CS-23-5736

IN THE DISTRICT COURT FOR OKLAHOMA COUNTY
STATE OF OKLAHOMAANDREW STROTHER, on behalf of
himself and all others similarly situated,

Plaintiff,

v.

MIDFIRST BANK,

Defendant.

Case No. **CJ - 2023 - 5736**

Judge

Stinson

CLASS ACTION COMPLAINT

DEMAND FOR RETURN TRIAL DISTRICT COURT
OKLAHOMA COUNTY

OCT - 5 2023

RICK WARREN
COURT CLERK

100

CLASS ACTION COMPLAINT

Plaintiff Andrew Strother ("Plaintiff") individually and on behalf of all similarly situated persons, alleges the following against MidFirst Bank ("MidFirst" or "Defendant") based upon personal knowledge with respect to himself and on information and belief derived from, among other things, investigation by his counsel and review of public documents, as to all other matters:

I. INTRODUCTION

1. Plaintiff brings this class action against MidFirst for its failure to properly secure and safeguard Plaintiff's and other similarly situated MidFirst customers' sensitive information, including full names, Social Security numbers, account numbers, and other sensitive information ("personally identifiable information" or "PII").

2. Defendant MidFirst Bank is the largest privately owned bank in the country with \$36.5 billion in assets, as of June 30, 2023.¹ Defendant owns and operates regional banks and financial entities, including Vio Bank ("Vio"), the online banking division of MidFirst.

3. Upon information and belief, former and current customers of Vio and MidFirst are required to entrust Defendant with sensitive, non-public PII, without which Defendant could not perform its regular business activities, in order to obtain financial services from Defendant. Defendant retains this information for at least many years and even after the consumer relationship has ended.

4. By obtaining, collecting, using, and deriving a benefit from the PII of Plaintiff and Class Members, Defendant assumed legal and equitable duties to those individuals to protect and safeguard that information from unauthorized access and intrusion.

5. On an undisclosed date, Defendant learned that one its IT vendor's networks had been penetrated by a cyberattack.² In response, Defendant "review[ed] the data that was involved in the incident."³ As a result of its investigation, Defendant concluded—an undisclosed date—that "an unauthorized party was able to download

¹ <https://www.viobank.com/vio-bank-strength> (last accessed Sep. 27, 2023).

² The "Notice Letter". A sample copy is available at <https://oag.ca.gov/ecrime/databreach/reports/sb24-572155> (last accessed Sep. 27, 2023).

³ *Id.*

files from the MOVEit platform[,] between May 27, 2023 and May 31, 2023.⁴

6. According to the untitled letter sent by Defendant to Plaintiff and other victims of the Data Breach (the “Notice Letter”), the compromised PII included individuals’ full names, Social Security numbers, account numbers, and other sensitive information.⁵

7. Defendant failed to adequately protect Plaintiff’s and Class Members PII—and failed to even encrypt or redact this highly sensitive information. This unencrypted, unredacted PII was compromised due to Defendant’s negligent and/or careless acts and omissions and their utter failure to protect customers’ sensitive data. Hackers targeted and obtained Plaintiff’s and Class Members’ PII because of its value in exploiting and stealing the identities of Plaintiff and Class Members. The present and continuing risk to victims of the Data Breach will remain for their respective lifetimes.

8. Plaintiff brings this action on behalf of all persons whose PII was compromised as a result of Defendant’s failure to: (i) adequately protect the PII of Plaintiff and Class Members; (ii) warn Plaintiff and Class Members of Defendant’s inadequate information security practices; and (iii) effectively secure hardware containing protected PII using reasonable and effective security procedures free of

⁴ *Id.*

⁵ *Id.*

vulnerabilities and incidents. Defendant's conduct amounts at least to negligence and violates federal and state statutes.

9. Defendant disregarded the rights of Plaintiff and Class Members by intentionally, willfully, recklessly, or negligently failing to implement and maintain adequate and reasonable measures and ensure those measures were followed by its IT vendors to ensure that the PII of Plaintiff and Class Members was safeguarded, failing to take available steps to prevent an unauthorized disclosure of data, and failing to follow applicable, required, and appropriate protocols, policies, and procedures regarding the encryption of data, even for internal use. As a result, the PII of Plaintiff and Class Members was compromised through disclosure to an unknown and unauthorized third party. Plaintiff and Class Members have a continuing interest in ensuring that their information is and remains safe, and they should be entitled to injunctive and other equitable relief.

10. Plaintiff and Class Members have suffered injury as a result of Defendant's conduct. These injuries include: (i) invasion of privacy; (ii) lost or diminished value of PII; (iii) lost time and opportunity costs associated with attempting to mitigate the actual consequences of the Data Breach; (iv) loss of benefit of the bargain; (v) experiencing an increase in spam calls, texts, and/or emails; and (vi) the continued and certainly increased risk to their PII, which: (a) remains unencrypted and available for unauthorized third parties to access and

abuse; and (b) remains backed up in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII.

11. Plaintiff and Class Members seek to remedy these harms and prevent any future data compromise on behalf of himself and all similarly situated persons whose personal data was compromised and stolen as a result of the Data Breach and who remain at risk due to Defendant's inadequate data security practices.

II. PARTIES

12. Plaintiff, Andrew Strother, is, and at all times mentioned herein was, an individual and citizen of Houston, Texas.

13. Defendant, MidFirst Bank is an Oklahoma corporation with its principal place of business located in Oklahoma City, Oklahoma.

III. JURISDICTION AND VENUE

14. Jurisdiction and venue are proper in Oklahoma County District Court as the events and causes arose in Oklahoma County and Defendant has its principal place of business in this District. The agreement between Plaintiff and Defendant was executed in Oklahoma County, and Defendant performs services in Oklahoma County. 12 O.S. § 134 ("[C]ounty where the cause of action or some part thereof arose").

IV. FACTUAL ALLEGATIONS

A. Defendant's Business

15. Defendant is "the online bank division of MidFirst Bank, the largest privately held bank in the United States[.]"⁶

16. Plaintiff and Class Members are current and former MidFirst customers.

17. As a condition of receiving financial services, MidFirst requires that its customers, including Plaintiff and Class Members, entrust it with highly sensitive personal information.

18. The information held by Defendant in its computer systems or those of its vendors at the time of the Data Breach included the unencrypted PII of Plaintiff and Class Members.

19. Upon information and belief, Defendant made promises and representations to its customers, including Plaintiff and Class Members, that the PII collected from them as a condition of obtaining financial services at Defendant would be kept safe, confidential, that the privacy of that information would be maintained, and that Defendant would delete any sensitive information after it was no longer required to maintain it.

20. Indeed, Defendant's Private Notice provides that: "[t]o protect your personal information from unauthorized access and use, we use security measures

⁶ <https://www.viobank.com/about> (last accessed Sep. 27, 2023).

that comply with federal law. These measures include computer safeguards and secured files and buildings. Third parties who assist MidFirst Bank by providing services are required by contract to protect nonpublic personal information from unauthorized access."⁷

21. Plaintiff and Class Members provided their PII to Defendant with the reasonable expectation and on the mutual understanding that Defendant would comply with its obligations to keep such information confidential and secure from unauthorized access.

22. Plaintiff and Class Members have taken reasonable steps to maintain the confidentiality of their PII. Plaintiff and Class Members relied on the sophistication of Defendant to keep their PII confidential and securely maintained, to use this information for necessary purposes only, and to make only authorized disclosures of this information. Plaintiff and Class Members value the confidentiality of their PII and demand security to safeguard their PII.

23. Defendant had a duty to adopt reasonable measures to protect the PII of Plaintiff and Class Members from involuntary disclosure to third parties and to audit, monitor, and verify the integrity of its IT vendors and affiliates. Defendant has a legal duty to keep consumer's PII safe and confidential.

⁷ <https://www.viobank.com/Documents/Vio/VioPrivacyNotice.pdf> (last accessed Sep. 27, 2023).

24. Defendant had obligations created by FTC Act, Gramm-Leach-Bliley Act, contract, industry standards, and representations made to Plaintiff and Class Members, to keep their PII confidential and to protect it from unauthorized access and disclosure.

25. Defendant derived a substantial economic benefit from collecting Plaintiff's and Class Members' PII. Without the required submission of PII, Defendant could not perform the services it provides.

26. By obtaining, collecting, using, and deriving a benefit from Plaintiff's and Class Members' PII, Defendant assumed legal and equitable duties and knew or should have known that it was responsible for protecting Plaintiff's and Class Members' PII from disclosure.

B. *The Data Breach*

27. On or about August 18, 2023, Defendant began sending Plaintiff and other Data Breach victims an untitled letter (the "Notice Letter"), informing them that:

What Happened?

One of our service providers recently notified us that they were affected by a data security incident that was the result of a vulnerability in their third-party file transfer platform, MOVEit, between May 27-31, 2023. As a result, an unauthorized party was able to download files from the MOVEit platform. MidFirst was one of a multitude of organizations that were affected by this data security incident.

What Information Was Involved?

We have been reviewing the data that was involved in the incident. Our review has determined that certain files containing MidFirst customer information were involved. These files contained your name, social security number, and account number(s), among other information.⁸

28. Omitted from the Notice Letter were the date that Defendant was notified of the Data Breach, the dates of Defendant's review of impacted data, any explanation as to why Defendant failed to notify Plaintiff and Class Members of the Data Breach's occurrence for nearly three months after the cyberattack occurred, the details of the root cause of the Data Breach, the vulnerabilities exploited, and the remedial measures undertaken to ensure such a breach does not occur again. To date, these critical facts have not been explained or clarified to Plaintiff and Class Members, who retain a vested interest in ensuring that their PII remains protected.

29. This "disclosure" amounts to no real disclosure at all, as it fails to inform, with any degree of specificity, Plaintiff and Class Members of the Data Breach's critical facts. Without these details, Plaintiff's and Class Members' ability to mitigate the harms resulting from the Data Breach is severely diminished.

