

We recently discovered a cybersecurity incident impacting a limited portion of our network environment. Upon discovery, we immediately retained a team of forensic experts to fully understand the extent of this incident and to ensure that we are operating within a secure and remediated network environment. Notably, due to the tireless effort of our employees and outside experts, all essential services continued without interruption. While data impact is limited, our comprehensive assessment is ongoing and may span several weeks.

Unfortunately, these types of situations have become all-too-common nationwide. Understanding this, we had put systems in place to mitigate such an occurrence. We recognize the significance of this event and are making every effort to protect ourselves from a similar incident in the future.
