the functionality, reliability, and  
26 safety of the Affected iPhones.

27           188. Defendant's representations turned out not to be true because the Affected iPhones emit  
28 unsafe levels of RF radiation exposure when used or carried on or in close proximity to the body.

1 189. Had Plaintiffs and the other Class members known this, they would not have purchased  
2 or leased their smartphones and/or paid as much for them. Accordingly, Plaintiffs and the other Class  
3 members overpaid for their smartphones.

4 190. All of the wrongful conduct alleged herein occurred, and continues to occur, in the  
5 conduct of Defendant's business.

6 191. Defendant's wrongful conduct is part of a pattern or generalized course of conduct that  
7 is still perpetuated and repeated, both in the State of California and nationwide.

8 192. The facts concealed and omitted by Defendant to Plaintiffs and the other Class members  
9 are material in that a reasonable consumer would have considered them to be important in deciding  
10 whether to purchase or lease the Affected iPhones or pay a lower price. Had Plaintiffs and the other  
11 Class members known of the higher RF radiation exposure at the time they purchased or leased their  
12 Affected iPhones, they would not have purchased or leased those smartphones, or would have paid  
13 substantially less than they did.

14 193. Plaintiffs' and the other Class members' injuries were proximately caused by  
15 Defendant's fraudulent and deceptive business practices.

16 194. Plaintiffs, individually and on behalf of the other Class members, request that this Court  
17 enter such orders or judgments as may be necessary to restore to Plaintiffs and the other Class  
18 members any money Defendant acquired by unfair competition, including restitution and/or  
19 restitutionary disgorgement, and for such other relief as may be appropriate.

20 **COUNT X**  
21 **VIOLATIONS OF THE CALIFORNIA FALSE ADVERTISING LAW (CAL. BUS. & PROF.**  
22 **CODE § 17500 ET SEQ.) AGAINST SAMSUNG**

23 195. The Samsung Plaintiffs incorporate by reference all paragraphs as though fully set forth  
24 herein.

25 196. This claim is brought by the Samsung Plaintiffs on behalf of the nationwide Samsung  
26 Class.

27 197. Plaintiffs incorporate by reference all paragraphs as though fully set forth herein.

28 198. This claim is brought by the Samsung Plaintiffs on behalf of purchasers who are  
members of the Samsung Class.

1           199. CAL. BUS. & PROF. CODE § 17500 states: "It is unlawful for any . . . corporation . . .  
2 with intent directly or indirectly to dispose of real or personal property . . . to induce the public to  
3 enter into any obligation relating thereto, to make or disseminate or cause to be made or disseminated  
4 . . . from this state before the public in any state, in any newspaper or other publication, or any  
5 advertising device, . . . or in any other manner or means whatever, including over the Internet, any  
6 statement . . . which is untrue or misleading, and which is known, or which by the exercise of  
7 reasonable care should be known, to be untrue or misleading."

8           200. Defendant failed to disclose that the that the Affected Galaxy Phones (i) emitted RF  
9 radiation exposure when used or carried on or in close proximity to the human body at unsafe levels;  
10 and (ii) that the RF radiation exposure was far worse than a reasonable consumer would expect given  
11 the premium paid for these smartphones over a cellphone.

12           201. Defendant caused to be made or disseminated through California and the United States,  
13 through advertising, marketing and other publications, statements that were untrue or misleading, and  
14 which were known, or which by the exercise of reasonable care should have been known to  
15 Defendant, to be untrue and misleading to consumers, including Plaintiffs and the other Class  
16 members.

17           202. Defendant has violated § 17500 because the misrepresentations and omissions regarding  
18 the functionality, reliability, and safety of the Affected Phones as set forth in this Complaint were  
19 material and likely to deceive a reasonable consumer.

20           203. Plaintiffs and the other Class members have suffered an injury in fact, including the loss  
21 of money or property, as a result of Defendant's unfair, unlawful, and/or deceptive practices. In  
22 purchasing or leasing their Affected Phones, Plaintiffs and the other Class members relied on the  
23 misrepresentations and/or omissions of Defendant with respect to the functionality, reliability, and  
24 safety of the Affected Phones.