30. Defendant did not use reasonable security procedures and practices appropriate to the nature of the sensitive information they were maintaining for Plaintiff and Class Members, causing the exposure of PII, such as encrypting the information or deleting it when it is no longer needed. Moreover, Defendant failed

⁸ Notice Letter.

to exercise due diligence in selecting its IT vendors or deciding with whom it would share sensitive PII.

31. The attacker accessed and acquired files Defendant shared with a third party containing unencrypted PII of Plaintiff and Class Members, including their Social Security numbers and other sensitive information. Plaintiff's and Class Members' PII was accessed and stolen in the Data Breach.

32. Plaintiff further believes his PII and that of Class Members was subsequently sold on the dark web following the Data Breach, as that is the *modus operandi* of cybercriminals that commit cyber-attacks of this type.

C. Defendant Acquires, Collects, And Stores Its Customers' PII

33. As a condition to obtain financial services from MidFirst, Plaintiff and Class Members were required to give their sensitive and confidential PII to Defendant.

34. Defendant retains and stores this information and derives a substantial economic benefit from the PII that they collect. But for the collection of Plaintiff's and Class Members' PII, Defendant would be unable to perform its services.

35. By obtaining, collecting, and storing the PII of Plaintiff and Class Members, Defendant assumed legal and equitable duties and knew or should have known that they were responsible for protecting the PII from disclosure.

36. Plaintiff and Class Members have taken reasonable steps to maintain

the confidentiality of their PII and relied on Defendant to keep their PII confidential and maintained securely, to use this information for business purposes only, and to make only authorized disclosures of this information.

37. Defendant could have prevented this Data Breach by properly securing and encrypting the files and file servers containing the PII of Plaintiff and Class Members or by exercising due diligence in selecting its IT vendors and properly auditing those vendor's security practices.

38. Upon information and belief, Defendant made promises to Plaintiff and Class Members to maintain and protect their PII, demonstrating an understanding of the importance of securing PII.

39. Indeed, Defendant's Private Notice provides that: Indeed, Defendant's Private Notice provides that: “[t]o protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings. Third parties who assist MidFirst Bank by providing services are required by contract to protect nonpublic personal information from unauthorized access.”⁹

40. Defendant's negligence in safeguarding the PII of Plaintiff and Class Members is exacerbated by the repeated warnings and alerts directed to protecting

⁹ <https://www.viobank.com/Documents/Vio/VioPrivacyNotice.pdf> (last accessed Sep. 27, 2023).

and securing sensitive data.

E. Defendant Knew or Should Have Known of the Risk Because Financial Institutions In Possession Of PII Are Particularly Susceptable To Cyber Attacks

41. Defendant's data security obligations were particularly important given the substantial increase in cyber-attacks and/or data breaches targeting financial institutions that collect and store PII, like Defendant, preceding the date of the breach.

42. Data thieves regularly target companies like Defendant's due to the highly sensitive information that they custody. Defendant knew and understood that unprotected PII is valuable and highly sought after by criminal parties who seek to illegally monetize that PII through unauthorized access.

43. In 2021, a record 1,862 data breaches occurred, resulting in approximately 293,927,708 sensitive records being exposed, a 68% increase from 2020.¹⁰

44. In light of recent high profile data breaches at other industry leading companies, including, Microsoft (250 million records, December 2019), Wattpad (268 million records, June 2020), Facebook (267 million users, April 2020), Estee Lauder (440 million records, January 2020), Whisper (900 million records, March

¹⁰ See 2021 Data Breach Annual Report (ITRC, Jan. 2022) (available at <https://notified.idtheftcenter.org/s/>), at 6.

2020), and Advanced Info Service (8.3 billion records, May 2020), Defendant knew or should have known that the PII that they collected and maintained would be targeted by cybercriminals.

45. Indeed, cyber-attacks, such as the one experienced by Defendant, have become so notorious that the Federal Bureau of Investigation (“FBI”) and U.S. Secret Service have issued a warning to potential targets so they are aware of, and prepared for, a potential attack. As one report explained, smaller entities that store PII are “attractive to ransomware criminals...because they often have lesser IT defenses and a high incentive to regain access to their data quickly.”¹¹

46. As a custodian of PII, Defendant knew, or should have known, the importance of safeguarding the PII entrusted to it by Plaintiff and Class members, and of the foreseeable consequences if its data security systems were breached, including the significant costs imposed on Plaintiff and Class Members as a result of a breach.

47. Despite the prevalence of public announcements of data breach and data security compromises, Defendant failed to take appropriate steps to protect the PII of Plaintiff and Class Members from being compromised.

¹¹https://www.law360.com/consumerprotection/articles/1220974/fbi-secret-service-warn-of-targeted-ransomware?nl_pk=3ed44a08-fcc2-4b6c-89f0-aa0155a8bb51&utm_source=newsletter&utm_medium=email&utm_campaign=consume rprotection (last accessed Oct. 17, 2022).

48. At all relevant times, Defendant knew, or reasonably should have known, of the importance of safeguarding the PII of Plaintiff and Class Members and of the foreseeable consequences that would occur if Defendant's data security system was breached, including, specifically, the significant costs that would be imposed on Plaintiff and Class Members as a result of a breach.

49. Additionally, as companies became more dependent on computer systems to run their business,¹² *e.g.*, working remotely as a result of the Covid-19 pandemic, and the Internet of Things ("IoT"), the danger posed by cybercriminals is magnified, thereby highlighting the need for adequate administrative, physical, and technical safeguards.¹³

50. Defendant was, or should have been, fully aware of the unique type and the significant volume of data on Defendant's server(s), amounting to, upon information and belief, thousands of individuals' detailed PII, and, thus, the significant number of individuals who would be harmed by the exposure of the unencrypted data.

51. In the Notice Letter, Defendant offers to cover 24 months of identity monitoring for Plaintiff and Class Members. This is wholly inadequate to

¹²<https://www.federalreserve.gov/econres/notes/feds-notes/implications-of-cyber-risk-for-financial-stability-20220512.html>

¹³ <https://www.picussecurity.com/key-threats-and-cyber-risks-facing-financial-services-and-banking-firms-in-2022>

compensate Plaintiff and Class Members as it fails to provide for the fact victims of data breaches and other unauthorized disclosures commonly face multiple years of ongoing identity theft, financial fraud, and it entirely fails to provide sufficient compensation for the unauthorized release and disclosure of Plaintiff and Class Members' PII. Moreover, once this service expires, Plaintiff and Class Members will be forced to pay out of pocket for necessary identity monitoring services.

52. Defendant's offer of credit and identity monitoring establishes that Plaintiff's and Class Members' sensitive PII *was* in fact affected, accessed, compromised, and exfiltrated from Defendant's computer systems.

53. The injuries to Plaintiff and Class Members were directly and proximately caused by Defendant's failure to implement or maintain adequate data security measures for the PII of Plaintiff and Class Members.

54. The ramifications of Defendant's failure to keep secure the PII of Plaintiff and Class Members are long lasting and severe. Once PII is stolen—particularly Social Security numbers—fraudulent use of that information and damage to victims may continue for years.

55. As a financial institution in possession of its customers' and former customers' PII, Defendant knew, or should have known, the importance of safeguarding the PII entrusted to them by Plaintiff and Class Members and of the foreseeable consequences if its data security systems, or those on which it transferred

PII, were breached. This includes the significant costs imposed on Plaintiff and Class Members as a result of a breach. Nevertheless, Defendant failed to take adequate cybersecurity measures to prevent the Data Breach.

F. *Value Of Personally Identifiable Information*

56. The Federal Trade Commission (“FTC”) defines identity theft as “a fraud committed or attempted using the identifying information of another person without authority.”¹⁴ The FTC describes “identifying information” as “any name or number that may be used, alone or in conjunction with any other information, to identify a specific person,” including, among other things, “[n]ame, Social Security number, date of birth, official State or government issued driver’s license or identification number, alien registration number, government passport number, employer or taxpayer identification number.”¹⁵

57. The PII of individuals remains of high value to criminals, as evidenced by the prices they will pay through the dark web. Numerous sources cite dark web pricing for stolen identity credentials.¹⁶

¹⁴ 17 C.F.R. § 248.201 (2013).

¹⁵ *Id.*

¹⁶ *Your personal data is for sale on the dark web. Here’s how much it costs*, Digital Trends, Oct. 16, 2019, available at: <https://www.digitaltrends.com/computing/personal-data-sold-on-the-dark-web-how-much-it-costs/> (last visited Oct. 17, 2022).

58. For example, PII can be sold at a price ranging from \$40 to \$200.¹⁷ Criminals can also purchase access to entire company data breaches from \$900 to \$4,500.¹⁸

59. Social Security numbers are among the worst kind of PII to have stolen because they may be put to a variety of fraudulent uses and are difficult for an individual to change. The Social Security Administration stresses that the loss of an individual's Social Security number, as experienced by Plaintiffs and some Class Members, can lead to identity theft and extensive financial fraud:

A dishonest person who has your Social Security number can use it to get other personal information about you. Identity thieves can use your number and your good credit to apply for more credit in your name. Then, they use the credit cards and don't pay the bills, it damages your credit. You may not find out that someone is using your number until you're turned down for credit, or you begin to get calls from unknown creditors demanding payment for items you never bought. Someone illegally using your Social Security number and assuming your identity can cause a lot of problems.¹⁹

60. What's more, it is no easy task to change or cancel a stolen Social Security number. An individual cannot obtain a new Social Security number without significant paperwork and evidence of actual misuse. In other words, preventive

¹⁷ *Here's How Much Your PII Is Selling for on the Dark Web*, Experian, Dec. 6, 2017, available at: <https://www.experian.com/blogs/ask-experian/heres-how-much-your-personal-information-is-selling-for-on-the-dark-web/> (last visited Oct. 17, 2022).

¹⁸ *In the Dark*, VPNOverview, 2019, available at: <https://vpnoverview.com/privacy/anonymous-browsing/in-the-dark/> (last visited Oct. 21, 2022).

