Attorneys for Plaintiff Mosanthony Wilson
and the Putative Class

**UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF CALIFORNIA**

MOSANTHONY WILSON, individually,
and on behalf of all others similarly
situated,

Plaintiff,

v.

WELLS FARGO & CO., WELLS
FARGO BANK, N.A., and DOES 1
through 5, inclusive,

Defendants.

Case No. **'20CV2307 DMS WVG**

COMPLAINT FOR:

1. Violation of the Electronic Fund Transfer Act (Regulation E, 12 C.F.R. §§ 1005, *et seq.*)
2. Violation of the California Unfair Competition Law (Bus. & Prof. Code § 17200, *et seq.*)

CLASS ACTION

DEMAND FOR JURY TRIAL

1 **CLASS ACTION COMPLAINT**

2 **I INTRODUCTION**

3 1. Mosanthony Wilson (“Plaintiff”) brings this lawsuit against Wells Fargo &
 4 Company and Wells Fargo Bank, N.A. (collectively, “Wells Fargo” or “Defendant”) on
 5 behalf of the California public and Wells Fargo’s California customers, on the basis that
 6 Wells Fargo has violated and continues to violate Federal Reserve Regulation E, 12
 7 C.F.R. § 1005.1, *et seq.* (“Reg E” or “Regulation E”). Regulation E requires that before
 8 financial institutions are permitted to charge overdraft fees on one-time debit card and
 9 ATM transactions, they must provide a complete, accurate, clear, and easily
 10 understandable disclosure document of their overdraft services (opt-in disclosure
 11 agreement); they must provide that disclosure as a stand-alone document not intertwined
 12 with other disclosures; and they must obtain verifiable agreement (affirmative consent) of
 13 a customer’s agreement to opt-in to the financial institution’s overdraft program.

14 2. Specifically, in order to purportedly comply with the Regulation E
 15 requirements, Wells Fargo provides its customers with the Regulation E opt-in disclosure
 16 agreement that describes the bank’s overdraft service as “*What You Need to Know About*
 17 *Overdrafts and Overdraft Fees*” (emphasis in original).¹ Wells Fargo’s Regulation E opt-
 18 in disclosure agreement, however, provides customers with ambiguous and misleading
 19 language to describe the circumstances when Wells Fargo will charge the customer an
 20 overdraft fee. Specifically, the opt-in disclosure agreement does not disclose that Wells
 21 Fargo uses an internal artificial account balance to determine if a debit card or ATM
 22 transaction will be considered overdrawn (*i.e.*, “available balance”), instead of the official
 23 and actual balance of the account. Not only does it not disclose the use of the available
 24 balance to assess overdraft fees, it describes an overdraft using language that conveys

25
 26
 27
 28 ¹ See Wells Fargo Bank’s opt-in disclosure agreement titled “*What You Need to Know About Overdrafts and Overdraft Fees*,” attached hereto as Exhibit A (emphasis in original).

1 Wells Fargo's use of the actual balance instead of the artificial available balance to assess
2 overdraft fees.

3 3. Because Regulation E does not permit banks to charge overdraft fees
4 without affirmative consent based on a proper and accurate disclosure of its overdraft
5 practices in its stand-alone opt-in disclosure agreement, Wells Fargo's assessment of all
6 overdraft fees against customers for one-time debit card and ATM transactions has been
7 and continues to be illegal. Further, Wells Fargo's continued use of an improper and
8 non-conforming disclosure agreement to "opt-in" new customers to its overdraft service
9 is illegal under Regulation E.

