

**UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF PENNSYLVANIA
PITTSBURGH DIVISION**

ANNA STEWART-GOWER, on behalf of
herself and all others similarly situated,

Plaintiff,

v.

DOLLAR BANK, FSB dba DOLLAR BANK,

Defendant.

No. 2:23-cv-1925

COMPLAINT-CLASS ACTION

DEMAND FOR JURY TRIAL

Anna Stewart-Gower (“Plaintiff”), through her attorneys, individually and on behalf of all others similarly situated, brings this Class Action Complaint against Defendant Dollar Bank, FSB dba Dollar Bank (“Dollar Bank” or “Defendant”), and its present, former, or future direct and indirect parent companies, subsidiaries, affiliates, agents, and/or other related entities. Plaintiff alleges the following on information and belief—except as to her own actions, counsel’s investigations, and facts of public record.

NATURE OF ACTION

1. This class action arises from Defendant’s failure to protect highly sensitive data.
2. Defendant is a “large, full service, regional bank” that is active in Ohio, Pennsylvania, Virginia, and Maryland.¹
3. As such, Defendant stores a litany of highly sensitive personal identifiable information (“PII”) about its current and former customers. But Defendant lost control over that data when cybercriminals infiltrated its insufficiently protected computer systems in a data breach (the “Data Breach”).

¹ *About*, DOLLAR BANK, <https://dollar.bank/about> (last visited Nov. 6, 2023).

4. It is unknown for precisely how long the cybercriminals had access to Defendant's network before the breach was discovered. In other words, Defendant had no effective means to prevent, detect, stop, or mitigate breaches of its systems—thereby allowing cybercriminals unrestricted access to customers' PII.

5. On information and belief, cybercriminals were able to breach Defendant's systems because Defendant failed to adequately train its employees on cybersecurity and failed to maintain reasonable security safeguards or protocols to protect the Class's PII. In short, Defendant's failures placed the Class's PII in a vulnerable position—rendering them easy targets for cybercriminals.

6. Plaintiff is a Data Breach victim. She brings this class action on behalf of herself, and all others harmed by Defendant's misconduct.

7. The exposure of one's PII to cybercriminals is a bell that cannot be unrung. Before this data breach, customers' private information was exactly that—private. Not anymore. Now, customers' private information is forever exposed and unsecure.

PARTIES

8. Plaintiff, Anna Stewart-Gower, is natural person and citizen of Pennsylvania. She resides in Greensburg, Pennsylvania where she intends to remain.

9. Defendant, Dollar Bank, FSB dba Dollar Bank, is a Domestic Business Corporation incorporated in Pennsylvania and with its principal place of business at 20 Stanwix Street, Pittsburgh, Pennsylvania 15222.

JURISDICTION AND VENUE

10. This Court has subject matter jurisdiction over this action under the Class Action Fairness Act, 28 U.S.C. § 1332(d)(2). The amount in controversy exceeds \$5 million, exclusive of

interest and costs. Members of the proposed Class are citizens of different states than Defendant. And there are over 100 putative Class members.

11. This Court has personal jurisdiction over Defendant because it is headquartered in Pennsylvania, regularly conducts business in Pennsylvania, and has sufficient minimum contacts in Pennsylvania.

12. Venue is proper in this Court because Defendant's principal office is in this District, and because a substantial part of the events, acts, and omissions giving rise to Plaintiff's claims occurred in this District.

BACKGROUND

Defendant Collected and Stored the PII of Plaintiff and the Class

13. Defendant is a "large, full service, regional bank" that is active in Ohio, Pennsylvania, Virginia, and Maryland.² As of 2021, Defendant boasts \$10.3 billion dollars in total assets.³

14. As part of its business, Defendant receives and maintains the PII of thousands of its current and former customers.

15. In 2021, Dollar Bank acquired Standard AVB Financial Corp. ("Standard Bank") which had \$1.1 billion in total assets.⁴ Pursuant to this acquisition, Dollar Bank also acquired the PII of the current and former customers of Standard Bank.

² *About*, DOLLAR BANK, <https://dollar.bank/about> (last visited Nov. 6, 2023).

³ *Dollar Mutual Bancorp and Standard AVB Financial Corp. Announce Receipt of Regulatory Approvals and Expected Closing Date for Acquisition*, DOLLAR BANK, <https://dollar.bank/about/news-and-events/dollar-mutual-bancorp-and-standard-avb-financial-corp-announce-receipt-of-regulatory-approvals-and> (last visited Nov. 6, 2023).

⁴ *Id.*

16. In collecting and maintaining the PII, Defendant agreed it would safeguard the data in accordance with its internal policies, state law, and federal law. After all, Plaintiff and Class members themselves took reasonable steps to secure their PII.

17. Under state and federal law, businesses like Defendant have duties to protect its current and former customers' PII and to notify them about breaches.

18. Defendant recognizes these duties, declaring in its "Privacy Policy" that:

- a. "Financial companies choose how they share your personal information."⁵
- b. "Federal law also requires us to tell you how we collect, share, and protect your information."⁶
- c. "To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings."⁷
- d. "Dollar Bank does not share with nonaffiliates" who are "[c]ompanies not related by common ownership or control."⁸

19. And on its "Security Center," Defendant recognizes the dangers of cybercriminals and the importance of data security—declaring that:

- a. "We are aware of current scams targeting bank customers."⁹
- b. "ATM skimming occurs when criminals install unauthorized devices on ATMs and use the debit card data to remove funds from accounts."¹⁰

⁵ *Privacy Policy*, DOLLAR BANK (Feb. 2023) <https://dollar.bank/getmedia/904b758c-34c0-4c39-8611-f68b1ca42a50/Privacy-Policy-Feb-2023.pdf>.

