**IN THE UNITED STATES DISTRICT COURT  
FOR THE NORTHERN DISTRICT OF CALIFORNIA**

ERICA OLSEN, <i>an individual</i> , and KALEA WOODS, <i>an individual</i> ,	)	Case No.:
	)	
Plaintiffs,	)	CLASS ACTION COMPLAINT
	)	
vs.	)	DEMAND FOR JURY TRIAL
	)	
WILLIAM “RICK” SINGER, THE KEY WORLDWIDE FOUNDATION, THE EDGE COLLEGE & CAREER NETWORK, LLC, d/b/a “THE KEY,” THE UNIVERSITY OF SOUTHERN CALIFORNIA, STANFORD UNIVERSITY, UNIVERSITY OF CALIFORNIA LOS ANGELES, THE UNIVERSITY OF SAN DIEGO, THE UNIVERSITY OF TEXAS AT AUSTIN, WAKE FOREST UNIVERSITY, YALE UNIVERSITY, and GEORGETOWN UNIVERSITY,	)	
	)	
Defendants.	)	
	)	
	)	
	)	
	)	
	)	
	)	

**COMPLAINT**

Plaintiffs ERICA OLSEN and KALEA WOODS, individually and on behalf of all others similarly situated, brings this action based upon personal knowledge as to themselves and their own acts, and as to all other matters upon information and belief, based upon, *inter alia*, the investigations of their attorneys.

**I. OVERVIEW**

1. This Class Action Lawsuit revolves around two fraudulent college-admission schemes coordinated between three distinct groups: (1) parents whose college-age children had insufficient test scores and other credentials to gain admission to highly selective universities, but who nevertheless believed that they could bribe their child’s way through the college admissions door; (2) a California con-man, William “Rick” Singer, who, through the use of a fraudulent college-

1 admissions-mentoring company and a bogus California charitable foundation, saw an opportunity to  
2 enrich himself to the tune of millions of dollars through fraud and bribery; and (3) individuals  
3 involved in the college admission pipeline who were supposed to keep the college admission  
4 process honest (including standardized test administrators and representatives of at least seven  
5 highly selective Universities) who were willing to accept bribes and thereby taint the college  
6 admission process.

7         2. According to the first scheme (the “**Test Cheating**” scam), parents, in order to get their  
8 teenaged children into highly selective colleges for which the teenagers were not otherwise  
9 qualified, would pay hefty sums (frequently six-figure fees) to Singer, his business, or his fraudulent  
10 charity; and, in exchange, Singer would arrange for imposters to pose as the students and take their  
11 college entrance examinations (ACT or SAT) for them.

12         3. According to the second scheme (the “**Student-Athlete Recruitment** “ scam), parents  
13 would pay Singer, his business, or his fraudulent charity huge sums of money; and, in exchange,  
14 Singer would create bogus sports profiles for the parent’s teenaged student, making it seem as  
15 though the teenager was a superior athlete in a sport. Then Singer would offer significant hefty  
16 bribes to employees of the universities—typically coaches or managers in the school’s athletic  
17 department. Under college admission practices, university admissions programs would set aside a  
18 certain number of “slots” for admission of students who excelled in certain sports. The bribed  
19 university officials would then bypass otherwise qualified student candidates and instead insert into  
20 those athletic admissions slots the unqualified rich students who had bribed their way into the  
21 university.

22         4. As a result of both of these coordinated fraudulent bribery schemes, conducted through  
23 wire and mail fraud, unqualified students found their way into the admissions rolls of highly  
24 selective universities, while those students who played by the rules and did not have college-bribing  
25 parents were denied admission.

26         5. Meanwhile, each of the universities were negligent in failing to maintain adequate  
27 protocols and security measures in place to guarantee the sanctity of the college admissions process,  
28 and to ensure that their own employees were not engaged in these type of bribery schemes.

1           6. Each of the qualified, rejected students was damaged by the fraudulent and negligent  
2 conduct of the Defendants in that, at a minimum, each Class member paid college admission  
3 application fees to the Defendant universities without any understanding or warning that unqualified  
4 students were slipping in through the back door of the admissions process by committing fraud,  
5 bribery, cheating, and dishonesty.

6           7. Each of the universities took the students' admission application fees while failing to take  
7 adequate steps to ensure that their admissions process was fair and free of fraud, bribery, cheating  
8 and dishonesty.

## 9   **II. PARTIES**

10           8. Plaintiff Erica Olsen ("Olsen") is a former resident of Henderson, Clark County, Nevada,  
11 in Clark County, Nevada. Olsen currently attends Stanford University and is a Santa Clara County,  
12 California, resident located in the Northern District of California.

13           9. Plaintiff Kalea Woods ("Woods") is a former resident of San Diego County, California.  
14 Woods currently attends Stanford University and is a Santa Clara County, California, resident  
15 located in the Northern District of California.

16           10. Defendant William "Rick" Singer ("Singer") is, upon information and belief, a resident  
17 of Newport Beach, California, in Orange County California, but also does business in Sacramento,  
18 California. Singer is a citizen of California.

19           11. Defendant The Edge College & Career Network, LLC d/b/a "The Key" ("The Key") is  
20 a limited liability corporation with its principal place of business located at 3415 American River  
21 Drive, Suite D, Sacramento, CA 95864, in Sacramento, California, and is a resident of Sacramento  
22 County, California and a citizen of California. The Key also does business in Newport Beach,  
23 California, in Orange County, California.

24           12. Defendant The Key Worldwide Foundation ("KWF") is a purported charitable  
25 organization with its principal place of business located at 265 Hartnell Place, Sacramento, CA  
26 95825, and is a resident of Sacramento County, California and a citizen of California.

27  
28

1 13. Defendant University of Southern California (“USC”) is a private, highly selective  
2 university located in or near Los Angeles County, California and is a resident of Los Angeles  
3 County and citizen of California.

4 14. Defendant Stanford University (“Stanford”) is a private, highly selective university  
5 located in or near Palo Alto, California, in Santa Clara County, California, and is a resident of Santa  
6 Clara County and citizen of California.

7 15. Defendant University of San Diego (“USD”) is a private, highly selective university  
8 located in or near San Diego County, California, and is a resident of San Diego County and a citizen  
9 of California.

10 16. Defendant The University of Texas at Austin (“U-Texas”) is a public, highly selective  
11 university located in or near Travis County, Texas, and is a resident of Travis County and a citizen  
12 of Texas.

