

On December 16, 2025, the Millstone Medical Outsourcing, LLC (the “Company”) became aware of suspicious activity impacting its systems. After becoming aware of the incident, the Company promptly initiated an investigation with the assistance of third-party cybersecurity experts to determine the circumstances surrounding the incident. The investigation determined that between December 15, 2025, and December 19, 2025, certain Company data was subject to unauthorized access and/or acquisition. With the assistance of a third-party data review expert, the Company conducted a comprehensive review to determine what data had been accessed and/or acquired, to whom the personal information belonged, and identify contact information to provide notice. On July 15, 2026, the review determined that personal information was subject to unauthorized access and/or acquisition in this incident.

While we are currently unaware of any personal information being released, the Company takes your personal information seriously. We engaged leading cybersecurity experts and conducted a diligent investigation to confirm the nature and scope of the incident. We continue to make additional improvements that strengthen our cybersecurity protections. The Company is working to notify impacted individuals and customers. The Company is also providing impacted individuals with access to twenty-four (24) months of complimentary credit monitoring and identity protection services through TransUnion.

The Company respects the privacy of your personal information and takes the security of that information seriously. We sincerely regret any inconvenience or concern caused by this incident.