⁹ *Security Center*, DOLLAR BANK, <https://dollar.bank/security-center> (last visited Nov. 6, 2023).

¹⁰ *Id.*

- c. “With all the Internet scams and identity theft issues, we feel it’s important to let you know what we’re doing in an effort to help you keep your personal and financial information secure.”¹¹
- d. “To better protect our customers, we’ve transitioned our site to the top-level domain for the banking community.”¹²
- e. “We also consistently monitor security issues using multiple trusted sources.”¹³
- f. “At Dollar Bank it is our priority to keep you informed about banking security and consumer issues that are occurring in the marketplace.”¹⁴

20. Again, via its “Dollar Bank Website Security,” Defendant recognizes the dangers of cybercriminals and the importance of data security—declaring that:

- a. “We take a proactive approach when it comes to keeping your financial information safe by updating our systems with the latest security software and hardware technologies including firewalls and filters.”¹⁵
- b. “[We] benefit[] our customers in the following ways . . . [w]hen using our Online Banking or Business Online Banking, you can feel secure that your information is protected with stronger encryption.”¹⁶

21. And finally, via its “Online Banking Security,” Defendant makes further promises regarding data security:

¹⁴ *Id.*

¹⁵ *Dollar Bank Website Security*, DOLLAR BANK, <https://dollar.bank/security-center/dollar-bank-website-security> (last visited Nov. 6, 2023).

¹⁶ *Id.*

- a. “Keeping you and your personal information secure is a priority at Dollar Bank.”¹⁷
- b. “We continuously research additional measures that can be implemented to ensure that your financial information is safe.”¹⁸
- c. “Online Banking is available only with browsers that support Secure Socket Layer (SSL) strong encryption to protect your information through the Internet.”¹⁹
- d. “For your safety, we have built-in timers that . . . help[] to protect you from unauthorized activity.”²⁰
- e. “To keep online communication between you and Dollar Bank convenient, yet safe, we implemented a Secure Message Center service.”²¹
- f. “For your protection, Dollar Bank masks your account numbers.”²²
- g. “Dollar Bank uses the latest hardware and software technologies to ensure the security of all data.”²³

Defendant’s Data Breach

²³ *Id.*

22. Between March 24, 2021, and February 4, 2023, Defendant was hacked.²⁴ In particular, “an unauthorized third party gained intermittent access to certain Standard Bank systems.”²⁵

23. Defendant explained that “Standard Bank merged with Dollar Bank and for this reason, Standard Bank’s systems are no longer operational which is why Dollar Bank is sharing this message.”²⁶

24. Because of Defendant’s Data Breach, at least the following types of PII were compromised:

- a. names;
- b. addresses;
- c. Social Security numbers;
- d. dates of birth;
- e. drivers’ license numbers;
- f. state IDs;
- g. military IDs;
- h. bank account numbers;
- i. routing numbers; and
- j. and account types.²⁷

²⁵ *Id.*

²⁶ *Id.*

²⁷ *Id.*

25. Defendant only detected the Data Breach on February 4, 2023—*over twenty-two months* after the Data Breach began.²⁸

26. In total, Defendant injured at least 13,213 persons—via the exposure of their PII—in the Data Breach.²⁹ Upon information and belief, these 13,213 persons include its current and former customers.

27. And yet, Defendant waited until May 31, 2023, before it began notifying the class—a full *one-hundred and sixteen days* after Defendant discovered the Data Breach.³⁰

28. Thus, Defendant kept the Class in the dark—thereby depriving the Class of the opportunity to try and mitigate their injuries in a timely manner.

29. And when Defendant did notify Plaintiff and the Class of the Data Breach, Defendant acknowledged that the Data Breach created a present, continuing, and significant risk of suffering identity theft, warning Plaintiff and the Class to:

- a. “[E]ducate yourself regarding identity theft, fraud alerts, credit freezes, and the steps you can take to protect your personal information by contacting the consumer reporting bureaus, the Federal Trade Commission, or your state Attorney General.”³¹
- b. “[R]emain vigilant for incidents of fraud and identity theft by reviewing account statements and monitoring free credit reports.”³²

³⁰ *Id.*

³¹ *Id.*

³² *Id.*

30. Defendant failed its duties when its inadequate security practices caused the Data Breach. In other words, Defendant’s negligence is evidenced by its failure to prevent the Data Breach and stop cybercriminals from accessing the PII. And thus, Defendant caused widespread injury and monetary damages.

31. Since the breach, Defendant has “tak[en] other measures to help protect systems and data.”³³ But this is too little too late. Simply put, these measures—which Defendant now recognizes as necessary—should have been implemented *before* the Data Breach.

32. On information and belief, Defendant failed to adequately train its employees on reasonable cybersecurity protocols or implement reasonable security measures.

33. Further, the Notice of Data Breach shows that Defendant cannot—or will not—determine the full scope of the Data Breach, as Defendant has been unable to determine precisely what information was stolen and when.

34. Defendant has done little to remedy its Data Breach. True, Defendant has offered some victims credit monitoring and identity related services. But upon information and belief, such services are wholly insufficient to compensate Plaintiff and Class members for the injuries that Defendant inflicted upon them.

35. Because of Defendant’s Data Breach, the sensitive PII of Plaintiff and Class members was placed into the hands of cybercriminals—inflicting numerous injuries and significant damages upon Plaintiff and Class members.

36. Upon information and belief, the cybercriminals in question are particularly sophisticated. After all, the cybercriminals: (1) defeated the relevant data security systems, (2)

³³ *Id.*

gained actual access to sensitive data, and (3) successfully “gained intermittent access” for nearly two full years.³⁴

37. And as the Harvard Business Review notes, such “[c]ybercriminals frequently use the dark web—a hub of criminal and illicit activity—to sell data from companies that they have gained unauthorized access to through credential stuffing attacks, phishing attacks, [or] hacking.”³⁵

38. Thus, on information and belief, Plaintiff’s and the Class’s stolen PII has already been published—or will be published imminently—by cybercriminals on the dark web.