¹⁹ Social Security Administration, *Identity Theft and Your Social Security Number*, available at: <https://www.ssa.gov/pubs/EN-05-10064.pdf> (last visited Oct. 17, 2022).

action to defend against the possibility of misuse of a Social Security number is not permitted; an individual must show evidence of actual, ongoing fraud activity to obtain a new number.

61. Even then, a new Social Security number may not be effective. According to Julie Ferguson of the Identity Theft Resource Center, “[t]he credit bureaus and banks are able to link the new number very quickly to the old number, so all of that old bad information is quickly inherited into the new Social Security number.”

62. Based on the foregoing, the information compromised in the Data Breach is significantly more valuable than the loss of, for example, credit card information in a retailer data breach because, there, victims can cancel or close credit and debit card accounts. The information compromised in this Data Breach is impossible to “close” and difficult, if not impossible, to change—names and Social Security numbers.

63. This data demands a much higher price on the black market. Martin Walter, senior director at cybersecurity firm RedSeal, explained, “Compared to credit card information, personally identifiable information . . . [is] worth more than 10x on the black market.”²⁰

²⁰ Tim Greene, *Anthem Hack: Personal Data Stolen Sells for 10x Price of Stolen Credit Card Numbers*, IT World, (Feb. 6, 2015), available at:

64. Among other forms of fraud, identity thieves may obtain driver's licenses, government benefits, medical services, and housing or even give false information to police.

65. The fraudulent activity resulting from the Data Breach may not come to light for years. There may be a time lag between when harm occurs versus when it is discovered, and also between when PII is stolen and when it is used. According to the U.S. Government Accountability Office ("GAO"), which conducted a study regarding data breaches:

[L]aw enforcement officials told us that in some cases, stolen data may be held for up to a year or more before being used to commit identity theft. Further, once stolen data have been sold or posted on the Web, fraudulent use of that information may continue for years. As a result, studies that attempt to measure the harm resulting from data breaches cannot necessarily rule out all future harm.²¹

G. *Defendant Failed to Comply with FTC Guidelines*

66. The Federal Trade Commission ("FTC") has promulgated numerous guides for businesses which highlight the importance of implementing reasonable data security practices. According to the FTC, the need for data security should be factored into all business decision making. Indeed, the FTC has concluded that a

<https://www.networkworld.com/article/2880366/anthem-hack-personal-data-stolen-sells-for-10x-price-of-stolen-credit-card-numbers.html> (last visited Oct. 17, 2022).

²¹ *Report to Congressional Requesters*, GAO, at 29 (June 2007), available at: <https://www.gao.gov/assets/gao-07-737.pdf> (last visited Oct. 17, 2022).

company's failure to maintain reasonable and appropriate data security for consumers' sensitive personal information is an "unfair practice" in violation of Section 5 of the Federal Trade Commission Act ("FTCA"), 15 U.S.C. § 45. *See, e.g., FTC v. Wyndham Worldwide Corp.*, 799 F.3d 236 (3d Cir. 2015).

67. In October 2016, the FTC updated its publication, Protecting PII: A Guide for Business, which established cybersecurity guidelines for businesses. The guidelines note that businesses should protect the personal customer information that they keep, properly dispose of personal information that is no longer needed, encrypt information stored on computer networks, understand their network's vulnerabilities, and implement policies to correct any security problems. The guidelines also recommend that businesses use an intrusion detection system to expose a breach as soon as it occurs, monitor all incoming traffic for activity indicating someone is attempting to hack into the system, watch for large amounts of data being transmitted from the system, and have a response plan ready in the event of a breach.

68. The FTC further recommends that companies not maintain PII longer than is needed for authorization of a transaction, limit access to sensitive data, require complex passwords to be used on networks, use industry-tested methods for security, monitor the network for suspicious activity, and verify that third-party service providers have implemented reasonable security measures.

69. The FTC has brought enforcement actions against businesses for failing to adequately and reasonably protect customer data by treating the failure to employ reasonable and appropriate measures to protect against unauthorized access to confidential consumer data as an unfair act or practice prohibited by the FTCA. Orders resulting from these actions further clarify the measures businesses must take to meet their data security obligations.

70. These FTC enforcement actions include actions against financial institutions, like Defendant.

71. As evidenced by the Data Breach, MidFirst failed to properly implement basic data security practices and failed to audit, monitor, or ensure the integrity of its vendor's data security practices. MidFirst's failure to employ reasonable and appropriate measures to protect against unauthorized access to Plaintiff's and Class Members' PII constitutes an unfair act or practice prohibited by Section 5 of the FTCA.

72. MidFirst was at all times fully aware of its obligation to protect the PII of its customers yet failed to comply with such obligations. Defendant was also aware of the significant repercussions that would result from its failure to do so.

H. *Defendant Failed to Comply with the Gramm-Leach-Bliley Act*

73. MidFirst is a financial institution, as that term is defined by Section 509(3)(A) of the Gramm-Leach-Bliley Act ("GLBA"), 15 U.S.C. § 6809(3)(A),

and thus is subject to the GLBA.

74. The GLBA defines a financial institution as “any institution the business of which is engaging in financial activities as described in Section 1843(k) of Title 12 [The Bank Holding Company Act of 1956].” 15 U.S.C. § 6809(3)(A).

75. Defendant collects nonpublic personal information, as defined by 15 U.S.C. § 6809(4)(A), 16 C.F.R. § 313.3(n) and 12 C.F.R. § 1016.3(p)(1). Accordingly, during the relevant time period Defendant were subject to the requirements of the GLBA, 15 U.S.C. §§ 6801.1, *et seq.*, and is subject to numerous rules and regulations promulgated on the GLBA statutes.

76. The GLBA Privacy Rule became effective on July 1, 2001. *See* 16 C.F.R. Part 313. Since the enactment of the Dodd-Frank Act on July 21, 2010, the CFPB became responsible for implementing the Privacy Rule. In December 2011, the CFPB restated the implementing regulations in an interim final rule that established the Privacy of Consumer Financial Information, Regulation P, 12 C.F.R. § 1016 (“Regulation P”), with the final version becoming effective on October 28, 2014.

77. Accordingly, Defendant's conduct is governed by the Privacy Rule prior to December 30, 2011 and by Regulation P after that date.

78. Both the Privacy Rule and Regulation P require financial institutions to provide customers with an initial and annual privacy notice. These privacy

notices must be “clear and conspicuous.” 16 C.F.R. §§ 313.4 and 313.5; 12 C.F.R. §§ 1016.4 and 1016.5. “Clear and conspicuous means that a notice is reasonably understandable and designed to call attention to the nature and significance of the information in the notice.” 16 C.F.R. § 313.3(b)(1); 12 C.F.R. § 1016.3(b)(1). These privacy notices must “accurately reflect[] [the financial institution’s] privacy policies and practices.” 16 C.F.R. § 313.4 and 313.5; 12 C.F.R. §§ 1016.4 and 1016.5. They must include specified elements, including the categories of nonpublic personal information the financial institution collects and discloses, the categories of third parties to whom the financial institution discloses the information, and the financial institution’s security and confidentiality policies and practices for nonpublic personal information. 16 C.F.R. § 313.6; 12 C.F.R. § 1016.6. These privacy notices must be provided “so that each consumer can reasonably be expected to receive actual notice.” 16 C.F.R. § 313.9; 12 C.F.R. § 1016.9. As alleged herein, Defendant violated the Privacy Rule and Regulation P.

79. Upon information and belief, Defendant failed to provide annual privacy notices to customers after the customer relationship ended, despite retaining these customers’ PII and storing that PII on Defendant’s network systems.

80. Defendant failed to adequately inform their customers that they were storing and/or sharing, or would store and/or share, the customers’ PII on an insecure platform, accessible to unauthorized parties from the internet, and would

do so after the customer relationship ended.

81. The Safeguards Rule, which implements Section 501(b) of the GLBA, 15 U.S.C. § 6801(b), requires financial institutions to protect the security, confidentiality, and integrity of customer information by developing a comprehensive written information security program that contains reasonable administrative, technical, and physical safeguards, including: (1) designating one or more employees to coordinate the information security program; (2) identifying reasonably foreseeable internal and external risks to the security, confidentiality, and integrity of customer information, and assessing the sufficiency of any safeguards in place to control those risks; (3) designing and implementing information safeguards to control the risks identified through risk assessment, and regularly testing or otherwise monitoring the effectiveness of the safeguards' key controls, systems, and procedures; (4) overseeing service providers and requiring them by contract to protect the security and confidentiality of customer information; and (5) evaluating and adjusting the information security program in light of the results of testing and monitoring, changes to the business operation, and other relevant circumstances. 16 C.F.R. §§ 314.3 and 314.4.

82. As alleged herein, Defendant violated the Safeguard Rule.

83. Defendant failed to assess reasonably foreseeable risks to the security, confidentiality, and integrity of customer information and failed to

monitor the systems of its IT partners or verify the integrity of those systems.

84. Defendant violated the GLBA and its own policies and procedures by sharing the PII of Plaintiff and Class Members with a non-affiliated third party without providing Plaintiff and Class Members (a) an opt-out notice and (b) a reasonable opportunity to opt out of such disclosure.

I. *Defendant Failed to Comply with Industry Standards*

85. As noted above, experts studying cybersecurity routinely identify financial institutions as being particularly vulnerable to cyberattacks because of the value of the PII which they collect and maintain.

86. Some industry best practices that should be implemented by financial institutions dealing with sensitive PII, like MidFirst, include but are not limited to: educating all employees, strong password requirements, multilayer security including firewalls, anti-virus and anti-malware software, encryption, multi-factor authentication, backing up data, and limiting which employees can access sensitive data. As evidenced by the Data Breach, Defendant failed to follow some or all of these industry best practices.

87. Other best cybersecurity practices that are standard in the financial services industry include: installing appropriate malware detection software; monitoring and limiting network ports; protecting web browsers and email management systems; setting up network systems such as firewalls, switches, and

routers; monitoring and protecting physical security systems; and training staff regarding these points. As evidenced by the Data Breach, Defendant failed to follow these cybersecurity best practices.