13 17. Defendant Wake Forest University is a private, highly selective university located in or  
14 near Forsyth County, North Carolina, and is a resident of Forsyth County and a citizen of North  
15 Carolina.

16 18. Defendant Yale University is a private, highly selective university located in or near  
17 New Haven County, Connecticut, and is a resident of New Haven County and a citizen of  
18 Connecticut.

19 19. Defendant Georgetown University is a private, highly selective university located in or  
20 near the District of Columbia, and is a resident and citizen of the District of Columbia.

21 **III. JURISDICTION AND VENUE**

22 20. The Court has subject matter jurisdiction over the state law claims alleged in this  
23 Complaint pursuant to the Class Action Fairness Act, 28 U.S.C. § 1332(d)(2)(A) because: (a) the  
24 matter in controversy exceeds the sum of \$5 million, exclusive of interest and costs; and (b) some of  
25 the Class members are citizens of a state that is different from the citizenship of some of the  
26 Defendants. In addition, federal question jurisdiction exists under 28 U.S.C. § 1331, in that  
27 Plaintiffs have alleged the violation of a federal statute (civil RICO).

28

1 21. The Court has personal jurisdiction over Defendants USC, USD, Stanford, and UCLA,  
2 Singer, The Key, and KWF because Plaintiff's claims arise out of the business activities of those  
3 Defendants conducted in the State of California.

4 22. The Court has personal jurisdiction over Defendants Yale University, Georgetown  
5 University, Wake Forest University, University of Texas at Austin, because each of those  
6 universities has solicited students residing in California to attend their universities; have accepted  
7 money, including application fees, from students residing in California applying to attend their  
8 universities; have recruited athletes residing in California; have participated in college sports  
9 competitions in California; have websites accessible by students in California; have entered into  
10 contracts with California residents; have engaged in systematic and continuous business in  
11 California; and generally have minimum contacts in California sufficient to satisfy the Due Process  
12 Clauses of the California and United States Constitutions.

13 23. Plaintiffs both attend Stanford University and reside in this District. Venue is proper in  
14 the Northern District of California because Defendants conduct a significant amount of business in  
15 this District and because Defendants have substantial contacts in this District. Moreover, much of  
16 the fraudulent conduct which occurred took place within the Northern District of California, and  
17 Defendant Stanford resides in the Northern District of California. 28 U.S.C. § 1391; 28 U.S.C. §  
18 84(a).

19 **IV. ALLEGATIONS COMMON TO ALL COUNTS**

20 24. Defendant Singer owned The Key and served as Chief Executive Officer of KWF.

21 25. The Key was a for-profit college counseling and preparation business that Singer  
22 founded in or about 2007 and incorporated in the State of California in or about 2012.

23 26. KWF was a non-profit corporation in Newport Beach, California, that Singer  
24 established as a purported charity in or about 2012.

25 27. In or about 2013, the Internal Revenue Service ("IRS") approved KWF as an exempt  
26 organization under Section 501(c)(3) of the Internal Revenue Code, meaning that KWF was exempt  
27 from paying federal income tax. KWF maintained several bank accounts (collectively, the "KWF  
28 charitable accounts").

1 28. Together, The Key and KWF constituted an “enterprise” as defined by 18 U.S. C. Sec.  
2 1961(4) (“the Key Enterprise”), that is, an association, in fact, of entities engaged in, and the  
3 activities of which affected, interstate and foreign commerce (“the enterprise”). The Key  
4 Enterprise constituted an ongoing organization whose members functioned as a continuing unit for a  
5 common purpose of achieving the objectives of the enterprise.

6 29. ACT, Inc. is a non-profit organization headquartered in Iowa City, Iowa that  
7 administers the ACT exam, a standardized test that is widely used as part of the college admissions  
8 process in the United States.

9 30. The College Board is a non-profit organization headquartered in New York, New York.  
10 Together with Educational Testing Service (“ETS”), a nonprofit organization headquartered in  
11 Lawrence Township, New Jersey, the College Board develops and administers the SAT, a  
12 standardized test that, like the ACT exam, is widely used as part of the college admissions process  
13 in the United States.

14 31. The College Board and ETS also develop and administer SAT subject tests, which are  
15 also used as part of the college admissions process.

16 32. The Defendant universities are highly selective universities. Typically, each university  
17 receives tens of thousands of applications and only accepts a very small percentage of applicants.

18 33. Acceptance of a student into one of these universities often makes it easier for a student  
19 to obtain a high-paying job or career after graduation.

20 34. The athletic teams of Georgetown, Stanford, UCLA, USD, USC, U-Texas, Wake Forest  
21 and Yale compete in most sports at the Division I level, the highest level of intercollegiate athletics  
22 sanctioned by the National Collegiate Athletic Association (“NCAA”).

23 35. Each of the Universities annually receives more than \$10,000 in federal grants.

24 36. Most selective colleges in the United States require students to take a standardized test,  
25 such as the ACT or the SAT, as part of the admissions process.

26 37. The ACT includes sections on English, mathematics, reading and science. The SAT  
27 includes sections on writing, critical reading and mathematics.

28

1 38. The ACT and the SAT are typically administered to large groups of students on  
2 specified dates and under strict time limits. In some instances, however, students with certain  
3 learning or other disabilities may qualify for extended time and, in such circumstances, may take the  
4 test alone, under the supervision of a test administrator retained by ACT, Inc. or the College Board.

5 39. Prior to administering the ACT, test administrators must typically certify that they will  
6 administer the exam in accordance with the ACT Administration Manual, and will ensure that the  
7 “test materials are kept secure and confidential, used for this examinee only, and returned to ACT  
8 immediately after testing.”

9 40. Similarly, prior to administering the SAT exam, test administrators must typically  
10 certify that they will administer the test in accordance with the SAT coordinator’s manual, that the  
11 SAT test is the property of the College Board, and that no one other than the student can “open the  
12 test book and see the test content.”

13 41. The ACT tests are sent to and from the testing sites via Federal Express, a private,  
14 interstate commercial carrier.

15 42. The SAT tests are sent to and from the testing sites via United Parcel Service (“UPS”), a  
16 private, interstate commercial carrier.

17 43. All of the Defendant Universities require prospective students to submit standardized  
18 test scores as part of their application packages.

19 44. When submitted, standardized test scores are a material part of the admissions process  
20 at each of the Universities. All of the Universities recruit student athletes, and may apply different  
21 criteria when evaluating applications from students with demonstrated athletic abilities. Recruited  
22 student athletes at USC, for example, are typically considered by a designated, admissions sub-  
23 committee, which gives significant consideration to their athletic abilities and which frequently  
24 admits applicants whose grades and standardized test scores are below those of other USC students,  
25 including non-recruited athletes.