10 4. Indeed, this practice continues Wells Fargo's long and documented history
11 of troubling disclosure of its overdraft practices, making it all the more necessary for this
12 Court to intervene for the purpose of protecting customers and the public. Included in
13 that history were findings by a trial court that Wells Fargo had engaged in gouging and
14 profiteering in its overdraft practices, and then misled customers about it. The Ninth
15 Circuit Court of Appeal, in affirming a \$203 million judgment against Wells Fargo, let
16 stand the finding that Wells Fargo had misrepresented its overdraft practices (the practice
17 at issue in that case was the order of processing the transactions to increase overdraft fees
18 instead of the current use of an artificial balance to increase overdraft fees), and let stand
19 an injunction prohibiting Wells Fargo from further misrepresenting how it processed
20 transactions related to its overdraft services. In the face of Regulation E's unmistakable
21 mandate and remaining the subject of a permanent injunction mandating it to not
22 mispresent how it processes transactions relating to overdraft fees, Wells Fargo still
23 chooses to "comply" with Regulation E by obtaining affirmative consent using a
24 disclosure agreement with misleading and ambiguous language to describe what
25 constitutes an overdraft. Thus, Wells Fargo has failed to accurately describe its overdraft
26 services in compliance with its Regulation E opt-in disclosure agreement.

27 5. Regulation E itself provides a cause of action for failing to abide by its
28 disclosure requirements. Wells Fargo's violations are also actionable under California's

1 Unfair Competition Law, California Business & Professions Code § 17200. Plaintiff thus
2 seeks the return of improperly charged overdraft fees within the statute of limitations
3 period and a public injunction enjoining Defendant from harming the general public by
4 continuing to obtain new customers' "consent" to assess overdraft fees by using an opt-in
5 disclosure agreement that violates Regulation E. Plaintiff also seeks to enjoin Wells
6 Fargo from assessing any further overdraft fees on Regulation E transactions until it
7 obtains the consent of current customers using a Regulation E-conforming opt-in
8 disclosure agreement.

9 II NATURE OF THE ACTION

10 6. All allegations herein are based upon information and belief except those
11 allegations pertaining to Plaintiff or counsel. Allegations pertaining to Plaintiff or
12 counsel are based upon, *inter alia*, Plaintiff's or counsel's personal knowledge, as well as
13 Plaintiff's or counsel's own investigation. Furthermore, each allegation alleged herein
14 either has evidentiary support or is likely to have evidentiary support, after a reasonable
15 opportunity for additional investigation or discovery.

16 7. Plaintiff has brought this class and representative action to assert claims in
17 his own right, as the class representative of all other persons similarly situated, and in his
18 capacity as a private attorney general on behalf of the members of the general public.
19 Regulation E requires Wells Fargo to obtain informed consent, by way of a written stand-
20 alone document that fully and accurately describes in an easily understandable way its
21 overdraft services, before charging accountholders an overdraft fee on one-time debit
22 card and ATM transactions. Because of the substantial harm to customers of significant
23 overdraft fees on relatively small debit card and ATM transactions, Regulation E requires
24 financial institutions to put all pertinent overdraft information in one clear and easily
25 understood document. Financial institutions are not permitted to circumvent this
26 requirement by referencing, or relying on, their account agreements, disclosures, or
27 marketing materials. Regulation E expressly requires a financial institution to include all
28

1 the relevant terms of its overdraft program within the four corners of the document,
2 creating a separate agreement with accountholders regarding overdraft policies.

3 8. Wells Fargo has failed to meet this requirement. It uses an opt-in disclosure
4 agreement that misleadingly and/or ambiguously describes the circumstances in which
5 Wells Fargo charges an overdraft fee on a paid transaction. Specifically, Wells Fargo
6 defines an overdraft in its opt-in disclosure agreement as occurring when there is *not*
7 *enough money* in the account to pay the transaction, *but Wells Fargo pays it anyway*. But
8 Wells Fargo's automated decision to assess overdraft fees is not based on whether there is
9 enough money in the actual account balance to pay the transaction. Instead, Wells Fargo
10 calculates account balances for overdraft purposes using an artificially reduced
11 calculation created by Wells Fargo's own internal bookkeeping called the "available
12 balance," which deducts any money it unilaterally decides should be held for future
13 transactions. When these future holds are accounted for, the calculation often results in a
14 negative "available balance" existing only on paper, even though there is actually money
15 in the account to cover a transaction without a negative account balance at the time of
16 payment and posting. While that practice is unfair on its face, the disclosure of the
17 practice is at issue, not the practice itself.