Plaintiff’s Experiences and Injuries

39. Plaintiff Anna Stewart-Gower is a current customer of Defendant, having banked with Defendant since approximately 1996.

40. Thus, Defendant obtained and maintained Plaintiff’s PII.

41. As a result, Plaintiff was injured by Defendant’s Data Breach.

42. Plaintiff provided her PII to Defendant and trusted the company would use reasonable measures to protect it according to Defendant’s internal policies, as well as state and federal law. Defendant obtained and continues to maintain Plaintiff’s PII and has a continuing legal duty and obligation to protect that PII from unauthorized access and disclosure.

43. Plaintiff reasonably understood that a portion of the funds paid to Defendant would be used to pay for adequate cybersecurity and protection of PII.

44. Plaintiff does not recall ever learning that her information was compromised in a data breach incident—other than the breach at issue here.

³⁴ *Id.*

³⁵ Brenda R. Sharton, *Your Company’s Data Is for Sale on the Dark Web. Should You Buy It Back?*, HARVARD BUS. REV. (Jan. 4, 2023) <https://hbr.org/2023/01/your-companys-data-is-for-sale-on-the-dark-web-should-you-buy-it-back>.

45. Thus, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the dark web.

46. Upon information and belief, through its Data Breach, Defendant compromised Plaintiff's:

- a. name;
- b. address;
- c. Social Security number;
- d. date of birth;
- e. drivers' license number;
- f. state ID;
- g. military ID;
- h. bank account number;
- i. routing number; and
- j. and account type.

47. Plaintiff has *already* suffered from identity theft and fraud—she suffered from fraudulent charges on her Standard Bank cards during the spring and winter months of 2021. This fraud resulted in the cancellation of her cards, forcing Plaintiff to wait for replacement cards before she could use a card to access the funds in her bank account.

48. Plaintiff has spent—and will continue to spend—significant time and effort monitoring her accounts to protect herself from identity theft. After all, Defendant directed Plaintiff to take those steps in its breach notice.

49. And in the aftermath of the Data Breach, Plaintiff has suffered from a spike in spam messages and phone calls.

50. Plaintiff fears for her personal financial security and worries about what information was exposed in the Data Breach.

51. Because of Defendant's Data Breach, Plaintiff has suffered—and will continue to suffer from—anxiety, sleep disruption, stress, fear, and frustration. Such injuries go far beyond allegations of mere worry or inconvenience. Rather, Plaintiff's injuries are precisely the type of injuries that the law contemplates and addresses.

52. Plaintiff suffered actual injury from the exposure and theft of her PII—which violates her rights to privacy.

53. Plaintiff suffered actual injury in the form of damages to and diminution in the value of her PII. After all, PII is a form of intangible property—property that Defendant was required to adequately protect.

54. Plaintiff suffered imminent and impending injury arising from the substantially increased risk of fraud, misuse, and identity theft—all because Defendant's Data Breach placed Plaintiff's PII right in the hands of criminals.

55. Because of the Data Breach, Plaintiff anticipates spending considerable amounts of time and money to try and mitigate her injuries.

56. Today, Plaintiff has a continuing interest in ensuring that her PII—which, upon information and belief, remains backed up in Defendant's possession—is protected and safeguarded from additional breaches.

Plaintiff and the Proposed Class Face Significant Risk of Continued Identity Theft

57. Because of Defendant's failure to prevent the Data Breach, Plaintiff and Class members suffered—and will continue to suffer—damages. These damages include, *inter alia*,

monetary losses, lost time, anxiety, and emotional distress. Also, they suffered or are at an increased risk of suffering:

- a. loss of the opportunity to control how their PII is used;
- b. diminution in value of their PII;
- c. compromise and continuing publication of their PII;
- d. out-of-pocket costs from trying to prevent, detect, and recovery from identity theft and fraud;
- e. lost opportunity costs and wages from spending time trying to mitigate the fallout of the Data Breach by, *inter alia*, preventing, detecting, contesting, and recovering from identify theft and fraud;
- f. delay in receipt of tax refund monies;
- g. unauthorized use of their stolen PII; and
- h. continued risk to their PII—which remains in Defendant’s possession—and is thus as risk for futures breaches so long as Defendant fails to take appropriate measures to protect the PII.

58. Stolen PII is one of the most valuable commodities on the criminal information black market. According to Experian, a credit-monitoring service, stolen PII can be worth up to \$1,000.00 depending on the type of information obtained.

59. The value of Plaintiff and Class’s PII on the black market is considerable. Stolen PII trades on the black market for years. And criminals frequently post and sell stolen information openly and directly on the “dark web”—further exposing the information.

60. It can take victims years to discover such identity theft and fraud. This gives criminals plenty of time to sell the PII far and wide.

61. One way that criminals profit from stolen PII is by creating comprehensive dossiers on individuals called “Fullz” packages. These dossiers are both shockingly accurate and comprehensive. Criminals create them by cross-referencing and combining two sources of data—first the stolen PII, and second, unregulated data found elsewhere on the internet (like phone numbers, emails, addresses, etc.).

62. The development of “Fullz” packages means that the PII exposed in the Data Breach can easily be linked to data of Plaintiff and the Class that is available on the internet.