26 45. The admissions offices at the Universities typically allot a set number of “slots” to each  
27 head coach of a varsity sport for that coach’s recruited athletes. At each of the Universities, the  
28

1 admissions prospects of recruited athletes are higher—and in some cases significantly higher—than  
2 those of non-recruited athletes with similar grades and standardized test scores.

3 46. The principal purposes of the racketeering conspiracy in this case included the  
4 following:

5 (a) to facilitate cheating on college entrance exams;

6 (b) to facilitate the admission of wealthy students to elite universities as recruited athletes,  
7 regardless of their athletic abilities; and

8 (c) to enrich Singer and his co-conspirators personally.

9 47. Among the manner and means by which Singer and his companies, along with the  
10 Defendants, carried out the racketeering conspiracy were the following:

11 (a) facilitating cheating on the SAT and ACT exams in exchange for bribes by arranging for  
12 or allowing:

13 (i) a third party to secretly take the exams in place of the actual students, or to replace the  
14 'students' exam responses with his own;

15 (ii) designating applicants as purported recruits for competitive college athletic teams,  
16 without regard for the 'applicants' athletic abilities, in exchange for bribes; and

17 (iii) concealing the nature and source of the bribe payments by laundering payments through  
18 the KWF charitable accounts.

19 48. On various dates between 2011 and September 2018, Singer and others committed and  
20 caused to be committed the following acts, among others, in furtherance of the racketeering  
21 conspiracy:

22 (a) cheating on standardized tests;

23 (b) Singer agreed with clients whose children were scheduled to take the SAT or ACT  
24 exams as part of the college admissions process to have another individual either take the tests in  
25 their children's place or correct the children's answers after they had completed the tests;

26 (c) Parents generally paid Singer between \$15,000 and \$75,000 per test, typically structuring  
27 the payments as purported donations to KWF that they wired or deposited into one of the KWF  
28 charitable accounts.

1 49. To facilitate the cheating, Singer counseled parents to seek extended time on the exams,  
2 including by having their children fake learning disabilities in order to obtain medical  
3 documentation which ACT, Inc. and the College Board typically required before granting students  
4 extended time.

5 50. Singer used the purported charitable donations from parents, at least in part, to bribe two  
6 SAT and ACT test administrators, including one administrator who administered the exams at a  
7 private school in Los Angeles, California; and a second test administrator who administered the  
8 exams at a public high school in Houston, Texas.

9 51. Singer typically caused the first test administrator in Los Angeles to be paid \$10,000  
10 from one of the KWF charitable accounts for each student who took the exam at his school. Singer  
11 initially paid the second test administrator in Houston through a third party, but in July 2018, Singer  
12 sent the Houston test administrator a \$5,000 check for administering the test to a student.

13 52. In exchange for the bribe payments, the two test administrators allowed an imposter to  
14 secretly take the ACT and SAT tests in place of the children of Singer's clients, or to replace the  
15 children's exam responses with his own, in violation of the duty of honest services they owed to  
16 ACT, Inc. and the College Board.

17 53. Singer typically caused this imposter to be paid \$10,000 per test, usually from one of  
18 the KWF charitable accounts.

19 54. The Los Angeles and Houston test administrators then caused the falsified exams to be  
20 returned to ACT, Inc. and the College Board via Federal Express and UPS, respectively, so that  
21 they could be scored.

22 55. Singer also was paid approximately \$25 million by clients to bribe coaches and  
23 university administrators to designate the clients' children as recruited athletes, in violation of the  
24 duty of honest services which the coaches and school administrators owed to their employers,  
25 thereby facilitating the rich children's admission to the Universities.

26 **Yale University Bribes**  
27  
28

1 56. As one example of the Student-Athlete Recruitment scam, Singer agreed in or about  
2 November 2017 to facilitate the admission of an applicant to Yale, in exchange for a payment of  
3 \$1.2 million.

4 57. Singer subsequently sent the head coach of the Yale women's soccer team an athletic  
5 "profile," created at Singer's direction, which falsely described the rich applicant as the co-captain  
6 of a prominent club soccer team in Southern California.

7 58. The soccer coach thereafter designated this applicant as a recruit for the Yale women's  
8 soccer team despite the fact that, as the coach knew at the time, the Yale applicant did not even play  
9 competitive soccer.

10 59. On or about January 1, 2018, after this Yale applicant was admitted to Yale, Singer  
11 mailed the soccer coach a check for \$400,000, drawn on one of the KWF charitable accounts.

12 60. In or about the spring and summer of 2018, the rich parent of the admitted student paid  
13 Singer approximately \$1.2 million in multiple installments, including approximately \$900,000 that  
14 was paid into one of the KWF charitable accounts.

15 61. Singer similarly bribed coaches and administrators at each of the Universities to  
16 designate students as recruited athletes.

17 **University of Southern California Bribes**

18 62. For example, Singer directed payments totaling approximately \$350,000 to a private  
19 soccer club controlled by two USC soccer coaches.

20 63. In exchange for these payments, the coaches designated four children of Singer's clients  
21 as recruits for the soccer team, thereby facilitating their admission to USC, despite the fact that none  
22 of the children played competitive soccer.

23 64. Likewise, Singer made payments to a bank account at USC that funded the water polo  
24 team.

25 65. In exchange for the bribes, the water polo coach designated two students as recruits for  
26 the water polo team, thereby facilitating the students' admission to USC.

27 66. Singer also made private school tuition payments for the children of the water polo  
28 coach—under the guise of a fabricated scholarship—via checks drawn on one of the KWF

1 charitable accounts and sent to the school via U.S. Mail, in exchange for the water polo coach's  
2 commitment to designate one of Singer's clients as a recruit for the USC water polo team in the  
3 future.

4 67. In addition, on multiple occasions, Singer's clients made payments of between \$50,000  
5 and \$100,000 to a university account controlled by a senior official of USC's athletic department  
6 (the "USC Administrator"), typically an account for the USC Women's Athletic Board.

7 68. Singer also entered into a sham consulting agreement with the USC Administrator,  
8 pursuant to which, beginning in July 2018, he directed payments of \$20,000 per month to the USC  
9 Administrator personally via checks drawn on one of the KWF charitable accounts and sent to the  
10 USC Administrator via U.S. Mail.

