

Notice of Data Event

Ocean Edge Resort and Golf Club (“Ocean Edge”) is providing notice of an incident that may affect the personal information of certain individuals. While we have no indication that any of the involved data has been used for identity theft or fraud, we are providing details about the incident, our response, and resources available to help individuals protect their information from possible misuse, should they determine it is appropriate to do so.

What Happened? On July 31, 2025, Ocean Edge became aware of suspicious activity within its network. Ocean Edge immediately launched an investigation to determine the nature and scope of the activity. The investigation determined that an unauthorized actor gained access to Ocean Edge’s network between July 22, and July 31, 2025 and copied certain files. Following the investigation, Ocean Edge undertook a detailed review of potentially affected files to determine what information was present in these files and to whom it related. We worked to identify contact information so we could let individuals know about this matter, and we are notifying individuals whose information was identified in the relevant files, where current address information is available. Again, we have no indication that any of the involved data has been used for identity theft or fraud.

What Information Was Involved? The information potentially affected by this incident varies by individual but may include name, Social Security number, driver’s license number, financial account information, medical information, health insurance information, and/or date of birth.

What We Are Doing. Ocean Edge takes this incident and information security very seriously. Upon discovery of this incident, we moved quickly to investigate the incident and assess the security of our network. As part of our ongoing commitment to information security, we are reviewing our policies and procedures and implementing additional security measures to further protect against similar incidents going forward. We also reported the incident to law enforcement.

What You Can Do. We encourage individuals to remain vigilant against incidents of identity theft and fraud and by reviewing accounts for any suspicious activity related to the use of their information, including with respect to financial or other accounts in their name. Individuals can find more information about obtaining a free copy of their credit report, protecting against potential identity theft and fraud, and other resources available to them in the below Steps You Can Take to Help Protect Personal Information.

For More Information. If you have additional questions, or need assistance, please contact us at 844-593-8439 (toll free), Monday through Friday, from 8:00a.m. – 8:00p.m., excluding major U.S. holidays.