63. In other words, even if certain information such as emails, phone numbers, or credit card numbers may not be included in the PII stolen by the cyber-criminals in the Data Breach, criminals can easily create a Fullz package and sell it at a higher price to unscrupulous operators and criminals (such as illegal and scam telemarketers) over and over. That is exactly what is happening to Plaintiff and Class members, and it is reasonable for any trier of fact, including this Court or a jury, to find that Plaintiff and other Class members’ stolen PII is being misused, and that such misuse is fairly traceable to the Data Breach.

64. Defendant disclosed the PII of Plaintiff and Class members for criminals to use in the conduct of criminal activity. Specifically, Defendant opened up, disclosed, and exposed the PII of Plaintiff and Class members to people engaged in disruptive and unlawful business practices and tactics, including online account hacking, unauthorized use of financial accounts, and fraudulent attempts to open unauthorized financial accounts (i.e., identity fraud), all using the stolen PII.

65. Defendant’s failure to promptly and properly notify Plaintiff and Class members of the Data Breach exacerbated Plaintiff and Class members’ injury by depriving them of the earliest

ability to take appropriate measures to protect their PII and take other necessary steps to mitigate the harm caused by the Data Breach.

Defendant Knew—Or Should Have Known—of the Risk of a Data Breach

66. Defendant’s data security obligations were particularly important given the substantial increase in cyberattacks and/or data breaches in recent years.

67. In 2021, a record 1,862 data breaches occurred, exposing approximately 293,927,708 sensitive records—a 68% increase from 2020.³⁶

68. Indeed, cyberattacks have become so notorious that the Federal Bureau of Investigation (“FBI”) and U.S. Secret Service issue warnings to potential targets, so they are aware of, and prepared for, a potential attack. As one report explained, “[e]ntities like smaller municipalities and hospitals are attractive to ransomware criminals . . . because they often have lesser IT defenses and a high incentive to regain access to their data quickly.”³⁷

69. Therefore, the increase in such attacks, and attendant risk of future attacks, was widely known to the public and to anyone in Defendant’s industry, including Defendant.

Defendant Failed to Follow FTC Guidelines

70. According to the Federal Trade Commission (“FTC”), the need for data security should be factored into all business decision-making. Thus, the FTC issued numerous guidelines identifying best data security practices that businesses—like Defendant—should use to protect against unlawful data exposure.

³⁶ See *2021 Data Breach Annual Report*, IDENTITY THEFT RESOURCE CENTER (Jan. 2022) <https://notified.idtheftcenter.org/s/>.

³⁷ Ben Kochman, *FBI, Secret Service Warn of Targeted Ransomware*, LAW360 (Nov. 18, 2019), <https://www.law360.com/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware>.

71. In 2016, the FTC updated its publication, *Protecting Personal Information: A Guide for Business*. There, the FTC set guidelines for what data security principles and practices businesses must use.³⁸ The FTC declared that, *inter alia*, businesses must:

- a. protect the personal customer information that they keep;
- b. properly dispose of personal information that is no longer needed;
- c. encrypt information stored on computer networks;
- d. understand their network's vulnerabilities; and
- e. implement policies to correct security problems.

72. The guidelines also recommend that businesses watch for the transmission of large amounts of data out of the system—and then have a response plan ready for such a breach.

73. Furthermore, the FTC explains that companies must:

- a. not maintain information longer than is needed to authorize a transaction;
- b. limit access to sensitive data;
- c. require complex passwords to be used on networks;
- d. use industry-tested methods for security;
- e. monitor for suspicious activity on the network; and
- f. verify that third-party service providers use reasonable security measures.

74. The FTC brings enforcement actions against businesses for failing to protect customer data adequately and reasonably. Thus, the FTC treats the failure—to use reasonable and appropriate measures to protect against unauthorized access to confidential consumer data—as an unfair act or practice prohibited by Section 5 of the Federal Trade Commission Act (“FTCA”), 15

³⁸ *Protecting Personal Information: A Guide for Business*, FEDERAL TRADE COMMISSION (Oct. 2016) https://www.ftc.gov/system/files/documents/plain-language/pdf-0136_proteting-personal-information.pdf.

U.S.C. § 45. Orders resulting from these actions further clarify the measures businesses must take to meet their data security obligations.

75. In short, Defendant's failure to use reasonable and appropriate measures to protect against unauthorized access to its current and former customers' data constitutes an unfair act or practice prohibited by Section 5 of the FTCA, 15 U.S.C. § 45.

Defendant Failed to Follow Industry Standards

76. Several best practices have been identified that—at a *minimum*—should be implemented by businesses like Defendant. These industry standards include: educating all employees; strong passwords; multi-layer security, including firewalls, anti-virus, and anti-malware software; encryption (making data unreadable without a key); multi-factor authentication; backup data; and limiting which employees can access sensitive data.

77. Other industry standard best practices include: installing appropriate malware detection software; monitoring and limiting the network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and routers; monitoring and protection of physical security systems; protection against any possible communication system; and training staff regarding critical points.

78. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

79. These frameworks are applicable and accepted industry standards. And by failing to comply with these accepted standards, Defendant opened the door to the criminals—thereby causing the Data Breach.

CLASS ACTION ALLEGATIONS

80. Plaintiff brings this class action under Fed. R. Civ. P. 23(a), 23(b)(2), and 23(b)(3), individually and on behalf of all members of the following class:

All individuals residing in the United States whose PII was compromised in the Data Breach discovered by Dollar Bank in February 2023, including all those individuals who received notice of the breach.

81. Excluded from the Class are Defendant, its agents, affiliates, parents, subsidiaries, any entity in which Defendant has a controlling interest, any Defendant officer or director, any successor or assign, and any Judge who adjudicates this case, including their staff and immediate family.

82. Plaintiff reserves the right to amend the class definition.

83. Certification of Plaintiff's claims for class-wide treatment is appropriate because Plaintiff can prove the elements of her claims on class-wide bases using the same evidence as would be used to prove those elements in individual actions asserting the same claims.