11 69. In exchange for the bribes, the USC Administrator helped facilitate the admission of  
12 several dozen students to USC as recruited athletes, even though many of those students had  
13 fabricated athletic credentials and some did not even play the sports they were purportedly being  
14 recruited to play.

#### 15 **Georgetown University Bribes**

16 70. Between 2012 and 2018, Singer paid a Georgetown tennis coach bribes, falsely labeled  
17 as "consulting" fees, totaling more than \$2.7 million. Singer typically made the payments from one  
18 of the KWF charitable accounts and sent them to the coach via U.S. Mail, including in several  
19 instances to the coach's residence in Falmouth, Massachusetts.

20 71. In exchange for the bribes, the Georgetown coach designated approximately 12  
21 applicants as recruits for the Georgetown tennis team, including some who did not play tennis  
22 competitively, thereby facilitating their admission to the university

#### 23 **UCLA Bribes**

24 72. As another example, in or about 2016, Singer directed \$100,000 from one of the KWF  
25 charitable accounts to a sports marketing company controlled by the UCLA men's soccer coach.

26 73. In exchange for that bribe, the coach arranged for the daughter of one of Singer's clients  
27 to be designated as a recruit for the UCLA women's soccer team, thereby facilitating her admission  
28 to UCLA.

1           **Wake Forest University Bribes**

2           74. As yet another example, in or about 2017, Singer directed \$100,000 from one of the  
3 KWF charitable accounts to accounts controlled by the women’s volleyball coach at Wake Forest,  
4 including \$10,000 to the Wake Forest Deacon Club, \$40,000 to Wake Forest Women’s Volleyball,  
5 and \$50,000 to a private volleyball camp the Wake Forest coach controlled. In exchange for this  
6 money, the Wake Forest coach agreed to designate the daughter of one of Singer’s clients—who  
7 had previously applied to Wake Forest and been placed on the wait list—as a recruit for the  
8 women’s volleyball team, thereby facilitating her admission to the university.

9           **Stanford University Bribes**

10          75. In or about the fall of 2017, the Stanford sailing coach agreed to designate the child of  
11 one of Singer’s clients as a recruit for the Stanford sailing team, in exchange for a payment to  
12 Stanford sailing.

13          76. In support of the student’s application, Singer, together with others, created a student-  
14 athlete “profile” that was submitted to Stanford, and that falsely suggested that this Stanford  
15 applicant was a competitive sailor.

16          77. In May 2018, after the Stanford applicant deferred his application to Stanford for one  
17 year, Singer directed a payment of \$110,000 from one of the KWF charitable accounts to the  
18 Stanford sailing program in exchange for the sailing coach’s agreement to designate the Stanford  
19 applicant as a sailing recruit in the following year’s recruitment cycle.

20          78. In or about the summer of 2018, after the Stanford applicant decided to attend a different  
21 university, the Stanford sailing coach agreed with Singer to use that same recruiting spot for the  
22 child of another one of Singer’s clients, in exchange for a \$500,000 payment to the Stanford sailing  
23 program.

24          79. In support of the student’s application, Singer, together with others, created documents  
25 falsely indicating that the student was a competitive sailor, although the student in fact had minimal  
26 sailing experience.

27          80. Although that student ultimately did not apply to Stanford, Singer directed a payment of  
28 \$160,000 from one of the KWF charitable accounts to the Stanford sailing program.

1 81. The Stanford sailing coach agreed with Singer that the payment would serve as a  
2 “deposit” for a future student’s purported recruitment.

3 **U-Texas at Austin Bribes**

4 82. In or about 2015, Singer paid a tennis coach at U-Texas approximately \$100,000.

5 83. In exchange for this bribe, the U-Texas coach designated the son of one of Singer’s  
6 clients, who did not play tennis competitively, as a recruit for the university’s tennis team, thereby  
7 facilitating his admission to U-Texas.

8 **USD Bribes**

9 84. In or about 2016, in exchange for a bribe paid to a third-party, a varsity coach at USD  
10 designated the son of one of Singer’s clients, who did not play that sport, as a recruit for the  
11 university’s team, thereby facilitating his admission to USD.

12 85. In or about 2017, in exchange for an additional bribe, the same coach designated another  
13 student as a recruit to manage the same USD team, thereby facilitating her admission to USD.

14 86. To add insult to injury, the fraudulent scheme of these Defendants allowed rich  
15 participants in the fraudulent scheme to actually deduct payments made as bribes as charitable  
16 contributions on their tax returns.

17 87. Beginning in or about 2013, Singer agreed with certain clients of The Key to disguise  
18 bribe payments, at least in part, as charitable contributions to KWF.

19 88. At Singer’s direction, employees of KWF sent these clients acknowledgment letters  
20 falsely attesting that no goods or services were exchanged for the purported donations.

21 89. A principal purpose and object of the tax fraud conspiracy was to allow clients of The  
22 Key to improperly deduct the cost of the bribes from their federal income taxes, and thereby to  
23 defraud the United States by underpaying federal income taxes.

24 90. Among the manner and means by which Singer and others carried out the tax fraud  
25 conspiracy were the following:

26 (a) registering KWF under *Section 501(c)(3) of the Internal Revenue Code*;

27  
28

1 (b) directing purported charitable donations to KWF, even though those funds were intended  
2 to be used, at least in part, to bribe test administrators, athletic coaches and university  
3 administrators;

4 (c) ending acknowledgment letters falsely attesting that no goods or services were  
5 exchanged for the purported donations to KWF; and

6 (d) using the false acknowledgment letters as a basis to support fraudulent deductions from  
7 their federal income taxes.

8 91. On various dates between 2012 and September 2018, Singer and others committed or  
9 caused to be committed numerous overt acts, among others, in furtherance of the tax fraud  
10 conspiracy.

11 92. In or about 2016, Singer agreed with a Hillsborough, California couple who wanted  
12 their daughter to attend UCLA (the “Hillsborough Parents”) to use bribes to facilitate their  
13 daughter’s admission to the university as a purported soccer recruit.

14 93. On or about May 24, 2016, the Hillsborough Parents emailed Singer their daughter’s  
15 high school transcript and standardized test scores.

16 94. Singer forwarded the transcript and test scores to the UCLA men’s soccer coach, who  
17 forwarded them to the UCLA women’s soccer coach.