25           204. Defendant's representations turned out not to be true because the Affected Phones emit  
26 unsafe levels of RF radiation exposure when used or carried on or in close proximity to the body.  
27  
28

1           213. The Apple Plaintiffs bring this alternative Count against Apple, individually, and on  
2 behalf of all similarly situated residents of each of the 50 states for violations of the state consumer  
3 protection acts including:

- 4           a. the Alaska Unfair Trade Practices And Consumer Protection Act, Alaska Stat. §  
5           45.50.471, et seq.;
- 6           b. the Arizona Consumer Fraud Act, Ariz. Rev. Stat. §§ 44-1521, et seq.;
- 7           c. the Arkansas Deceptive Trade Practices Act, Ark. Code § 4-88-101, et seq.;
- 8           d. the California Unfair Competition Law, Bus. & Prof. Code §§ 17200, et seq. and 17500,  
9           et seq.;
- 10          e. the California Consumers Legal Remedies Act, Cal. Civ. Code § 1750, et seq.;

- 17 gg. the Ohio Consumer Sales Practices Act, Ohio Rev. Code Ann. § 1345.01, et seq.;
- 18 hh. the Oklahoma Consumer Protection Act, Okla. Stat. tit. 15 § 751, et seq.;
- 19 ii. the Oregon Unlawful Trade Practices Act, Or. Rev. Stat. § 646.605, et seq.;
- 20 jj. the Pennsylvania Unfair Trade Practices and Consumer Protection Law, 73 P.S. § 201-  
21 1, et seq.;
- 22 kk. the Rhode Island Deceptive Trade Practices Act, R.I. Gen. Laws § 6-13.1-5.2(B), et  
23 seq.;
- 24 ll. the South Carolina Unfair Trade Practices Act, S.C. Code Ann. §§ 39-5- 10, et seq.;
- 25 mm. the South Dakota Deceptive Trade Practices and Consumer Protection, S.D. Codified  
26 Laws § 37-24-1, et seq.;
- 27 nn. the Tennessee Consumer Protection Act, Tenn. Code Ann. § 47-18-101, et seq.;
- 28

- oo. the Texas Deceptive Trade Practices-Consumer Protection Act, Tex. Code Ann., Bus. & Con. § 17.41, et seq.;
- pp. the Utah Consumer Sales Practices Act, Utah Code. Ann. § 13-11-175, et seq.;
- qq. the Vermont Consumer Fraud Act, 9 V.S.A. § 2451, et seq.;
- rr. the Virginia Consumer Protection Act of 1977, Va. Code Ann. § 59.1-199, et seq.;
- ss. the Washington Consumer Protection Act, Wash. Rev. Code § 19.86.010, et seq.;
- tt. the West Virginia Consumer Credit And Protection Act, W. Va. Code § 46A, et seq.;
- uu. the Wisconsin Deceptive Trade Practices Act, Wis. Stat. § 100.18, et seq.; and
- vv. the Wyoming Consumer Protection Act, Wyo. Stat. Ann. § 40-12-101, et seq.

214. The acts, practices, misrepresentations and omissions by Defendant described above, and Defendant's dissemination of deceptive and misleading advertising and marketing materials in connection therewith, occurring in the course of conduct involving trade or commerce, constitute unfair methods of competition and unfair or deceptive acts or practices within the meaning of each of the above-enumerated statutes.

215. Defendant's acts and practices created a likelihood of confusion or of misunderstanding and misled, deceived or damaged Plaintiffs and members of the Class in connection with the sale or advertisement of the Affected iPhones. Defendant's conduct also constituted the use or employment of deception, fraud, false pretense, false promise, misrepresentation, or knowingly concealing, suppressing, or omitting a material fact with intent that others rely upon the concealment, suppression or omission in connection with the sale or advertisement of goods or services whether or not a person has in fact been misled, deceived or damaged in violation of each of the above-enumerated statutes.

216. Plaintiffs, on behalf of themselves and the other Class members, seek monetary damages, treble damages and such other and further relief as set forth in each of the above enumerated statutes.

**COUNT XII**  
**ALTERNATIVE COUNT FOR VIOLATION OF STATE CONSUMER PROTECTION**  
**ACTS AGAINST SAMSUNG**

217. Plaintiffs incorporate by reference all other paragraphs of this Complaint as if fully set forth herein.

1           218. The Samsung Plaintiffs bring this alternative Count against Samsung, individually, and  
2 on behalf of all similarly situated residents of each of the 50 states for violations of the state consumer  
3 protection acts including:

- 4           a. the Alaska Unfair Trade Practices And Consumer Protection Act, Alaska Stat. §  
5           45.50.471, et seq.;
- 6           b. the Arizona Consumer Fraud Act, Ariz. Rev. Stat. §§ 44-1521, et seq.;
- 7           c. the Arkansas Deceptive Trade Practices Act, Ark. Code § 4-88-101, et seq.;
- 8           d. the California Unfair Competition Law, Bus. & Prof. Code §§ 17200, et seq. and  
9           17500, et seq.;