84. Ascertainability. All members of the proposed Class are readily ascertainable from information in Defendant's custody and control. After all, Defendant already identified some individuals and sent them data breach notices.

85. Numerosity. The Class members are so numerous that joinder of all Class members is impracticable. Upon information and belief, the proposed Class includes at least 13,213 members.

86. Typicality. Plaintiff's claims are typical of Class members' claims as each arises from the same Data Breach, the same alleged violations by Defendant, and the same unreasonable manner of notifying individuals about the Data Breach.

87. Adequacy. Plaintiff will fairly and adequately protect the proposed Class's common interests. her interests do not conflict with Class members' interests. And Plaintiff has retained counsel—including lead counsel—that is experienced in complex class action litigation and data privacy to prosecute this action on the Class's behalf.

88. Commonality and Predominance. Plaintiff's and the Class's claims raise predominantly common fact and legal questions—which predominate over any questions affecting individual Class members—for which a class wide proceeding can answer for all Class members. In fact, a class wide proceeding is necessary to answer the following questions:

- a. if Defendant had a duty to use reasonable care in safeguarding Plaintiff's and the Class's PII;
- b. if Defendant failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the information compromised in the Data Breach;
- c. if Defendant were negligent in maintaining, protecting, and securing PII;
- d. if Defendant breached contract promises to safeguard Plaintiff and the Class's PII;
- e. if Defendant took reasonable measures to determine the extent of the Data Breach after discovering it;
- f. if Defendant's Breach Notice was reasonable;
- g. if the Data Breach caused Plaintiff and the Class injuries;

- h. what the proper damages measure is; and
- i. if Plaintiff and the Class are entitled to damages, treble damages, and or injunctive relief.

89. Superiority. A class action is superior to all other available means for the fair and efficient adjudication of this controversy. The damages or other financial detriment suffered by individual Class members are relatively small compared to the burden and expense that individual litigation against Defendant would require. Thus, it would be practically impossible for Class members, on an individual basis, to obtain effective redress for their injuries. Not only would individualized litigation increase the delay and expense to all parties and the courts, but individualized litigation would also create the danger of inconsistent or contradictory judgments arising from the same set of facts. By contrast, the class action device provides the benefits of adjudication of these issues in a single proceeding, ensures economies of scale, provides comprehensive supervision by a single court, and presents no unusual management difficulties.

FIRST CAUSE OF ACTION

Negligence

(On Behalf of Plaintiff and the Class)

90. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

91. Plaintiff and the Class (or their third-party agents) entrusted their PII to Defendant on the premise and with the understanding that Defendant would safeguard their PII, use their PII for business purposes only, and/or not disclose their PII to unauthorized third parties.

92. Defendant owed a duty of care to Plaintiff and Class members because it was foreseeable that Defendant's failure—to use adequate data security in accordance with industry standards for data security—would compromise their PII in a data breach. And here, that foreseeable danger came to pass.

93. Defendant has full knowledge of the sensitivity of the PII and the types of harm that Plaintiff and the Class could and would suffer if their PII was wrongfully disclosed.

94. Defendant owed these duties to Plaintiff and Class members because they are members of a well-defined, foreseeable, and probable class of individuals whom Defendant knew or should have known would suffer injury-in-fact from Defendant's inadequate security practices. After all, Defendant actively sought and obtained Plaintiff and Class members' PII.

95. Defendant owed—to Plaintiff and Class members—at least the following duties to:

- a. exercise reasonable care in handling and using the PII in its care and custody;
- b. implement industry-standard security procedures sufficient to reasonably protect the information from a data breach, theft, and unauthorized;
- c. promptly detect attempts at unauthorized access;
- d. notify Plaintiff and Class members within a reasonable timeframe of any breach to the security of their PII.

96. Thus, Defendant owed a duty to timely and accurately disclose to Plaintiff and Class members the scope, nature, and occurrence of the Data Breach. After all, this duty is required and necessary for Plaintiff and Class members to take appropriate measures to protect their PII, to be vigilant in the face of an increased risk of harm, and to take other necessary steps to mitigate the harm caused by the Data Breach.

97. Defendant also had a duty to exercise appropriate clearinghouse practices to remove PII it was no longer required to retain under applicable regulations.

98. Defendant knew or reasonably should have known that the failure to exercise due care in the collecting, storing, and using of the PII of Plaintiff and the Class involved an

unreasonable risk of harm to Plaintiff and the Class, even if the harm occurred through the criminal acts of a third party.

99. Defendant's duty to use reasonable security measures arose because of the special relationship that existed between Defendant and Plaintiff and the Class. That special relationship arose because Plaintiff and the Class (or their third-party agents) entrusted Defendant with their confidential PII, a necessary part of obtaining services from Defendant.

100. The risk that unauthorized persons would attempt to gain access to the PII and misuse it was foreseeable. Given that Defendant hold vast amounts of PII, it was inevitable that unauthorized individuals would attempt to access Defendant's databases containing the PII — whether by malware or otherwise.

101. PII is highly valuable, and Defendant knew, or should have known, the risk in obtaining, using, handling, emailing, and storing the PII of Plaintiff and Class members' and the importance of exercising reasonable care in handling it.

102. Defendant improperly and inadequately safeguarded the PII of Plaintiff and the Class in deviation of standard industry rules, regulations, and practices at the time of the Data Breach.

103. Defendant breached these duties as evidenced by the Data Breach.

104. Defendant acted with wanton and reckless disregard for the security and confidentiality of Plaintiff's and Class members' PII by:

- a. disclosing and providing access to this information to third parties and
- b. failing to properly supervise both the way the PII was stored, used, and exchanged, and those in its employ who were responsible for making that happen.