88. Defendant failed to meet the minimum standards of any of the following frameworks: the NIST Cybersecurity Framework Version 1.1 (including without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7, PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security Controls (CIS CSC), which are all established standards in reasonable cybersecurity readiness.

89. Defendant failed to comply with these accepted standards in the financial services industry, thereby permitting the Data Breach to occur.

J. *Defendant Breached its Duty to Safeguard Customers' PII*

90. In addition to its obligations under federal and state laws, MidFirst owed a duty to Plaintiff and Class Members to exercise reasonable care in obtaining, retaining, securing, safeguarding, deleting, and protecting the PII in its possession from being compromised, lost, stolen, accessed, and misused by unauthorized persons. MidFirst owed a duty to Plaintiff and Class Members to provide reasonable security, including consistency with industry standards and requirements, and to ensure that its computer systems, networks, and protocols adequately protected the

PII of Class Members

91. MidFirst breached its obligations to Plaintiff and Class Members and/or was otherwise negligent and reckless because it failed to properly maintain and safeguard its computer systems and data and failed to audit, monitor, or ensure the integrity of its vendor's data security practices. MidFirst's unlawful conduct includes, but is not limited to, the following acts and/or omissions:

- a. Failing to maintain an adequate data security system that would reduce the risk of data breaches and cyberattacks;
- b. Failing to adequately protect customers' PII;
- c. Failing to properly monitor its own data security systems for existing intrusions;
- d. Failing to audit, monitor, or ensure the integrity of its vendor's data security practices;
- e. Failing to sufficiently train its employees and vendors regarding the proper handling of its customers PII;
- f. Failing to fully comply with FTC guidelines for cybersecurity in violation of the FTCA;
- g. Failing to adhere to the Gramm-Leach-Bliley Act and industry standards for cybersecurity as discussed above; and,
- h. Otherwise breaching its duties and obligations to protect Plaintiff's

and Class Members' PII.

92. MidFirst negligently and unlawfully failed to safeguard Plaintiff's and Class Members' PII by allowing cyberthieves to access its computer network and systems which contained unsecured and unencrypted PII.

93. Had MidFirst remedied the deficiencies in its information storage and security systems or those of its vendors and affiliates, followed industry guidelines, and adopted security measures recommended by experts in the field, it could have prevented intrusion into its information storage and security systems and, ultimately, the theft of Plaintiff's and Class Members' confidential PII.

K. *Common Injuries & Damages*

94. As a result of Defendant's ineffective and inadequate data security practices, the Data Breach, and the foreseeable consequences of PII ending up in the possession of criminals, the risk of identity theft to the Plaintiff and Class Members has materialized and is imminent, and Plaintiff and Class Members have all sustained actual injuries and damages, including: (a) invasion of privacy; (b) loss of time and loss of productivity incurred mitigating the materialized risk and imminent threat of identity theft risk; (c) the loss of benefit of the bargain (price premium damages); (d) diminution of value of their PII; (e) invasion of privacy; and (f) the continued risk to their PII, which remains in the possession of Defendant, and which is subject to further breaches, so long as Defendant fails to undertake appropriate

and adequate measures to protect Plaintiff's and Class Members' PII.

L. *The Data Breach Increases Victims' Risk Of Identity Theft*

95. Plaintiff and Class Members are at a heightened risk of identity theft for years to come.

96. The unencrypted PII of Class Members will end up for sale on the dark web because that is the *modus operandi* of hackers. In addition, unencrypted PII may fall into the hands of companies that will use the detailed PII for targeted marketing without the approval of Plaintiff and Class Members. Unauthorized individuals can easily access the PII of Plaintiff and Class Members.

97. The link between a data breach and the risk of identity theft is simple and well established. Criminals acquire and steal PII to monetize the information. Criminals monetize the data by selling the stolen information on the black market to other criminals who then utilize the information to commit a variety of identity theft related crimes discussed below.

98. Because a person's identity is akin to a puzzle with multiple data points, the more accurate pieces of data an identity thief obtains about a person, the easier it is for the thief to take on the victim's identity--or track the victim to attempt other hacking crimes against the individual to obtain more data to perfect a crime.

99. For example, armed with just a name and date of birth, a data thief can utilize a hacking technique referred to as "social engineering" to obtain even more

information about a victim's identity, such as a person's login credentials or Social Security number. Social engineering is a form of hacking whereby a data thief uses previously acquired information to manipulate and trick individuals into disclosing additional confidential or personal information through means such as spam phone calls and text messages or phishing emails. Data Breaches can be the starting point for these additional targeted attacks on the victim.

100. One such example of criminals piecing together bits and pieces of compromised PII for profit is the development of "Fullz" packages.²²

101. With "Fullz" packages, cyber-criminals can cross-reference two sources of PII to marry unregulated data available elsewhere to criminally stolen data with an astonishingly complete scope and degree of accuracy in order to

²² "Fullz" is fraudster speak for data that includes the information of the victim, including, but not limited to, the name, address, credit card information, social security number, date of birth, and more. As a rule of thumb, the more information you have on a victim, the more money that can be made off of those credentials. Fullz are usually pricier than standard credit card credentials, commanding up to \$100 per record (or more) on the dark web. Fullz can be cashed out (turning credentials into money) in various ways, including performing bank transactions over the phone with the required authentication details in-hand. Even "dead Fullz," which are Fullz credentials associated with credit cards that are no longer valid, can still be used for numerous purposes, including tax refund scams, ordering credit cards on behalf of the victim, or opening a "mule account" (an account that will accept a fraudulent money transfer from a compromised account) without the victim's knowledge. See, e.g., Brian Krebs, *Medical Records for Sale in Underground Stolen From Texas Life Insurance Firm*, Krebs on Security (Sep. 18, 2014), <https://krebsonsecurity.com/2014/09/medical-records-for-sale-in-underground-stolen-from-texas-life-insurance->](<https://krebsonsecurity.com/2014/09/medical-records-for-sale-in-underground-stolen-from-texas-life-insurance-finn/>) (last visited on May 26, 2023).

assemble complete dossiers on individuals.

102. The development of “Fullz” packages means here that the stolen PII from the Data Breach can easily be used to link and identify it to Plaintiff’s and Class Members’ phone numbers, email addresses, and other unregulated sources and identifiers. In other words, even if certain information such as emails, phone numbers, or credit card numbers may not be included in the PII that was exfiltrated in the Data Breach, criminals may still easily create a Fullz package and sell it at a higher price to unscrupulous operators and criminals (such as illegal and scam telemarketers) over and over.

103. The existence and prevalence of “Fullz” packages means that the PII stolen from the data breach can easily be linked to the unregulated data (like driver’s license numbers) of Plaintiff and the other Class Members.

104. Thus, even if certain information (such as driver’s license numbers) was not stolen in the data breach, criminals can still easily create a comprehensive “Fullz” package.

105. Then, this comprehensive dossier can be sold—and then resold in perpetuity—to crooked operators and other criminals (like illegal and scam telemarketers).

M. *Loss Of Time To Mitigate Risk Of Identity Theft And Fraud*

106. As a result of the recognized risk of identity theft, when a Data Breach

occurs, and an individual is notified by a company that their PII was compromised, as in this Data Breach, the reasonable person is expected to take steps and spend time to address the dangerous situation, learn about the breach, and otherwise mitigate the risk of becoming a victim of identity theft or fraud. Failure to spend time taking steps to review accounts or credit reports could expose the individual to greater financial harm – yet, the resource and asset of time has been lost.

107. Thus, due to the actual and imminent risk of identity theft, Plaintiff and Class Members must, as Defendant's Notice Letter instructs,²³ "remain vigilant" and monitor their financial accounts for many years to mitigate the risk of identity theft.

108. Plaintiff and Class Members have spent, and will spend additional time in the future, on a variety of prudent actions to remedy the harms they have or may experience as a result of the Data Breach, such as changing passwords and resecuring their own computer networks, monitoring their credit reports for unauthorized activity, and contacting financial institutions to sort of fraudulent charges placed on their accounts.

109. These efforts are consistent with the U.S. Government Accountability Office that released a report in 2007 regarding data breaches ("GAO Report") in which it noted that victims of identity theft will face "substantial costs and time to

²³ Notice Letter.

repair the damage to their good name and credit record.”²⁴

110. These efforts are also consistent with the steps that FTC recommends that data breach victims take several steps to protect their personal and financial information after a data breach, including: contacting one of the credit bureaus to place a fraud alert (consider an extended fraud alert that lasts for seven years if someone steals their identity), reviewing their credit reports, contacting companies to remove fraudulent charges from their accounts, placing a credit freeze on their credit, and correcting their credit reports.²⁵

111. And for those Class Members who experience actual identity theft and fraud, the United States Government Accountability Office released a report in 2007 regarding data breaches (“GAO Report”) in which it noted that victims of identity theft will face “substantial costs and time to repair the damage to their good name and credit record.”²⁶

N. *Diminution Value Of PII*

²⁴ See United States Government Accountability Office, GAO-07-737, PII: Data Breaches Are Frequent, but Evidence of Resulting Identity Theft Is Limited; However, the Full Extent Is Unknown (June 2007), <https://www.gao.gov/new.items/d07737.pdf>.

²⁵ See Federal Trade Commission, *Identity Theft.gov*, <https://www.identitytheft.gov/Steps> (last visited July 7, 2022).

²⁶ See “Data Breaches Are Frequent, but Evidence of Resulting Identity Theft Is Limited; However, the Full Extent Is Unknown,” p. 2, U.S. Government Accountability Office, June 2007, <https://www.gao.gov/new.items/d07737.pdf> (last visited Sep. 13, 2022) (“GAO Report”).

112. PII is a valuable property right.²⁷ Its value is axiomatic, considering the value of Big Data in corporate America and the consequences of cyber thefts include heavy prison sentences. Even this obvious risk to reward analysis illustrates beyond doubt that PII has considerable market value.