18 95. On or about June 28, 2016, the UCLA Student-Athlete Admissions Committee  
19 approved the Hillsborough Parents’ daughter for “provisional student-athlete admission,” pursuant  
20 to which she would be admitted to the university on the condition that she met certain requirements,  
21 including that she successfully completed her senior year of high school and participated on the  
22 UCLA team as a student-athlete for a minimum of one full academic year.

23 96. On or about July 6, 2016, the UCLA men’s soccer coach emailed Singer that the  
24 Hillsborough Parents’ daughter had been provisionally admitted to the university as a student-  
25 athlete.

26 97. On or about July 7, 2016, Singer directed a payment of \$100,000 from one of the KWF  
27 charitable accounts to a sports marketing company controlled by the UCLA men’s soccer coach.

28

1 98. On or about July 8,2016, an employee of KWF emailed a \$250,000 invoice to the  
2 mother of UCLA Applicant. The invoice stated: “Private Contribution- Letter of receipt will be  
3 provided upon payment.”

4 99. On or about July 11, 2016, the father of the UCLA Applicant emailed Singer asking him  
5 to confirm in writing that the \$250,000 would be returned to them in the event his daughter did not  
6 receive final admission to UCLA. Singer replied that he would return the money in the event the  
7 UCLA Applicant did not receive final admission to UCLA.

8 100. On or about July 15, 2016, the Hillsborough Parents donated 2,150 shares of  
9 Facebook, Inc. stock to KWF as a purported charitable contribution. The stock transfer settled that  
10 same day.

11 101. On or about July 21,2016, a KWF employee sent the Hillsborough Parents a letter  
12 acknowledging a charitable contribution of \$251,159. The letter stated: “Your generosity will allow  
13 us to move forward with our plans to provide educational and self-enrichment programs to  
14 disadvantaged youth.” The letter falsely stated that “no goods or services were exchanged” for the  
15 donation.

16 102. On or about November 2017, the Hillsborough Parents filed personal tax returns that  
17 falsely reported total gifts to charity in 2016 of \$1,061,890—a sum that included the purported  
18 contribution to KWF.

19 **V. ALLEGATIONS RELATING TO THE PLAINTIFFS**

20 103. Plaintiff Olsen is a student at Stanford University.

21 104. When she applied to college, she had graduated from an accredited high school and  
22 passed all requirements for applying to college. She had stellar standardized test scores (ACT score  
23 of 35 and SAT score of 2290). She also had athletic talent. She was a dancer and would later  
24 qualify for the Stanford elite dancing squad, representing the school at football and basketball  
25 games.

26 105. In approximately 2017, Olsen applied to Yale University, one of the elite universities  
27 whose employees participated in the fraudulent bribery and cheating schemes referenced above.  
28

1 Olsen paid an application fee (or rather, she reimbursed her parents for the application fee) of  
2 approximately \$80.

3 106. At the time she applied, she was never informed that the process of admission was an  
4 unfair, rigged process, in which rich parents could buy their way into the university through bribery.  
5 Had she known that the system at Yale University was warped and rigged by fraud, she would not  
6 have spent the money to apply to the school. She also did not receive what she paid for—a fair  
7 admissions consideration process.

8 107. Olsen has also been damaged because she is a student at Stanford University, another  
9 one of the universities plagued by the fraud scandal. Her degree is now not worth as much as it was  
10 before, because prospective employers may now question whether she was admitted to the  
11 university on her own merits, versus having parents who were willing to bribe school officials.

12 108. Similarly, Plaintiff Woods is also a Stanford student. She too had stellar test scores  
13 (32 ACT and 2100 SAT). She too had graduated from an accredited high school and passed all  
14 requirements for applying to college. Like Olsen, Woods also had athletic skills. In approximately  
15 2017, Woods applied to USC for admission and reimbursed her parents for the admission fee of  
16 approximately \$85.

17 109. At the time she applied, Woods similarly was never informed that the process of  
18 admission at USC was an unfair, rigged process, in which parents could buy their way into the  
19 university through bribery and dishonest schemes. Had she known that the system at USC was  
20 warped and rigged by fraud, she would not have spent the money to apply to the school. She also  
21 did not receive what she paid for—a fair admissions consideration process.

22 110. Like Olsen, Woods has also been damaged because she is a student at Stanford  
23 University, another one of the universities plagued by the fraud scandal. Her degree is now not  
24 worth as much as it was before, because prospective employers may now question whether she was  
25 admitted to the university on her own merits, versus having rich parents who were willing to bribe  
26 school officials.

27 111. Plaintiffs will adequately represent the members of the Class, and their claims are  
28 typical of other Class Members.

1 **VI. CLASS ACTION ALLEGATIONS**

2 114. Plaintiffs bring this action on their own behalf and, pursuant to Federal Rule of Civil  
3 Procedure, 23(a), (b)(2), and (b)(3), on behalf of the following Class (“the Class”). The Class is  
4 initially defined as follows:

5 **All individuals who, between 2012 and 2018, applied to UCLA, USC, USD, Stanford**  
6 **University, UT-Texas at Austin, Wake Forest University, Georgetown University, or**  
7 **Yale University, paid an admission application fee to one or more of these universities,**  
8 **with respect to an admission application that was rejected by the university.**

9 115. Excluded from the Class are:

10 (a) any employees of Defendants, including any entity in which any of the Defendants has a  
11 controlling interest, is a parent or a subsidiary of, or which is controlled by any of the  
12 Defendants;

13 (b) the officers, directors, and legal representatives of Defendants; and

14 (c) the Judge and the court personnel in this case as well as any members of their immediate  
15 families. Plaintiffs reserve the right to amend the definitions of the Class if discovery,  
16 further investigation and/or rulings by the Court dictate that they should be modified.

17 116. *Numerosity. Fed. R. Civ. P. 23(a)(1).* The members of the Class are so numerous that  
18 the joinder of all members of the Class in a single action is impractical. While the exact number of  
19 Class Members is unknown to Plaintiffs at this time, Defendants have control over how many  
20 applicants have been denied in the past. Given the number of applications on a daily basis, it stands  
21 to reason that the number of Class Members is at least in the thousands. As an example, in 2017,  
22 Stanford University received 38,828 applications and only accepted 2,210 students. That means for  
23 that one university, and that one year alone, there will be over 36,000 Class Members. The Class  
24 Members are readily identifiable from investigation and records in the Defendants’ possession,  
25 custody, or control, such as application records, records of admission/denial, and financial records.