105. Defendant breached its duties by failing to exercise reasonable care in supervising its agents, contractors, vendors, and suppliers, and in handling and securing the personal information and PII of Plaintiff and Class members which actually and proximately caused the Data Breach and Plaintiff and Class members' injury.

106. Defendant further breached its duties by failing to provide reasonably timely notice of the Data Breach to Plaintiff and Class members, which actually and proximately caused and exacerbated the harm from the Data Breach and Plaintiff and Class members' injuries-in-fact.

107. Defendant has admitted that the PII of Plaintiff and the Class was wrongfully lost and disclosed to unauthorized third persons because of the Data Breach.

108. As a direct and traceable result of Defendant's negligence and/or negligent supervision, Plaintiff and Class members have suffered or will suffer damages, including monetary damages, increased risk of future harm, embarrassment, humiliation, frustration, and emotional distress.

109. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the dark web.

110. Defendant's breach of its common-law duties to exercise reasonable care and its failures and negligence actually and proximately caused Plaintiff and Class members actual, tangible, injury-in-fact and damages, including, without limitation, the theft of their PII by criminals, improper disclosure of their PII, lost benefit of their bargain, lost value of their PII, and lost time and money incurred to mitigate and remediate the effects of the Data Breach that resulted from and were caused by Defendant's negligence, which injury-in-fact and damages are ongoing, imminent, immediate, and which they continue to face.

SECOND CAUSE OF ACTION
Negligence *per se*

(On Behalf of Plaintiff and the Class)

111. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

112. Under the FTC Act, 15 U.S.C. § 45, Defendant had a duty to use fair and adequate computer systems and data security practices to safeguard Plaintiff's and Class members' PII.

113. Section 5 of the FTC Act prohibits "unfair . . . practices in or affecting commerce," including, as interpreted and enforced by the FTC, the unfair act or practice by businesses, such as Defendant, of failing to use reasonable measures to protect the PII entrusted to it. The FTC publications and orders promulgated pursuant to the FTC Act also form part of the basis of Defendant's duty to protect Plaintiff and the Class members' sensitive PII.

114. Defendant breached its respective duties to Plaintiff and Class members under the FTC Act by failing to provide fair, reasonable, or adequate computer systems and data security practices to safeguard PII.

115. Defendant violated its duty under Section 5 of the FTC Act by failing to use reasonable measures to protect PII and not complying with applicable industry standards as described in detail herein. Defendant's conduct was particularly unreasonable given the nature and amount of PII Defendant had collected and stored and the foreseeable consequences of a data breach, including, specifically, the immense damages that would result to individuals in the event of a breach, which ultimately came to pass.

116. The harm that has occurred is the type of harm the FTC Act is intended to guard against. Indeed, the FTC has pursued numerous enforcement actions against businesses that, because of their failure to employ reasonable data security measures and avoid unfair and deceptive practices, caused the same harm as that suffered by Plaintiff and members of the Class.

117. But for Defendant's wrongful and negligent breach of its duties owed, Plaintiff and Class members would not have been injured.

118. The injury and harm suffered by Plaintiff and Class members was the reasonably foreseeable result of Defendant's breach of their duties. Defendant knew or should have known that Defendant was failing to meet its duties and that its breach would cause Plaintiff and members of the Class to suffer the foreseeable harms associated with the exposure of their PII.

119. Defendant's various violations and its failure to comply with applicable laws and regulations constitutes negligence *per se*.

120. As a direct and proximate result of Defendant's negligence *per se*, Plaintiff and Class members have suffered and will continue to suffer numerous injuries (as detailed *supra*).

THIRD CAUSE OF ACTION
Breach of Implied Contract
(On Behalf of Plaintiff and the Class)

121. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

122. Plaintiff and Class members either directly contracted with Defendant or Plaintiff and Class members were the third-party beneficiaries of contracts with Defendant.

123. Plaintiff and Class members (or their third-party agents) were required to provide their PII to Defendant as a condition of receiving services provided by Defendant. Plaintiff and Class members (or their third-party agents) provided their PII to Defendant or its third-party agents in exchange for Defendant's services.

124. The contracts entered into by Plaintiff's and Class members' agents (for example, Standard Bank), were made for the direct benefit of Plaintiff and the Class. Specifically, Plaintiff's and Class members' third party agents entered into contracts with Defendant to provide services (including adequate data security) for Plaintiff and Class members.

125. Plaintiff and Class members (or their third-party agents) reasonably understood that a portion of the funds they paid Defendant would be used to pay for adequate cybersecurity measures.

126. Plaintiff and Class members (or their third-party agents) reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

127. Plaintiff and the Class members (or their third-party agents) accepted Defendant's offers by disclosing their PII to Defendant or its third-party agents in exchange for Defendant's services.

128. In turn, and through internal policies, Defendant agreed to protect and not disclose the PII to unauthorized persons.

129. In its Privacy Policy, Defendant represented that they had a legal duty to protect Plaintiff's and Class Member's PII.

130. Implicit in the parties' agreement was that Defendant would provide Plaintiff and Class members (or their third-party agents) with prompt and adequate notice of all unauthorized access and/or theft of their PII.

131. After all, Plaintiff and Class members (or their third-party agents) would not have entrusted their PII to Defendant or its third-party agents in the absence of such an agreement with Defendant.

132. Plaintiff and the Class (or their third-party agents) fully performed their obligations under the implied contracts with Defendant.

133. The covenant of good faith and fair dealing is an element of every contract. Thus, parties must act with honesty in fact in the conduct or transactions concerned. Good faith and fair

dealing, in connection with executing contracts and discharging performance and other duties according to their terms, means preserving the spirit—and not merely the letter—of the bargain. In short, the parties to a contract are mutually obligated to comply with the substance of their contract in addition to its form.