113. An active and robust legitimate marketplace for PII exists. In 2019, the data brokering industry was worth roughly \$200 billion.²⁸

114. In fact, the data marketplace is so sophisticated that consumers can actually sell their non-public information directly to a data broker who in turn aggregates the information and provides it to marketers or app developers.^{29,30}

115. Consumers who agree to provide their web browsing history to the Nielsen Corporation can receive up to \$50.00 a year.³¹

116. Conversely sensitive PII can sell for as much as \$363 per record on the dark web according to the Infosec Institute.³²

²⁷ See, e.g., Randall T. Soma, et al, Corporate Privacy Trend: The “Value” of Personally Identifiable Information (“PII”) Equals the “Value” of Financial Assets, 15 Rich. J.L. & Tech. 11, at *3-4 (2009) (“PII, which companies obtain at little cost, has quantifiable value that is rapidly reaching a level comparable to the value of traditional financial assets.”) (citations omitted).

²⁸ <https://www.latimes.com/business/story/2019-11-05/column-data-brokers>

²⁹ <https://datacoup.com/>

³⁰ <https://digi.me/what-is-digime/>

³¹ Nielsen Computer & Mobile Panel, *Frequently Asked Questions*, available at <https://computermobilepanel.nielsen.com/ui/US/en/faqen.html>

³² See Ashiq Ja, *Hackers Selling Healthcare Data in the Black Market*, InfoSec (July 27, 2015), <https://resources.infosecinstitute.com/topic/hackers-selling-healthcare-data-in-the-black-market/> (last visited Sep. 13, 2022).

117. As a result of the Data Breach, Plaintiff's and Class Members' PII, which has an inherent market value in both legitimate and dark markets, has been damaged and diminished by its compromise and unauthorized release. However, this transfer of value occurred without any consideration paid to Plaintiff or Class Members for their property, resulting in an economic loss. Moreover, the PII is now readily available, and the rarity of the Data has been lost, thereby causing additional loss of value.

118. Based on the foregoing, the information compromised in the Data Breach is significantly more valuable than the loss of, for example, credit card information in a retailer data breach because, there, victims can cancel or close credit and debit card accounts. The information compromised in this Data Breach is impossible to "close" and difficult, if not impossible, to change, e.g., names and Social Security numbers.

119. Among other forms of fraud, identity thieves may obtain driver's licenses, government benefits, medical services, and housing or even give false information to police.

120. The fraudulent activity resulting from the Data Breach may not come to light for years.

121. At all relevant times, Defendant knew, or reasonably should have known, of the importance of safeguarding the PII of Plaintiff and Class Members,

and of the foreseeable consequences that would occur if Defendant's data security system was breached, including, specifically, the significant costs that would be imposed on Plaintiff and Class Members as a result of a breach.

122. Defendant was, or should have been, fully aware of the unique type and the significant volume of data on Defendant's network, amounting to, upon information and belief, thousands of individuals' detailed personal information, upon information and belief, and thus, the significant number of individuals who would be harmed by the exposure of the unencrypted data.

123. The injuries to Plaintiff and Class Members were directly and proximately caused by Defendant's failure to implement or maintain adequate data security measures for the PII of Plaintiff and Class Members.

O. *Future Cost of Credit & Identity Theft Monitoring is Reasonable and Necessary*

124. Given the type of targeted attack in this case and sophisticated criminal activity, the type of PII involved, and the volume of data obtained in the Data Breach, there is a strong probability that entire batches of stolen information have been placed, or will be placed, on the black market/dark web for sale and purchase by criminals intending to utilize the PII for identity theft crimes –e.g., opening bank accounts in the victims' names to make purchases or to launder money; file false tax returns; take out loans or lines of credit; or file false unemployment claims.

125. Such fraud may go undetected until debt collection calls commence

months, or even years, later. An individual may not know that his or her Social Security Number was used to file for unemployment benefits until law enforcement notifies the individual's employer of the suspected fraud. Fraudulent tax returns are typically discovered only when an individual's authentic tax return is rejected.

126. Consequently, Plaintiff and Class Members are at a present and continuous risk of fraud and identity theft for many years into the future.

127. The retail cost of credit monitoring and identity theft monitoring can cost around \$200 a year per Class Member. This is a reasonable and necessary cost to monitor to protect Class Members from the risk of identity theft that arose from Defendant's Data Breach.

P. *Loss Of The Benefit Of The Bargain*

128. Furthermore, Defendant's poor data security deprived Plaintiff and Class Members of the benefit of their bargain. When agreeing to pay Defendant and/or its agents for financial services, Plaintiff and other reasonable consumers understood and expected that they were, in part, paying for the product and/or service and necessary data security to protect the PII, when in fact, Defendant did not provide the expected data security. Accordingly, Plaintiff and Class Members received financial services that were of a lesser value than what they reasonably expected to receive under the bargains they struck with Defendant.

Q. *Plaintiff Strother's Experience*

129. Plaintiff Andrew Strother is a current customer at of Vio Bank, which is owned and operated by MidFirst.

130. In order to obtain financial services at Vio and MidFirst, Plaintiff was required to provide his PII to Defendant, including his name, Social Security number, and other sensitive information.

131. At the time of the Data Breach—May 27, 2023 through May 31, 2023—Defendant retained Plaintiff's PII in its system.

132. Plaintiff Strother is very careful about sharing his sensitive PII. Plaintiff stores any documents containing his PII in a safe and secure location. He has never knowingly transmitted unencrypted sensitive PII over the internet or any other unsecured source. Plaintiff would not have entrusted his PII to Defendant had he known of Defendant's lax data security policies.

133. Plaintiff Andrew Strother received the Notice Letter, by U.S. mail, directly from Defendant, dated August 18, 2023. According to the Notice Letter, Plaintiff's PII was improperly accessed and obtained by unauthorized third parties, including his name, account number, and Social Security number.

134. As a result of the Data Breach, and at the direction of Defendant's Notice Letter, Plaintiff made reasonable efforts to mitigate the impact of the Data Breach, including but not limited to: changing passwords and resecuring his own computer network, monitoring his credit reports for unauthorized activity, and

contacting financial institutions to sort of fraudulent charges placed on his accounts—valuable time Plaintiff otherwise would have spent on other activities, including but not limited to work and/or recreation. This time has been lost forever and cannot be recaptured.

135. Plaintiff suffered actual injury from having his PII compromised as a result of the Data Breach including, but not limited to: (i) lost or diminished value of his PII; (ii) lost opportunity costs associated with attempting to mitigate the actual consequences of the Data Breach, including but not limited to lost time; (iii) invasion of privacy; (iv) loss of benefit of the bargain; and (v) the continued and certainly increased risk to his PII, which: (a) remains unencrypted and available for unauthorized third parties to access and abuse; and (b) remains backed up in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII.

136. Plaintiff further actual injury in the form of experiencing an increase in spam calls, texts, and/or emails, which, upon information and belief, was caused by the Data Breach.

137. The Data Breach has caused Plaintiff to suffer fear, anxiety, and stress, which has been compounded by the fact that Defendant has still not fully informed him of key details about the Data Breach's occurrence.

138. As a result of the Data Breach, Plaintiff anticipates spending

considerable time and money on an ongoing basis to try to mitigate and address harms caused by the Data Breach.

139. As a result of the Data Breach, Plaintiff is at a present risk and will continue to be at increased risk of identity theft and fraud for years to come.

140. Plaintiff Andrew Strother has a continuing interest in ensuring that his PII, which, upon information and belief, remains backed up in Defendant's possession, is protected and safeguarded from future breaches.

V. CLASS ACTION ALLEGATIONS

141. Plaintiff brings this action individually and on behalf of all other persons similarly situated, pursuant to 12 O.S. § 2023(b)(2) and (b)(3).

142. Plaintiff proposes the following Class definition, subject to amendment as appropriate:

Nationwide Class

All individuals in the United States whose PII was impacted as a result of the Data Breach (the "Class").

143. Excluded from the Class are Defendant and its parents or subsidiaries, any entities in which it has a controlling interest, as well as its officers, directors, affiliates, legal representatives, heirs, predecessors, successors, and assigns. Also excluded is any Judge to whom this case is assigned as well as their judicial staff and immediate family members.

144. Plaintiff reserves the right to modify or amend the definition of the

proposed Nationwide Class, as well as add subclasses, before the Court determines whether certification is appropriate.

145. Numerosity. The Class Members are so numerous that joinder of all members is impracticable. Although the exact number of Class Members is currently unknown to Plaintiff and exclusively in the possession of Defendant, upon information and belief, thousands of persons were impacted in the Data Breach. The Class is apparently identifiable within Defendant's records, and Defendant has already identified these individuals (as evidenced by sending them Notice Letters).

146. Commonality. There are questions of law and fact common to the Class which predominate over any questions affecting only individual Class Members. These common questions of law and fact include, without limitation:

- a. Whether MidFirst engaged in the conduct alleged herein;
- b. Whether MidFirst's conduct violated the FTCA and/or GBLA;
- c. When MidFirst learned of the Data Breach;
- d. Whether MidFirst's response to the Data Breach was adequate;
- e. Whether MidFirst unlawfully lost or disclosed Plaintiff's and Class Members' PII;
- f. Whether MidFirst failed to implement and maintain reasonable security procedures and practices appropriate to the nature and scope of the PII compromised in the Data Breach;

- g. Whether MidFirst's data security systems prior to and during the Data Breach complied with applicable data security laws and regulations;
- h. Whether MidFirst's data security systems prior to and during the Data Breach were consistent with industry standards;
- i. Whether MidFirst owed a duty to Class Members to safeguard their PII;
- j. Whether MidFirst breached its duty to Class Members to safeguard their PII;
- k. Whether hackers obtained Class Members' PII via the Data Breach;
- l. Whether MidFirst had a legal duty to provide timely and accurate notice of the Data Breach to Plaintiff and the Class Members;
- m. Whether MidFirst breached its duty to provide timely and accurate notice of the Data Breach to Plaintiff and Class Members;
- n. Whether MidFirst knew or should have known that its data security systems and monitoring processes were deficient;
- o. What damages Plaintiff and Class Members suffered as a result of MidFirst's misconduct;
- p. Whether MidFirst's conduct was negligent;
- q. Whether MidFirst was unjustly enriched;
- r. Whether Plaintiff and Class Members are entitled to actual and/or

statutory damages;

- s. Whether Plaintiff and Class Members are entitled to additional credit or identity monitoring and monetary relief; and
- t. Whether Plaintiff and Class Members are entitled to equitable relief, including injunctive relief, restitution, disgorgement, and/or the establishment of a constructive trust.