26 117. *Commonality and Predominance. Fed. R. Civ. P. 23(a)(2) and (b)(3).* There are  
27 questions of law and fact common to the Class Members. These common questions of law and fact  
28 include, without limitation:

1 (a) did the universities know that this fraudulent scheme was being conducted and  
2 fail to take corrective action;

3 (b) were the universities negligent in not discovering the fraudulent scheme of their  
4 employees;

5 (c) should the university have engaged in closer monitoring of its employees and  
6 individuals involved with the admissions process;

7 (d) what quality control standards were in place at the universities to ensure that this  
8 kind of conduct did not occur, and to ensure the fairness of the admissions process;  
9 and

10 (e) what were the acts of the Defendants in furtherance of the fraudulent scheme.

11 118. *Typicality. Fed. R. Civ. P. 23(a)(3).* Plaintiffs' claims are typical of other Class  
12 Members because Plaintiffs' applications for admission did not benefit from a proper review due to  
13 the fraudulent process which was caused by the conduct of the Defendants. Moreover, each of the  
14 Plaintiffs, like other Members of the Class, lost the amount of the application fee which they paid.

15 119. *Adequacy of Representation. Fed. R. Civ. P. 23(a)(4).* Plaintiffs will fairly and  
16 adequately represent and protect the interests of the Class Members. Plaintiffs have retained  
17 competent counsel experienced in litigation of class actions, including consumer class actions.  
18 Plaintiffs' claims are typical of the claims of other Class Members, and Plaintiffs have the same  
19 non-conflicting interests as the other Class Members. Therefore, the interests of the Class Members  
20 will be fairly and adequately represented by Plaintiffs and their counsel.

21 120. *Superiority of Class Action. Fed. R. Civ. P. 23(b)(3).* A class action is superior to  
22 other available methods for the fair and efficient adjudication of this controversy. The adjudication  
23 of this controversy through a class action will avoid the possibility of inconsistent and potentially  
24 conflicting adjudications of the asserted claims. There will be no difficulty in the management of  
25 this action as a class action, and the disposition of the claims of the Class Members in a single  
26 action will provide substantial benefits to the parties and to the Court. Damages for any individual  
27 Class Member are likely insufficient to justify the cost of individual litigation so that, in the absence  
28

1 of class treatment, Defendants' violations of law inflicting substantial damages in the aggregate  
2 would go un-remedied.

3 121. Class certification is also appropriate under *Fed. R. Civ. P. 23(a)* and *(b)(2)* because  
4 the Defendants have acted or refused to act on grounds generally applicable to the Class, such that  
5 final injunctive relief or corresponding declaratory relief is appropriate to the Class as a whole.

## 6 **VII. LEGAL BASES FOR RELIEF**

### 7 **COUNT I**

8 (Defendants Singer, The Key and KWF: Civil RICO, 18 U.S.C. Sec. 1962(c), 1964 et al.)

9 122. Plaintiff incorporates by reference Paragraphs 1 through 121 as if more fully set forth  
10 herein.

11 123. Together, The Key and KWF constituted an "enterprise" as defined by *18 U.S. C. Sec.*  
12 *1961(4)* ("the Key Enterprise"), that is, an association, in fact, of entities engaged in, and the  
13 activities of which affected, interstate and foreign commerce ("the enterprise"). The Key  
14 Enterprise constituted an ongoing organization whose members functioned as a continuing unit for a  
15 common purpose of achieving the objectives of the enterprise.

16 124. In order to further the purposes of the Key Enterprise's conspiracy, Singer used The  
17 Key and KWF in an illegal manner, and participated in numerous overt acts in furtherance of The  
18 Key Enterprise conspiracy.

19 125. In furtherance of the illegal goals of the Key Enterprise, Singer conspired with certain  
20 University employees, certain impostor test-takers, certain test administrators, and certain wealthy  
21 parents of college students, to violate *18 USC Sec. 1962(c)*; that is, to conduct and participate,  
22 directly and indirectly, in the conduct of the affairs of the enterprise through a pattern of  
23 racketeering activity, as defined in *18 USC Secs. 1961, 1962, and 1964*; consisting of multiple  
24 illegal acts indictable under:

25 a. *18 USC Sec. 1341* (relating to mail fraud);

26 b. *18 USC Secs. 1341 and 1346* (relating to honest services mail fraud);

27 c. *18 USC Sec. 1343* (relating to wire fraud);

28 d. *18 USC Secs. 1343 and 1346* (relating to honest services wire fraud); and

1 e. *18 USC Sec. 1956(a)(1)(B)(i)* (relating to the laundering of monetary instruments); and  
2 f. using a charitable organization to fraudulently obtain tax-exempt status, while  
3 simultaneously abetting the wealthy parents in violating tax laws by claiming “donations” to  
4 KWF as charitable donations.

5 126. In fact, Singer himself has been indicted under the criminal version of RICO in the  
6 United States District Court for the District of Massachusetts.

7 127. Each of the Plaintiffs herein, and all Class Members, have standing to bring a claim  
8 under civil RICO because each of them has suffered a concrete and distinct injury—at a minimum,  
9 the payment of an application fee to one or more of these seven universities—which they paid under  
10 the assumption that the college application process at these universities was fair and impartial.

11 128. Students do not have unlimited funds to pay for application fees. They must pick and  
12 choose which university or universities to apply to based upon their available funding, the cost of  
13 the application fee, and the likelihood that they will be accepted. Each of these students had a right  
14 to know that their application was going to be part of a review process corrupted by rampant fraud  
15 and back-door bribery.

16 129. The illegal acts in furtherance of the enterprise by Defendants Singer, The Key and  
17 KWF proximately caused damage to the Plaintiffs and the Class Members.

18 130. Accordingly, Plaintiffs, on behalf of themselves and the Class Members, brings this  
19 Count I under *18 U.S.C. Sec. 1964(c)*, which provides:

20 Any person injured in his business or property by reason of a violation of section 1962 of  
21 this chapter may sue therefor in any appropriate United States district court and shall recover  
22 threefold the damages he sustains and the cost of the suit, including a reasonable attorney’s  
23 fee ....

24 WHEREFORE, Plaintiffs pray for judgment in their favor on Count I of the Complaint  
25 against Defendants Singer, The Key, an KWF, for compensatory damages in an amount which is  
26 fair and reasonable to compensate the Class members for their damages, including but not limited to  
27 the recoupment of all admission fees paid to said universities during the applicable statute of  
28

1 limitations period, claw-back of all illegal fees paid by bribing parents to Singer, The Key and/or  
2 KWF, for treble damages, costs of suit, and a reasonable attorney's fee.