- 4 w. the Minnesota Prevention of Consumer Fraud Act, Minn. Stat. § 325F, et seq.;
- 5 x. the Missouri Merchandising Practices Act, Mo. Rev. Stat. § 407, et seq.;
- 6 y. the Nebraska Consumer Protection Act, Neb. Rev. St. §§ 59-1601, et seq.;
- 7 z. the Nevada Deceptive Trade Practices Act, Nev. Rev. Stat. § 41.600, et seq.
- 8 aa. the New Hampshire Regulation of Business Practices For Consumer Protection, N.H.  
9 Rev. Stat. § 358-A:1, et seq.;
- 10 bb. the New Jersey Consumer Fraud Act, N.J. Stat. Ann. § 56:8, et seq.;
- 11 cc. the New Mexico Unfair Practices Act, N.M. Stat. Ann. § 57-12-1, et seq.;
- 12 dd. the New York Consumer Protection from Deceptive Acts and Practices, N.Y. Gen.  
13 Bus. Law § 349, et seq.;
- 14 ee. the North Carolina Unfair And Deceptive Trade Practices Act, N.C. Gen Stat. § 75-  
15 1.1, et seq.;
- 16 ff. the North Dakota Consumer Fraud Act, N.D. Cent. Code § 51-15, et seq.;
- 17 gg. the Ohio Consumer Sales Practices Act, Ohio Rev. Code Ann. § 1345.01, et seq.;
- 18 hh. the Oklahoma Consumer Protection Act, Okla. Stat. tit. 15 § 751, et seq.;
- 19 ii. the Oregon Unlawful Trade Practices Act, Or. Rev. Stat. § 646.605, et seq.;
- 20 jj. the Pennsylvania Unfair Trade Practices and Consumer Protection Law, 73 P.S. §  
21 201-1, et seq.;
- 22 kk. the Rhode Island Deceptive Trade Practices Act, R.I. Gen. Laws § 6-13.1-5.2(B), et  
23 seq.;
- 24 ll. the South Carolina Unfair Trade Practices Act, S.C. Code Ann. §§ 39-5- 10, et seq.;
- 25 mm. the South Dakota Deceptive Trade Practices and Consumer Protection, S.D.  
26 Codified Laws § 37-24-1, et seq.;
- 27 nn. the Tennessee Consumer Protection Act, Tenn. Code Ann. § 47-18-101, et seq.;
- 28

- oo. the Texas Deceptive Trade Practices-Consumer Protection Act, Tex. Code Ann., Bus. & Con. § 17.41, et seq.;
- pp. the Utah Consumer Sales Practices Act, Utah Code. Ann. § 13-11-175, et seq.;
- qq. the Vermont Consumer Fraud Act, 9 V.S.A. § 2451, et seq.;
- rr. the Virginia Consumer Protection Act of 1977, Va. Code Ann. § 59.1-199, et seq.;
- ss. the Washington Consumer Protection Act, Wash. Rev. Code § 19.86.010, et seq.;
- tt. the West Virginia Consumer Credit And Protection Act, W. Va. Code § 46A, et seq.;
- uu. the Wisconsin Deceptive Trade Practices Act, Wis. Stat. § 100.18, et seq.; and
- vv. the Wyoming Consumer Protection Act, Wyo. Stat. Ann. § 40-12-101, et seq.

219. The acts, practices, misrepresentations and omissions by Defendant described above, and Defendant's dissemination of deceptive and misleading advertising and marketing materials in connection therewith, occurring in the course of conduct involving trade or commerce, constitute unfair methods of competition and unfair or deceptive acts or practices within the meaning of each of the above-enumerated statutes.

220. Defendant's acts and practices created a likelihood of confusion or of misunderstanding and misled, deceived or damaged Plaintiffs and members of the Class in connection with the sale or advertisement of the Affected Galaxy Phones. Defendant's conduct also constituted the use or employment of deception, fraud, false pretense, false promise, misrepresentation, or knowingly concealing, suppressing, or omitting a material fact with intent that others rely upon the concealment, suppression or omission in connection with the sale or advertisement of goods or services whether or not a person has in fact been misled, deceived or damaged in violation of each of the above-enumerated statutes.

221. Plaintiffs, on behalf of themselves and the other Class members, seek monetary damages, treble damages and such other and further relief as set forth in each of the above enumerated statutes.

**COUNT XIII  
UNJUST ENRICHMENT AGAINST APPLE**

1  
2  
3       222. Plaintiffs repeat and re-allege all preceding paragraphs as if fully set forth herein. The  
4 Apple Plaintiffs bring this Count against Apple on behalf of the Apple Class.