147. Typicality. Plaintiff's claims are typical of those of other Class Members because Plaintiff's PII, like that of every other Class Member, was compromised in the Data Breach. Plaintiff's claims are typical of those of the other Class Members because, inter alia, all Class Members were injured through the common misconduct of MidFirst. Plaintiff is advancing the same claims and legal theories on behalf of himself and all other Class Members, and there are no defenses that are unique to Plaintiff. The claims of Plaintiff and those of Class Members arise from the same operative facts and are based on the same legal theories.

148. Adequacy of Representation. Plaintiff will fairly and adequately represent and protect the interests of Class Members. Plaintiff's counsel is competent and experienced in litigating class actions, including data privacy litigation of this kind.

149. Predominance. MidFirst has engaged in a common course of conduct toward Plaintiff and Class Members in that all of Plaintiff's and Class Members'

data was stored on the same computer systems and unlawfully accessed and exfiltrated in the same way. The common issues arising from MidFirst's conduct affecting Class Members set out above predominate over any individualized issues. Adjudication of these common issues in a single action has important and desirable advantages of judicial economy.

150. Superiority. A Class action is superior to other available methods for the fair and efficient adjudication of this controversy and no unusual difficulties are likely to be encountered in the management of this class action. Class treatment of common questions of law and fact is superior to multiple individual actions or piecemeal litigation. Absent a Class action, most Class Members would likely find that the cost of litigating their individual claims is prohibitively high and would therefore have no effective remedy. The prosecution of separate actions by individual Class Members would create a risk of inconsistent or varying adjudications with respect to individual Class Members, which would establish incompatible standards of conduct for MidFirst. In contrast, conducting this action as a class action presents far fewer management difficulties, conserves judicial resources and the parties' resources, and protects the rights of each Class Member.

151. Class certification is also appropriate under 12 O.S. § 2023(b)(2) because MidFirst has acted and/or refused to act on grounds generally applicable to the Class such that final injunctive relief and/or corresponding declaratory relief is

appropriate as to the Class as a whole.

152. Finally, all members of the proposed Class are readily ascertainable. MidFirst has access to the names and addresses and/or email addresses of Class Members affected by the Data Breach. Class Members have already been preliminarily identified and sent Notice of the Data Security Incident by MidFirst.

COUNT I
Negligence
(On Behalf of Plaintiff and the Class)

153. Plaintiff re-alleges and incorporates by reference all other allegations in paragraphs 1 through 152, as if fully set forth herein.

154. Defendant requires its customers, including Plaintiff and Class Members, to submit non-public PII in the ordinary course of providing its financial services.

155. Defendant gathered and stored the PII of Plaintiff and Class Members as part of its business of soliciting its services to its customers, which solicitations and services affect commerce.

156. Plaintiff and Class Members entrusted Defendant with their PII with the understanding that Defendant would safeguard their information.

157. Defendant had full knowledge of the sensitivity of the PII and the types of harm that Plaintiff and Class Members could and would suffer if the PII were wrongfully disclosed.

158. By assuming the responsibility to collect and store this data, and in fact doing so, and sharing it and using it for commercial gain, Defendant had a duty of care to use reasonable means to secure and to prevent disclosure of the information, and to safeguard the information from theft. Defendant's duty included a responsibility to exercise due diligence in selecting IT vendors and to audit, monitor, and ensure the integrity of its vendor's systems and practices and to give prompt notice to those affected in the case of a data breach.

159. Defendant had a duty to employ reasonable security measures under Section 5 of the Federal Trade Commission Act, 15 U.S.C. § 45, which prohibits "unfair . . . practices in or affecting commerce," including, as interpreted and enforced by the FTC, the unfair practice of failing to use reasonable measures to protect confidential data.

160. Defendant's duty to use reasonable security measures also arose under the GLBA, under which they were required to protect the security, confidentiality, and integrity of customer information by developing a comprehensive written information security program that contains reasonable administrative, technical, and physical safeguards.

161. Defendant owed a duty of care to Plaintiff and Class Members to provide data security consistent with industry standards and other requirements discussed herein, and to ensure that its systems and networks, and the personnel

responsible for them, adequately protected the PII.

162. Defendant's duty of care to use reasonable security measures arose as a result of the special relationship that existed between MidFirst and Plaintiff and Class Members. That special relationship arose because Plaintiff and the Class entrusted MidFirst with their confidential PII, a necessary part of being customers at Defendant.

163. Defendant's duty to use reasonable care in protecting confidential data arose not only as a result of the statutes and regulations described above, but also because Defendant is bound by industry standards to protect confidential PII.

164. Defendant was subject to an "independent duty," untethered to any contract between Defendant and Plaintiff or the Class.

165. Defendant also had a duty to exercise appropriate clearinghouse practices to remove former customers' PII it was no longer required to retain pursuant to regulations.

166. Moreover, Defendant had a duty to promptly and adequately notify Plaintiff and the Class of the Data Breach.

167. Defendant had and continues to have a duty to adequately disclose that the PII of Plaintiff and the Class within Defendant's possession might have been compromised, how it was compromised, and precisely the types of data that were compromised and when. Such notice was necessary to allow Plaintiff and the

Class to take steps to prevent, mitigate, and repair any identity theft and the fraudulent use of their PII by third parties.

168. Defendant breached its duties, pursuant to the FTC Act, GLBA, and other applicable standards, and thus was negligent, by failing to use reasonable measures to protect Class Members' PII. The specific negligent acts and omissions committed by Defendant include, but are not limited to, the following:

- a. Failing to adopt, implement, and maintain adequate security measures to safeguard Class Members' PII;
- b. Failing to adequately monitor the security of their networks and systems;
- c. Failing to audit, monitor, or ensure the integrity of its vendor's data security practices;
- d. Allowing unauthorized access to Class Members' PII;
- e. Failing to detect in a timely manner that Class Members' PII had been compromised;
- f. Failing to remove former customers' PII it was no longer required to retain pursuant to regulations,
- g. Failing to timely and adequately notify Class Members about the Data Breach's occurrence and scope, so that they could take appropriate steps to mitigate the potential for identity theft and other damages; and

h. Failing to secure its stand-alone personal computers, such as the reception desk computers, even after discovery of the data breach.

169. Defendant violated Section 5 of the FTC Act and GLBA by failing to use reasonable measures to protect PII and not complying with applicable industry standards, as described in detail herein. Defendant's conduct was particularly unreasonable given the nature and amount of PII it obtained and stored and the foreseeable consequences of the immense damages that would result to Plaintiff and the Class.

170. Plaintiff and Class Members were within the class of persons the Federal Trade Commission Act and GLBA were intended to protect and the type of harm that resulted from the Data Breach was the type of harm these statutes were intended to guard against.

171. Defendant's violation of Section 5 of the FTC Act and GLBA constitutes negligence.

172. The FTC has pursued enforcement actions against businesses, which, as a result of their failure to employ reasonable data security measures and avoid unfair and deceptive practices, caused the same harm as that suffered by Plaintiff and the Class.

173. A breach of security, unauthorized access, and resulting injury to Plaintiff and the Class was reasonably foreseeable, particularly in light of

Defendant's inadequate security practices.

174. It was foreseeable that Defendant's failure to use reasonable measures to protect Class Members' PII would result in injury to Class Members. Further, the breach of security was reasonably foreseeable given the known high frequency of cyberattacks and data breaches in the financial services industry.

175. Defendant has full knowledge of the sensitivity of the PII and the types of harm that Plaintiff and the Class could and would suffer if the PII were wrongfully disclosed.

176. Plaintiff and the Class were the foreseeable and probable victims of any inadequate security practices and procedures. Defendant knew or should have known of the inherent risks in collecting and storing the PII of Plaintiff and the Class, the critical importance of providing adequate security of that PII, and the necessity for encrypting PII stored on Defendant's systems.

177. It was therefore foreseeable that the failure to adequately safeguard Class Members' PII would result in one or more types of injuries to Class Members.

178. Plaintiff and the Class had no ability to protect their PII that was in, and possibly remains in, Defendant's possession.

179. Defendant was in a position to protect against the harm suffered by Plaintiff and the Class as a result of the Data Breach.

180. Defendant's duty extended to protecting Plaintiff and the Class from

the risk of foreseeable criminal conduct of third parties, which has been recognized in situations where the actor's own conduct or misconduct exposes another to the risk or defeats protections put in place to guard against the risk, or where the parties are in a special relationship. *See* Restatement (Second) of Torts § 302B. Numerous courts and legislatures have also recognized the existence of a specific duty to reasonably safeguard personal information.

181. Defendant has admitted that the PII of Plaintiff and the Class was wrongfully lost and disclosed to unauthorized third persons as a result of the Data Breach.

182. But for Defendant's wrongful and negligent breach of duties owed to Plaintiff and the Class, the PII of Plaintiff and the Class would not have been compromised.

183. There is a close causal connection between Defendant's failure to implement security measures to protect the PII of Plaintiff and the Class and the harm, or risk of imminent harm, suffered by Plaintiff and the Class. The PII of Plaintiff and the Class was lost and accessed as the proximate result of Defendant's failure to exercise reasonable care in safeguarding such PII by adopting, implementing, and maintaining appropriate security measures.