3 **COUNT II**

4 (University Defendants: California Consumers Legal Remedies Act: *Civil Code Secs. 1750 - 1784*)

5 131. Plaintiff incorporates by reference Paragraphs 1 through 131 as if more fully set forth  
6 herein.

7 132. *The California Consumers Legal Remedies Act ("CLRA")*, provides in *Cal. Civil Code*  
8 *1770(a)(5)* that it is a deceptive trade practice for a seller of goods or services to represent that  
9 *"...goods or services have sponsorship, approval, characteristics, ingredients, uses, benefits, or*  
10 *quantities that they do not have or that a person has a sponsorship, approval, status, affiliation, or*  
11 *connection that he or she does not have."* (emphasis added)

12 133. Each of the seven Universities have advertised that their college admissions process is  
13 fair and unbiased and based upon the applicant's merit:

14 (a) Yale University's website boasts:

15 *Our difficult - yet fascinating and rewarding - job is to select that class. How do we do it?*  
16 *An applicant's academic strength is our first consideration. We review grades, standardized*  
17 *test scores, and evaluations by a counselor and two teachers to determine academic*  
18 *strength. The Admissions Committee then factors in student qualities such as motivation,*  
19 *curiosity, energy, leadership ability, and distinctive talents.*

20 *Ultimately, our goal is to build an extraordinary class of students. If you want to be a part of*  
21 *it, we welcome your application. To get started, please follow the links to the right.*

22 <https://admissions.yale.edu/first-year-application-process>

23 (b) Stanford University also states that admission is based upon such items as the high  
24 school transcript, test scores, extracurricular activities, intellectual vitality, and other factors:

25 *The primary criterion for admission to Stanford is academic excellence. We look for your*  
26 *preparation and potential to succeed. We expect you to challenge yourself throughout high*  
27 *school and to do very well. The most important credential that enables us to evaluate your*  
28 *academic record is the high school transcript. Remember, however, that our evaluation goes*

1 *beyond any numerical formula. There is no minimum GPA or test score; nor is there any*  
2 *specific number of AP or honors courses you must have on your transcript in order to be*  
3 *admitted to Stanford.*

4 <https://admission.stanford.edu/apply/selection/>

5 (c) Georgetown University makes similar claims on its website:

6 *Georgetown maintains a holistic review process with a focus on success in your high school*  
7 *curriculum as the foundation of a competitive application.*

8 <https://uadmissions.georgetown.edu/firstyear/preparation>

9 (d) UCLA also claims that admissions are based upon student merit, and boasts that it has  
10 high “quality control” to make the admissions system reliable:

11 *Each year, UCLA considers many more excellent applicants for freshmen admission than it*  
12 *can possibly admit. The goal of the campus’ admissions review process is to single out from*  
13 *a large and growing pool of academically strong applicants those unique individuals who*  
14 *have demonstrated the intellectual curiosity, tenacity, and commitment to community service*  
15 *expected of the UCLA graduate. These select applicants are the ones who would contribute*  
16 *the most to UCLA’s dynamic learning environment; they are also the applicants who would*  
17 *make the most of being immersed in it. Although high school grade point average and*  
18 *standardized test scores are important indicators of academic achievement used in UCLA’s*  
19 *admissions review, they only tell part of the story.*

20 \* \* \*

21 *Selection is based on a comprehensive review of all information—both academic and*  
22 *personal—presented in the application. All applications are read twice, in their entirety, by*  
23 *professionally trained readers. After independently reading and analyzing a file, the reader*  
24 *determines a comprehensive score that is the basis upon which the student is ultimately*  
25 *admitted or denied. In addition, admissions managers conduct multiple checks for*  
26 *consistency and completeness throughout the reading process. While this evaluation process*  
27 *is based on human judgments rather than a system that quantifies factors and incorporates*  
28 *them into a numerical formula, the extensive reader training, comprehensive reading of*

1 *files, as well as other monitoring procedures, ensure that the process is highly reliable.*

2 *Formal tests of reliability are conducted regularly to assure quality control.*

3 *(emphasis added)*

4 [http://www.admission.ucla.edu/Prospect/Adm\\_fr/FrSel.htm](http://www.admission.ucla.edu/Prospect/Adm_fr/FrSel.htm)

5 (e) USC also makes similar claims that its admission process is based upon student merit:

6 *Like many highly selective universities, we conduct a comprehensive, holistic review*  
7 *of your application to consider academic and personal characteristics. We will review*  
8 *your performance in school, the rigor of your program, writing skills and test scores.*  
9 *We also consider personal qualities, as revealed in community involvement,*  
10 *leadership and achievements.*

11 <https://admission.usc.edu/apply/our-admission-process/>

12 (f) Wake Forest makes similar claims on its website:

13 *Candidates for admission must furnish evidence of maturity and educational achievement,*  
14 *plus evidence of character and motivation for study in the College of Arts and Sciences.*  
15 *High school curriculum and classroom performance, combined with the student's writing*  
16 *ability, extracurricular activities, and evidence of character and talent, are the most*  
17 *important criteria for admission.*

18 <https://admissions.wfu.edu/apply/process/>

19 (g) University of Texas at Austin also promises a “holistic review” of the application based  
20 upon the student’s merit:

21 *All applications receive an individualized holistic review as part of the UT Austin*  
22 *admissions decision review process.*

23 <https://admissions.utexas.edu/apply/decisions>

24 The university even went so far as to eschew the influence of money in the admissions process:

25 *The suspicion of a double standard that favors well-connected students is not new,*  
26 *particularly for more selective institutions. **Ensuring that fair and transparent admissions***  
27 *processes exist across the U. T. System is necessary to maintain public trust. Recruitment*  
28 *and admissions policies that are disclosed to the public and are consistent with stated*

1 university goals garners public trust that student admissions are **centered on merit**. The  
2 integrity of the admissions processes at each of the University of Texas institutions depends  
3 upon the unbiased determination of the appropriate **merits of each applicant**. Attempts to  
4 influence those processes by use of a person's community stature, promise of financial  
5 donation (or threat to discontinue financial donation) or any other means that do not  
6 directly address the merits of the applicant are inappropriate and not consistent with the  
7 status of the university as a public institution of the state of Texas.