5       223. At all times relevant hereto, Defendant designed, manufactured, produced, marketed  
6 and/or sold the Affected iPhones.

7       224. Apple has benefitted from its unlawful acts by receiving payments for the sale of the  
8 Affected iPhones.

9       225. Plaintiffs and members of the Class conferred upon Defendant, without knowledge that  
10 the Affected Phones emitted RF radiation exposure at unsafe levels when used or carried or in close  
11 proximity to the human body, benefits that were non-gratuitous.

12       226. Defendant appreciated, or had knowledge of, the non-gratuitous benefits conferred upon  
13 it by Plaintiffs and members of the Class.

14       227. Defendant accepted or retained the non-gratuitous benefits conferred by Plaintiffs and  
15 members of the Class, with full knowledge and awareness that, as a result of Defendant's  
16 unconscionable wrongdoing, Plaintiffs and members of the Class were not receiving product of high  
17 quality, nature, fitness or value that had been represented by Defendant and reasonable consumers  
18 would have expected.

19       228. Retaining the non-gratuitous benefits conferred upon Defendant by Plaintiffs and  
20 members of the Class under these circumstances made Defendant's retention of the non-gratuitous  
21 benefits unjust and inequitable.

22       229. Because Defendant's retention of the non-gratuitous benefits conferred by Plaintiffs and  
23 members of the Class is unjust and inequitable, Plaintiffs and members of the Class are entitled to,  
24 and hereby seek disgorgement and restitution of Defendant's wrongful profits, revenue, and benefits  
25 in a manner established by the Court.

26 ///

27 ///

28 ///

**COUNT XIV  
UNJUST ENRICHMENT AGAINST SAMSUNG**

1  
2  
3       230. Plaintiffs repeat and re-allege all preceding paragraphs as if fully set forth herein. The  
4 Samsung Plaintiffs bring this Count against Samsung on behalf of the Samsung Class.

5       231. At all times relevant hereto, Defendant designed, manufactured, produced, marketed  
6 and/or sold the Affected Galaxy Phones.

7       232. Samsung has benefitted from its unlawful acts by receiving payments for the sale of the  
8 Affected Galaxy Phones.

9       233. Plaintiffs and members of the Class conferred upon Defendant, without knowledge that  
10 the Affected Phones emitted RF radiation exposure at unsafe levels when used or carried or in close  
11 proximity to the human body, benefits that were non-gratuitous.

12       234. Defendant appreciated, or had knowledge of, the non-gratuitous benefits conferred upon  
13 it by Plaintiffs and members of the Class.

14       235. Defendant accepted or retained the non-gratuitous benefits conferred by Plaintiffs and  
15 members of the Class, with full knowledge and awareness that, as a result of Defendant's  
16 unconscionable wrongdoing, Plaintiffs and members of the Class were not receiving product of high  
17 quality, nature, fitness or value that had been represented by Defendant and reasonable consumers  
18 would have expected.

19       236. Retaining the non-gratuitous benefits conferred upon Defendant by Plaintiffs and  
20 members of the Class under these circumstances made Defendant's retention of the non-gratuitous  
21 benefits unjust and inequitable.

22       237. Because Defendant's retention of the non-gratuitous benefits conferred by Plaintiffs and  
23 members of the Class is unjust and inequitable, Plaintiffs and members of the Class are entitled to,  
24 and hereby seek disgorgement and restitution of Defendant's wrongful profits, revenue, and benefits  
25 in a manner established by the Court.

**VIII. PRAYER FOR RELIEF**

26       **WHEREFORE**, Plaintiffs and the members of the Classes pray for judgment against  
27 Defendants, as follows:  
28

- 1 (a) Certifying the classes and appointing the respective Plaintiffs as Class  
2 Representatives and their counsel as Class Counsel;  
3 (b) Finding against Defendants on liability;  
4 (c) Awarding Plaintiffs and the Class the costs of medical monitoring,  
5 damages suffered by Plaintiffs and the Class, restitution to Plaintiffs and the  
6 Class of all monies wrongfully obtained by Defendant;  
7 (d) Granting appropriate injunctive relief;  
8 (e) Awarding reasonable attorneys' fees and costs incurred in prosecuting  
9 this action, and  
10 (f) Such other and further relief that the Court deems just and proper.

11 **JURY DEMAND**

12 Plaintiffs demand a trial by jury on all claims so triable.  
13  
14

15 Respectfully submitted,

16 DATED: August 23, 2019