184. As a direct and proximate result of Defendant's negligence, Plaintiff and the Class have suffered and will suffer injury, including but not limited to: (i)

invasion of privacy; (ii) lost or diminished value of PII; (iii) lost time and opportunity costs associated with attempting to mitigate the actual consequences of the Data Breach; (iv) loss of benefit of the bargain; (v) experiencing an increase in spam calls, texts, and/or emails; and (vi) the continued and certainly increased risk to their PII, which: (a) remains unencrypted and available for unauthorized third parties to access and abuse; and (b) remains backed up in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII.

185. As a direct and proximate result of Defendant's negligence, Plaintiff and the Class have suffered and will continue to suffer other forms of injury and/or harm, including, but not limited to, anxiety, emotional distress, loss of privacy, and other economic and non-economic losses.

186. Additionally, as a direct and proximate result of Defendant's negligence, Plaintiff and the Class have suffered and will suffer the continued risks of exposure of their PII, which remain in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII in its continued possession.

187. Plaintiff and Class Members are entitled to compensatory and consequential damages suffered as a result of the Data Breach.

188. Defendant's negligent conduct is ongoing, in that it still holds the PII

of Plaintiff and Class Members in an unsafe and insecure manner.

189. Plaintiff and Class Members are also entitled to injunctive relief requiring Defendant to (i) strengthen its data security systems and monitoring procedures; (ii) submit to future annual audits of those systems and monitoring procedures; and (iii) continue to provide adequate credit monitoring to all Class Members.

COUNT II
Negligence *Per Se*
(On Behalf of Plaintiff and the Class)

190. Plaintiff re-alleges and incorporates by reference all other allegations in paragraphs 1 through 152, as if fully set forth herein.

191. Section 5 of the FTC Act, 15 U.S.C. § 45, prohibits “unfair . . . practices in or affecting commerce” including, as interpreted and enforced by the FTC, the unfair act or practice by Defendant of failing to use reasonable measures to protect PII. Various FTC publications and orders also form the basis of Defendant’s duty.

192. Defendant’s duty to use reasonable security measures also arose under the GLBA, under which they were required to protect the security, confidentiality, and integrity of customer information by developing a comprehensive written information security program that contains reasonable administrative, technical, and physical safeguards.

193. Defendant violated Section 5 of the FTC Act, GLBA, and similar state statutes by failing to use reasonable measures to protect PII and not complying with industry standards. Defendant's conduct was particularly unreasonable given the nature and amount of PII obtained and stored and the foreseeable consequences of a data breach on Defendant's systems.

194. Defendant's violation of Section 5 of the FTC Act, GLBA, and similar state statutes constitutes negligence *per se*.

195. Class members are consumers within the class of persons Section 5 of the FTC Act, GLBA, and similar state statutes were intended to protect.

196. Moreover, the harm that has occurred is the type of harm the FTC Act, GLBA, and similar state statutes were intended to guard against. Indeed, the FTC has pursued over fifty enforcement actions against businesses which, as a result of their failure to employ reasonable data security measures and avoid unfair and deceptive practices, caused the same harm suffered by Plaintiff and Class Members.

197. But for Defendant's wrongful and negligent breach of duties owed to Plaintiff and the Class, the PII of Plaintiff and the Class would not have been compromised.

198. There is a close causal connection between Defendant's failure to implement security measures to protect the PII of Plaintiff and the Class and the

harm, or risk of imminent harm, suffered by Plaintiff and the Class. The PII of Plaintiff and the Class was lost and accessed as the proximate result of Defendant's failure to exercise reasonable care in safeguarding such PII by adopting, implementing, and maintaining appropriate security measures.

199. As a direct and proximate result of Defendant's negligence *per se*, Plaintiff and the Class have suffered and will suffer injury, including but not limited to: (i) invasion of privacy; (ii) lost or diminished value of PII; (iii) lost time and opportunity costs associated with attempting to mitigate the actual consequences of the Data Breach; (iv) loss of benefit of the bargain; (v) experiencing an increase in spam calls, texts, and/or emails; and (vi) the continued and certainly increased risk to their PII, which: (a) remains unencrypted and available for unauthorized third parties to access and abuse; and (b) remains backed up in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII.

200. As a direct and proximate result of Defendant's negligence *per se*, Plaintiff and the Class have suffered and will continue to suffer other forms of injury and/or harm, including, but not limited to, anxiety, emotional distress, loss of privacy, and other economic and non-economic losses.

201. Additionally, as a direct and proximate result of Defendant's negligence *per se*, Plaintiff and the Class have suffered and will suffer the continued

risks of exposure of their PII, which remain in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII in its continued possession.

202. Plaintiff and Class Members are entitled to compensatory and consequential damages suffered as a result of the Data Breach.

203. Defendant's negligent conduct is ongoing, in that it still holds the PII of Plaintiff and Class Members in an unsafe and insecure manner.

204. Plaintiff and Class Members are also entitled to injunctive relief requiring Defendant to (i) strengthen its data security systems and monitoring procedures; (ii) submit to future annual audits of those systems and monitoring procedures; and (iii) continue to provide adequate credit monitoring to all Class Members.

COUNT III
Breach of Implied Contract
(On Behalf of Plaintiff and the Class)

205. Plaintiff re-alleges and incorporates by reference all other allegations in paragraphs 1 through 152, as if fully set forth herein.

206. Plaintiff and Class Members were required to provide their PII to Defendant as a condition of receiving financial services from Defendant.

207. Plaintiff and the Class entrusted their PII to Defendant. In so doing, Plaintiff and the Class entered into implied contracts with Defendant by which

Defendant agreed to safeguard and protect such information, to keep such information secure and confidential, and to timely and accurately notify Plaintiff and the Class if their data had been breached and compromised or stolen.

208. In entering into such implied contracts, Plaintiff and Class Members reasonably believed and expected that Defendant's data security practices complied with relevant laws and regulations and were consistent with industry standards.

209. Implicit in the agreement between Plaintiff and Class Members and the Defendant to provide PII, was the latter's obligation to: (a) use such PII for business purposes only, (b) take reasonable steps to safeguard that PII, (c) prevent unauthorized disclosures of the PII, (d) provide Plaintiff and Class Members with prompt and sufficient notice of any and all unauthorized access and/or theft of their PII, (e) reasonably safeguard and protect the PII of Plaintiff and Class Members from unauthorized disclosure or uses, (f) retain the PII only under conditions that kept such information secure and confidential.

210. The mutual understanding and intent of Plaintiff and Class Members on the one hand, and Defendant, on the other, is demonstrated by their conduct and course of dealing.

211. Defendant solicited, offered, and invited Plaintiff and Class Members to provide their PII as part of Defendant's regular business practices. Plaintiff and Class Members accepted Defendant's offers and provided their PII to Defendant.

212. In accepting the PII of Plaintiff and Class Members, Defendant understood and agreed that it was required to reasonably safeguard the PII from unauthorized access or disclosure.

213. On information and belief, at all relevant times Defendant promulgated, adopted, and implemented written privacy policies whereby it expressly promised Plaintiff and Class Members that it would only disclose PII under certain circumstances, none of which relate to the Data Breach.

214. On information and belief, Defendant further promised to comply with industry standards and to make sure that Plaintiff's and Class Members' PII would remain protected.

215. Plaintiff and Class Members paid money and provided their PII to Defendant with the reasonable belief and expectation that Defendant would use part of its earnings to obtain adequate data security. Defendant failed to do so.

216. Plaintiff and Class Members would not have entrusted their PII to Defendant in the absence of the implied contract between them and Defendant to keep their information reasonably secure.

217. Plaintiff and Class Members would not have entrusted their PII to Defendant in the absence of their implied promise to monitor their computer systems and networks to ensure that it adopted reasonable data security measures.

218. Plaintiff and Class Members fully and adequately performed their

obligations under the implied contracts with Defendant.

219. Defendant breached the implied contracts it made with Plaintiff and the Class by failing to safeguard and protect their personal information, by failing to delete the information of Plaintiff and the Class once the relationship ended, and by failing to provide accurate notice to them that personal information was compromised as a result of the Data Breach.

220. As a direct and proximate result of Defendant's breach of the implied contracts, Plaintiff and Class Members sustained damages, as alleged herein, including the loss of the benefit of the bargain.

221. Plaintiff and Class Members are entitled to compensatory, consequential, and nominal damages suffered as a result of the Data Breach.

222. Plaintiff and Class Members are also entitled to injunctive relief requiring Defendant to, *e.g.*, (i) strengthen its data security systems and monitoring procedures; (ii) submit to future annual audits of those systems and monitoring procedures; and (iii) immediately provide adequate credit monitoring to all Class Members.

COUNT IV
Violations of Oklahoma Consumer Protection Act,
15 Okla. Stat. §§751, *et seq.*
(On Behalf of Plaintiff and the Class)

223. Plaintiff re-alleges and incorporates by reference all other allegations in paragraphs 1 through 152, as if fully set forth herein.

224. Defendant is a “person,” as meant by 15 O.S. §752(1).

225. Defendant offers, sells, and distributes goods, services, and other things of value, which constitute “consumer transactions” as meant by 15 O.S. §752(2).

226. Defendant, in the course of its business, engaged in unlawful practices in violation of 15 O.S. §753, including the following:

- a. making false representations, knowingly or with reason to know, as to the characteristics, uses, and benefits of the subjects of its consumer transactions, in violation of 15 O.S. §753(5);
- b. representing, knowingly or with reason to know, that the subjects of its consumer transactions were of a particular standard when they were of another, in violation of 15 O.S. §753(7);
- c. advertising, knowingly or with reason to know, the subjects of its consumer transactions with intent not to sell as advertised, in violation of 15 O.S. §753 (8);
- d. committing unfair trade practices that offend established public policy and was immoral, unethical, oppressive, unscrupulous, and substantially injurious to consumers as defined by section 752(14), in violation of 15. O.S. §753(20); and
- e. committing deceptive trade practices that deceived or could reasonably

be expected to deceive or mislead a person to the detriment of that person as defined by section 752(13), in violation of 15 O.S. §753(20).