8 [https://www.utsystem.edu/sites/default/files/documents/Best%20Practices%20in%20Admiss](https://www.utsystem.edu/sites/default/files/documents/Best%20Practices%20in%20Admissions%20Processes%20for%20Undergraduate%20and%20Professional%20Programs/ut-system-admissions-best-practices-2014-07.pdf)  
9 [ions%20Processes%20for%20Undergraduate%20and%20Professional%20Programs/ut-system-](https://www.utsystem.edu/sites/default/files/documents/Best%20Practices%20in%20Admissions%20Processes%20for%20Undergraduate%20and%20Professional%20Programs/ut-system-admissions-best-practices-2014-07.pdf)  
10 [admissions-best-practices-2014-07.pdf](https://www.utsystem.edu/sites/default/files/documents/Best%20Practices%20in%20Admissions%20Processes%20for%20Undergraduate%20and%20Professional%20Programs/ut-system-admissions-best-practices-2014-07.pdf)134. Each of the university websites have made similar  
11 claims throughout the Class period that admissions are solely based upon the student's merit.

12 134. These representations, it has now come to be learned, were false, and the statements  
13 about the university represented goods and services which had characteristics which they did not  
14 have. In fact, as has been shown above, each of the admissions processes at these universities was  
15 tainted by corruption, such that those parents with children who had mediocre grades and test scores  
16 were allowed admission based upon the amount of bribery money they paid university insiders.

17 135. *Cal Civ. Code. Sec. 1780* provides that if the Defendant engages in a practice declared  
18 deceptive under the Act, the Plaintiff may file a complaint either alone or as a class action (see Sec.  
19 1781) a civil action for damages:

20 (a) Any consumer who suffers any damage as a result of the use or employment by any  
21 person of a method, act, or practice declared to be unlawful by [Section 1770](#) may bring an  
22 action against that person to recover or obtain any of the following:

- 23 (1) Actual damages, but in no case shall the total award of damages in a class  
24 action be less than one thousand dollars (\$1,000).  
25 (2) An order enjoining the methods, acts, or practices.  
26 (3) Restitution of property.  
27 (4) Punitive damages.  
28

1 disjunctive, and each of the wrongs operates independently from the others. “In other words, a  
2 practice is prohibited as ‘unfair’ or [‘fraudulent’] even if not ‘unlawful’ and vice versa.”

3 141. Each of the University Defendants represented multiple times on its websites that its  
4 college admission process would be based upon the individual’s test scores, grades, activities and  
5 other items of merit, as opposed to the bribe money, and lack thereof, that could be paid to  
6 university insiders.

7 142. The University Defendants knew or should have known of these corrupt practices  
8 because the funds were often going into University accounts, and to prominent University figures  
9 such as coaches and directors in charge of University accounts.

10 143. To represent to students that the application process is based on merit, while  
11 simultaneously turning a blind eye to rampant bribery going on with the university’s employees,  
12 constitutes a violation of the UCL, and constitutes: an “unlawful” business act and practice; “unfair”  
13 business acts and practices;” fraudulent business acts and practices; and “unfair, deceptive, untrue,  
14 and misleading advertising.”

15 144. Moreover, the failure of these Universities to have audits and other quality control  
16 mechanisms in place to ensure that this type of behavior did not occur is, in itself, an unfair business  
17 practice.

18 145. Each of the University Defendants engaged in “business practices” relating to its  
19 admission process and the quality control thereof.

20 Obtaining students’ tuition and fees for educational services and admission services is a big  
21 business for Defendants.

22 147. Each of the Plaintiffs and the Members of the Class have suffered an economic injury  
23 in fact and have lost money or property as a proximate result of the unfair competition of the  
24 Defendant Universities—namely, at the very minimum, the application fees paid to the universities  
25 for admission.

26 148. Class Members were unaware of the material fact that the University Defendants’  
27 admission policies consisted of allowing in the students whose parents bribed university officials  
28 with the most money, and necessarily rejecting the vast majority who did not offer bribes.

1 149. The misrepresentations by the University Defendants on their websites about the  
2 application acceptance decision being based upon student merit was material. A misrepresentation  
3 is material if a reasonable person would attach importance to its existence or nonexistence in  
4 determining his choice of action in the transaction in question. Obviously, whether college officials  
5 accept bribes from prospective students' parents would be an objectively material factor to know  
6 before deciding whether to apply to a school.

7 150. The Plaintiffs are entitled to full restitution of the amounts paid by Plaintiffs to  
8 Defendants for admissions application fees during the relevant statute of limitations period.

9 WHEREFORE, Plaintiff prays for judgment in Plaintiffs' favor against the University  
10 Defendants on Count III, for equitable relief against the University Defendants, including restitution  
11 of all moneys paid to Defendants as application fees during the relevant statute of limitations  
12 period, for a reasonable attorney's fee as a "private attorney general" pursuant to *Code of Civil*  
13 *Procedure Section 1021.5*, for court costs, and such other relief as the Court deems just and proper.

14 **COUNT IV**

15 (University Defendants: Negligence)

16 151. Plaintiff incorporates by reference Paragraphs 1 through 150 as if more fully set forth  
17 herein. 152. The University Defendants had a duty to potential applicants such as the Plaintiffs and  
18 the Class Members to ensure that its college application process was performed fairly, honestly, and  
19 without corruption or bribery; and that students were only allowed to the university based upon their  
20 merit.

21 153. The University Defendants could have ensured the integrity of that process by  
22 conducting regular audits, instituting security procedures, monitoring its coaches and employees,  
23 and other safeguarding procedures.

24 154. Each of the Defendant Universities breached that duty and failed to exercise ordinary  
25 care that a reasonably prudent person would exercise in handling the function of college admissions,  
26 and were negligent and careless in the following respects:

- 27 (a) giving free reign to athletic coaches and directors to fill athletic slots however they  
28 wanted to with inadequate oversight;

- 1 (b) failing to conduct regular audits of university accounts;
- 2 (c) failing to observe fraudulent sources of funds coming into university accounts controlled
- 3 by the coaches, athletic directors and other university employees;
- 4 (d) allowing coaches and employees to remain in charge of university funds and admission
- 5 practices after it was known or suspected that they were engaging in fraudulent activity; and
- 6 (e) failing to institute better quality controls.

7 155. As a direct and proximate result of the negligence of the University Defendants,  
8 Plaintiffs and the Class Members were damaged, in that they paid admission application fees to the  
9 Defendants.

10 WHEREFORE, Plaintiffs pray for judgment in their favor on Count V, for compensatory  
11 damages in an amount which is fair and reasonable to compensate the Plaintiffs and the Class  
12 Members, for court costs, and for such other relief as the Court deems just and proper.