134. Subterfuge and evasion violate the duty of good faith in performance even when an actor believes their conduct to be justified. Bad faith may be overt or consist of inaction. And fair dealing may require more than honesty.

135. Defendant materially breached the contracts it entered with Plaintiff and Class members (or their third-party agents) by:

- a. failing to safeguard their information;
- b. failing to notify them promptly of the intrusion into its computer systems that compromised such information.
- c. failing to comply with industry standards;
- d. failing to comply with the legal obligations necessarily incorporated into the agreements; and
- e. failing to ensure the confidentiality and integrity of the electronic PII that Defendant created, received, maintained, and transmitted.

136. In these and other ways, Defendant violated its duty of good faith and fair dealing.

137. Defendant's material breaches were the direct and proximate cause of Plaintiff's and Class members' injuries (as detailed *supra*).

138. And, on information and belief, Plaintiff's PII has already been published—or will be published imminently—by cybercriminals on the dark web.

139. Plaintiff and Class members (or their third-party agents) performed as required under the relevant agreements, or such performance was waived by Defendant's conduct.

FOURTH CAUSE OF ACTION
Unjust Enrichment
(On Behalf of Plaintiff and the Class)

140. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

141. This claim is pleaded in the alternative to the breach of implied contract claim.

142. Plaintiff and Class members (or their third-party agents) conferred a benefit upon Defendant. After all, Defendant benefitted from using their PII and payment to provide services.

143. Defendant appreciated or had knowledge of the benefits it received from Plaintiff and Class members (or their third-party agents). And Defendant benefited from receiving Plaintiff's and Class members' PII and payment, as they were used to provide services.

144. Plaintiff and Class members (or their third-party agents) reasonably understood that Defendant would use adequate cybersecurity measures to protect the PII that they were required to provide based on Defendant's duties under state and federal law and its internal policies.

145. Defendant enriched itself by saving the costs they reasonably should have expended on data security measures to secure Plaintiff's and Class members' PII.

146. Instead of providing a reasonable level of security, or retention policies, that would have prevented the Data Breach, Defendant instead calculated to avoid its data security obligations at the expense of Plaintiff and Class members by utilizing cheaper, ineffective security measures. Plaintiff and Class members, on the other hand, suffered as a direct and proximate result of Defendant's failure to provide the requisite security.

147. Under principles of equity and good conscience, Defendant should not be permitted to retain the full value of Plaintiff's and Class members' payment because Defendant failed to adequately protect their PII.

148. Plaintiff and Class members have no adequate remedy at law.

149. Defendant should be compelled to disgorge into a common fund—for the benefit of Plaintiff and Class members—all unlawful or inequitable proceeds that it received because of its misconduct.

FIFTH CAUSE OF ACTION
Breach of Fiduciary Duty
(On Behalf of Plaintiff and the Class)

150. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

151. Given the relationship between Defendant and Plaintiff and Class members, where Defendant became guardian of Plaintiff's and Class members' PII, Defendant became a fiduciary by its undertaking and guardianship of the PII, to act primarily for Plaintiff and Class members, (1) for the safeguarding of Plaintiff and Class members' PII; (2) to timely notify Plaintiff and Class members of a Data Breach and disclosure; and (3) to maintain complete and accurate records of what information (and where) Defendant did and does store.

152. Defendant has a fiduciary duty to act for the benefit of Plaintiff and Class members upon matters within the scope of Defendant's relationship with them—especially to secure their PII.

153. Because of the highly sensitive nature of the PII, Plaintiff and Class members (or their third-party agents) would not have entrusted Defendant, or anyone in Defendant's position, to retain their PII had they known the reality of Defendant's inadequate data security practices.

154. Defendant breached its fiduciary duties to Plaintiff and Class members by failing to sufficiently encrypt or otherwise protect Plaintiff's and Class members' PII.

155. Defendant also breached its fiduciary duties to Plaintiff and Class members by failing to diligently discover, investigate, and give notice of the Data Breach in a reasonable and practicable period.

156. As a direct and proximate result of Defendant's breach of its fiduciary duties, Plaintiff and Class members have suffered and will continue to suffer numerous injuries (as detailed *supra*).

SIXTH CAUSE OF ACTION
Breach of Confidence
(On Behalf of Plaintiff and the Class)

157. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

158. At all times during Plaintiff's and Class Members' interactions with Defendant, Defendant was fully aware of the confidential and sensitive nature of Plaintiff's and Class Members' PII that Plaintiff and Class Members provided to Defendant.

159. As alleged herein and above, Defendant's relationship with Plaintiff and Class Members was governed by expectations that Plaintiff's and Class Members' PII would be collected, stored, and protected in confidence, and would not be disclosed to unauthorized third parties.

160. Plaintiff and Class Members provided their respective PII to Defendant with the explicit and implicit understandings that Defendant would protect and not permit the PII to be disseminated to any unauthorized parties.

161. Plaintiff and Class Members also provided their respective PII to Defendant with the explicit and implicit understanding that Defendant would take precautions to protect that PII from unauthorized disclosure, such as following basic principles of information security practices.

162. Defendant voluntarily received in confidence Plaintiff's and Class Members' PII with the understanding that the PII would not be disclosed or disseminated to the public or any unauthorized third parties.

163. Due to Defendant's failure to prevent, detect, and/or avoid the data breach from occurring by, inter alia, failing to follow best information security practices to secure Plaintiff's and Class Members' PII, Plaintiff's and Class Members' PII was disclosed and misappropriated to unauthorized third parties beyond Plaintiff's and Class Members' confidence, and without their express permission.