227. Defendant's unlawful practices include:

- a. failing to implement and maintain reasonable security and privacy measures to protect Plaintiff's and Class Members' PII, which was a direct and proximate cause of the data breach;
- b. failing to comply with common law and statutory duties pertaining to the security and privacy of Plaintiff's and Class Members' PII, including duties imposed by the FTC Act, 15 U.S.C. §45, the Fair Credit Reporting Act ("FCRA"), 15 U.S.C. §1681e, and the Gramm-Leach-Bliley Act ("GLBA"), 15 U.S.C. §6801, *et seq.*;
- d. misrepresenting that it would protect the privacy and confidentiality of Plaintiff's and Class Members' PII, including by implementing and maintaining reasonable security measures;
- e. misrepresenting that it would comply with common law and statutory duties pertaining to the security and privacy of Plaintiff's and Class Members' PII, including duties imposed by the FTC Act, 15 U.S.C. §45, the FCRA, 15 U.S.C. §1681e, and the GLBA, 15 U.S.C. §6801, *et seq.*;
- f. omitting, suppressing, and concealing the material fact that it did not

reasonably or adequately secure Plaintiff's and Class Members' PII; and

g. omitting, suppressing, and concealing the material fact that it did not comply with common law and statutory duties pertaining to the security and privacy of Plaintiff's and Class Members' PII, including duties imposed by the FTC Act, 15 U.S.C. §45, the FCRA, 15 U.S.C. §1681e, and the GLBA, 15 U.S.C. §6801, *et seq.*

228. Defendant's representations and omissions were material because they were likely to deceive reasonable consumers about the adequacy of Defendant's data security and ability to protect the confidentiality of consumers' PII.

229. Defendant intended to mislead Plaintiff and Class Members and induce them to rely on its misrepresentations and omissions.

230. Had Defendant disclosed to Plaintiff and Class Members that its data systems were not secure and, thus, vulnerable to attack, Defendant would have been unable to continue in business and it would have been forced to adopt reasonable data-security measures and comply with the law.

231. Instead, Defendant held itself out as having adequate data security measures to protect Plaintiff's and Class Members' PII. Plaintiff and the Class Members acted reasonably in relying on Defendant's misrepresentations and omissions, the truth of which they could not have discovered.

232. The above unlawful practices and acts by Defendant were immoral, unethical, oppressive, unscrupulous, and substantially injurious. These acts caused substantial injury to Plaintiff and Class Members.

233. Defendant acted intentionally, knowingly, and maliciously to violate Oklahoma's Consumer Protection Act, and recklessly disregarded Plaintiff's and the Class Members' rights.

234. As a direct and proximate result of Defendant's unlawful practices, Plaintiff and Class Members have suffered and will continue to suffer injury, ascertainable losses of money or property, and monetary and non-monetary damages, including time and expenses related to monitoring their financial accounts for fraudulent activity; an increased, imminent risk of fraud and identity theft; and loss of value of their PII.

235. Plaintiff and Class Members seek all monetary and non-monetary relief allowed by law, including actual damages, civil penalties, and attorneys' fees and costs.

COUNT V
Unjust Enrichment
(On Behalf of Plaintiff and the Class)

236. Plaintiff re-alleges and incorporates by reference all other allegations in paragraphs 1 through 152, as if fully set forth herein.

237. Plaintiff and Class Members conferred a monetary benefit on

Defendant. Specifically, they paid for financial services from Defendant and/or its agents and in so doing also provided Defendant with their PII. In exchange, Plaintiff and Class Members should have received from Defendant the financial services that were the subject of the transaction and should have had their PII protected with adequate data security.

238. Defendant knew that Plaintiff and Class Members conferred a benefit upon it and has accepted and retained that benefit by accepting and retaining the PII entrusted to it. Defendant profited from Plaintiff's retained data and used Plaintiff's and Class Members' PII for business purposes.

239. Defendant failed to secure Plaintiff's and Class Members' PII and, therefore, did not fully compensate Plaintiff or Class Members for the value that their PII provided.

240. Defendant acquired the PII through inequitable record retention as it failed to disclose the inadequate data security practices previously alleged.

241. If Plaintiff and Class Members had known that Defendant would not use adequate data security practices, procedures, and protocols to adequately monitor, supervise, and secure their PII, they would have entrusted their PII at Defendant or obtained financial services at Defendant.

242. Plaintiff and Class Members have no adequate remedy at law.

243. Under the circumstances, it would be unjust for Defendant to be

permitted to retain any of the benefits that Plaintiff and Class Members conferred upon it.

244. As a direct and proximate result of Defendant's conduct, Plaintiff and Class Members have suffered and will suffer injury, including but not limited to: (i) invasion of privacy; (ii) lost or diminished value of PII; (iii) lost time and opportunity costs associated with attempting to mitigate the actual consequences of the Data Breach; (iv) loss of benefit of the bargain; (v) experiencing an increase in spam calls, texts, and/or emails; and (vi) the continued and certainly increased risk to their PII, which: (a) remains unencrypted and available for unauthorized third parties to access and abuse; and (b) remains backed up in Defendant's possession and is subject to further unauthorized disclosures so long as Defendant fails to undertake appropriate and adequate measures to protect the PII.

245. Plaintiff and Class Members are entitled to full refunds, restitution, and/or damages from Defendant and/or an order proportionally disgorging all profits, benefits, and other compensation obtained by Defendant from its wrongful conduct. This can be accomplished by establishing a constructive trust from which the Plaintiff and Class Members may seek restitution or compensation.

246. Plaintiff and Class Members may not have an adequate remedy at law against Defendant, and accordingly, they plead this claim for unjust enrichment in addition to, or in the alternative to, other claims pleaded herein.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff, on behalf of himself and Class Members, requests judgment against Defendant and that the Court grant the following:

- A. For an Order certifying this action as a class action and appointing Plaintiff and his counsel to represent the Class;
- B. For equitable relief enjoining Defendant from engaging in the wrongful conduct complained of herein pertaining to the misuse and/or disclosure of Plaintiff's and Class Members' PII, and from refusing to issue prompt, complete and accurate disclosures to Plaintiff and Class Members;
- C. For injunctive relief requested by Plaintiff, including, but not limited to, injunctive and other equitable relief as is necessary to protect the interests of Plaintiff and Class Members, including but not limited to an order:
 - i. prohibiting Defendant from engaging in the wrongful and unlawful acts described herein;
 - ii. requiring Defendant to protect, including through encryption, all data collected through the course of their business in accordance with all applicable regulations, industry standards, and federal, state or local laws;

- iii. requiring Defendant to delete, destroy, and purge the personal identifying information of Plaintiff and Class Members unless Defendant can provide to the Court reasonable justification for the retention and use of such information when weighed against the privacy interests of Plaintiff and Class Members;
- iv. requiring Defendant to implement and maintain a comprehensive Information Security Program designed to protect the confidentiality and integrity of the PII of Plaintiff and Class Members;
- v. prohibiting Defendant from maintaining the PII of Plaintiff and Class Members on a cloud-based database;
- vi. requiring Defendant to engage independent third-party security auditors/penetration testers as well as internal security personnel to conduct testing, including simulated attacks, penetration tests, and audits on Defendant's systems on a periodic basis, and ordering Defendant to promptly correct any problems or issues detected by such third-party security auditors;

- vii. requiring Defendant to engage independent third-party security auditors and internal personnel to run automated security monitoring;
- viii. requiring Defendant to audit, test, and train their security personnel regarding any new or modified procedures;
requiring Defendant to segment data by, among other things, creating firewalls and access controls so that if one area of Defendant's network is compromised, hackers cannot gain access to other portions of Defendant's systems;
- ix. requiring Defendant to conduct regular database scanning and securing checks;
- x. requiring Defendant to establish an information security training program that includes at least annual information security training for all employees, with additional training to be provided as appropriate based upon the employees' respective responsibilities with handling personal identifying information, as well as protecting the personal identifying information of Plaintiff and Class Members;
- xi. requiring Defendant to routinely and continually conduct internal training and education, and on an annual basis to

inform internal security personnel how to identify and contain a breach when it occurs and what to do in response to a breach;

- xii. requiring Defendant to implement a system of tests to assess its respective employees' knowledge of the education programs discussed in the preceding subparagraphs, as well as randomly and periodically testing employees compliance with Defendant's policies, programs, and systems for protecting personal identifying information;
- xiii. requiring Defendant to implement, maintain, regularly review, and revise as necessary a threat management program designed to appropriately monitor Defendant's information networks for threats, both internal and external, and assess whether monitoring tools are appropriately configured, tested, and updated;
- xiv. requiring Defendant to meaningfully educate all Class Members about the threats that they face as a result of the loss of their confidential personal identifying information to third parties, as well as the steps affected individuals must take to protect himself;

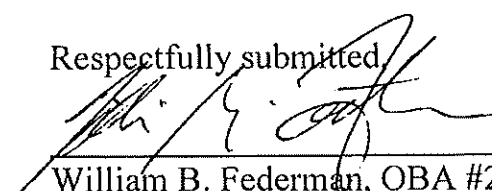

- xv. requiring Defendant to implement logging and monitoring programs sufficient to track traffic to and from Defendant's servers; and
 - xvi. for a period of 10 years, appointing a qualified and independent third party assessor to conduct a SOC 2 Type 2 attestation on an annual basis to evaluate Defendant's compliance with the terms of the Court's final judgment, to provide such report to the Court and to counsel for the class, and to report any deficiencies with compliance of the Court's final judgment;
- D. For an award of actual damages, compensatory damages, statutory damages, and nominal damages, in an amount to be determined, as allowable by law;
 - E. For an award of punitive damages, as allowable by law;
 - F. For an award of attorneys' fees and costs, and any other expenses, including expert witness fees;
 - G. Pre- and post-judgment interest on any amounts awarded; and
 - H. Such other and further relief as this court may deem just and proper.

DEMAND FOR JURY TRIAL

Plaintiff demands a trial by jury on all triable issues.

DATED: October 5, 2023