164. As a direct and proximate cause of Defendant's actions and/or omissions, Plaintiff and Class Members have suffered damages.

165. But for Defendant's disclosure of Plaintiff's and Class Members' PII in violation of the parties' understanding of confidence, their PII would not have been compromised, stolen, viewed, accessed, and used by unauthorized third parties. Defendant's Data breach was the direct and legal cause of the theft of Plaintiff's and Class Members' PII, as well as the resulting damages.

166. The injury and harm Plaintiff and Class Members suffered was the reasonably foreseeable result of Defendant's unauthorized disclosure of Plaintiff's and Class Members' PII. Defendant knew its computer systems and technologies for accepting and securing Plaintiff's and Class Members' PII had numerous security vulnerabilities because Defendant failed to observe industry standard information security practices.

167. As a direct and proximate result of Defendant's breaches of confidence, Plaintiff and the Class have suffered, and continue to suffer, injuries and damages arising from identity theft; damages from lost time and effort to mitigate the actual and potential impact of the data breach on their lives, including, inter alia, by placing "freezes" and "alerts" with credit reporting agencies, contacting their financial institutions, closing or modifying financial accounts, closely reviewing and monitoring their credit reports and accounts for unauthorized activity, and filing police reports, and damages from identity theft, which may take months if not years to discover and detect, given the far-reaching, adverse and detrimental consequences of identity theft and loss of privacy.

168. As a direct and proximate result of Defendant's breaches of confidence, Plaintiff and Class Members have suffered and will continue to suffer other forms of injury and/or harm, including, but not limited to, anxiety, emotional distress, loss of privacy, and other economic and non-economic losses.

SEVENTH CAUSE OF ACTION
Publicity Given to Private Life
(On Behalf of Plaintiff and the Class)

169. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

170. One who gives publicity to matters concerning the private life of another, of a kind highly offensive to a reasonable person, is subject to liability to the other for invasion of their privacy.

171. Defendant required that Plaintiff and Class members provide their sensitive PII.

172. But Defendant failed to use adequate and reasonable security measures to prevent the public disclosure of Plaintiff's and the Class's PII.

173. Moreover, Defendant failed to timely and reasonably notify Plaintiff and the Class about the Data Breach for months, which made Plaintiff and the Class vulnerable to identity theft.

174. As a result of the disclosure of Plaintiff's and the Class's PII, Plaintiff has suffered a de facto injury, which entitles her to general damages.

EIGHTH CAUSE OF ACTION
Declaratory Judgment
(On Behalf of Plaintiff and the Class)

175. Plaintiff incorporates by reference all other paragraphs as if fully set forth herein.

176. Under the Declaratory Judgment Act, 28 U.S.C. §§ 2201, *et seq.*, this Court is authorized to enter a judgment declaring the rights and legal relations of the parties and to grant further necessary relief. The Court has broad authority to restrain acts, such as those alleged herein, which are tortious and unlawful.

177. In the fallout of the Data Breach, an actual controversy has arisen about Defendant's various duties to use reasonable data security. On information and belief, Plaintiff alleges that Defendant's actions were—and *still* are—inadequate and unreasonable. And Plaintiff and Class members continue to suffer injury from the ongoing threat of fraud and identity theft.

178. Given its authority under the Declaratory Judgment Act, this Court should enter a judgment declaring, among other things, the following:

- a. Defendant owed—and continues to owe—a legal duty to use reasonable data security to secure the data entrusted to it;
- b. Defendant has a duty to notify impacted individuals of the Data Breach under the common law and Section 5 of the FTC Act;
- c. Defendant breached, and continues to breach, its duties by failing to use reasonable measures to the data entrusted to it; and

- d. Defendant breaches of its duties caused—and continues to cause—injuries to Plaintiff and Class members.

179. The Court should also issue corresponding injunctive relief requiring Defendant to use adequate security consistent with industry standards to protect the data entrusted to it.

180. If an injunction is not issued, Plaintiff and the Class will suffer irreparable injury and lack an adequate legal remedy if Defendant experiences a second data breach.

181. And if a second breach occurs, Plaintiff and the Class will lack an adequate remedy at law because many of the resulting injuries are not readily quantified in full and they will be forced to bring multiple lawsuits to rectify the same conduct. Simply put, monetary damages—while warranted for out-of-pocket damages and other legally quantifiable and provable damages—cannot cover the full extent of Plaintiff and Class members' injuries.

182. If an injunction is not issued, the resulting hardship to Plaintiff and Class members far exceeds the minimal hardship that Defendant could experience if an injunction is issued.

183. An injunction would benefit the public by preventing another data breach—thus preventing further injuries to Plaintiff, Class members, and the public at large.

PRAYER FOR RELIEF

Plaintiff and Class members respectfully request judgment against Defendant and that the Court enter an order:

- A. Certifying this case as a class action on behalf of Plaintiff and the proposed Class, appointing Plaintiff as class representative, and appointing her counsel to represent the Class;
- B. Awarding declaratory and other equitable relief as necessary to protect the interests of Plaintiff and the Class;

- C. Awarding injunctive relief as necessary to protect the interests of Plaintiff and the Class;
- D. Awarding Plaintiff and the Class damages including applicable compensatory, exemplary, punitive damages, and statutory damages, as allowed by law;
- E. Awarding restitution and damages to Plaintiff and the Class in an amount to be determined at trial;
- F. Awarding attorneys' fees and costs, as allowed by law;
- G. Awarding prejudgment and post-judgment interest, as provided by law;
- H. Granting Plaintiff and the Class leave to amend this complaint to conform to the evidence produced at trial; and
- I. Granting other relief that this Court finds appropriate.

DEMAND FOR JURY TRIAL

Plaintiff demands a jury trial for all claims so triable.

Respectfully submitted,