18 9. Accordingly, Wells Fargo's opt-in disclosure agreement not only fails to
19 accurately disclose to customers which balance is used to assess an overdraft fee (which
20 failing to disclose in a clear and understandable way is all that is required for a Reg E
21 violation), it suggests that its overdraft policies apply an accountholder's actual balance
22 when determining whether to charge an overdraft fee, when it actually uses a different,
23 artificially lower balance.

24 10. While no further support for the claim is necessary beyond reading the
25 words in the disclosure, Wells Fargo's own use of those words is instructive. Based on
26 information and belief, in or around 2014, Wells Fargo changed its practice to start using
27 the available balance to assess overdraft fees from the balance it had been using to assess
28 overdraft fees, which was not artificially reduced from holds on pending but not paid

1 transactions. Wells Fargo knew that this change was material to customers’
2 understanding its overdraft service, as transactions that would not be considered overdraft
3 transactions under the previously utilized balance, would now be considered overdraft
4 transactions when Wells Fargo started using the available balance. However, despite this
5 substantial change (which significantly increased the overdraft fees Wells Fargo
6 assessed), Wells Fargo used identical language in the opt-in disclosure agreement to
7 describe an overdraft (not enough money in the account to cover the transaction) before
8 and after it changed the type of balance it used to determine whether to assess an
9 overdraft fee.

10 11. Wells Fargo’s use of the artificially reduced account balance instead of the
11 actual account balance to determine whether to assess overdraft fees is material. Based
12 on analysis with other financial institutions, it is likely Wells Fargo assessed overdraft
13 fees on 10-20% more Regulation E overdraft transactions than would otherwise be the
14 case if it used the actual balance to determine if an account was overdrawn.

15 12. Plaintiff has been harmed by Defendant’s Regulation E violation. He was
16 opted-in to the disclosure agreement using the ambiguous, inaccurate and misleading
17 description of Wells Fargo’s overdraft practices, and has been assessed overdraft fees on
18 Reg E transactions (including at least one transaction that would not have received an
19 overdraft fee using the actual balance, but was assessed an overdraft fee using the
20 available balance) that were not permitted because Wells Fargo had earlier obtained
21 Plaintiff’s “consent” using a noncompliant Reg E opt-in disclosure agreement. This
22 action seeks statutory damages under Regulation E, restitution, and injunctive relief due
23 to, *inter alia*, Defendant’s policy and practice of obtaining “affirmative consent” using a
24 noncompliant opt-in disclosure agreement, unlawfully assessing and unilaterally
25 collecting overdraft fees as set forth herein.

26 III PARTIES

27 13. Plaintiff Mosanthony Wilson is a resident of San Diego County, and a Wells
28 Fargo accountholder at all relevant times.

1 14. Based on information and belief, Defendant Wells Fargo is a bank with its
2 headquarters located in San Francisco, California, and its principal place of business in
3 Sioux Falls, South Dakota. Wells Fargo also has hundreds of branches throughout the
4 state of California.

5 15. Without limitation, defendants DOES 1 through 5, include agents, partners,
6 joint ventures, subsidiaries, and/or affiliates of Defendant and, upon information and
7 belief, also own and/or operate Defendant's branch locations. As used herein, where
8 appropriate, the term "Defendant" is also inclusive of Defendants DOES 1 through 5.

9 16. Plaintiff is unaware of the true names of Defendants DOES 1 through 5.
10 Defendants DOES 1 through 5 are thus sued by fictitious names, and the pleadings will
11 be amended as necessary to obtain relief against Defendants DOES 1 through 5 when the
12 true names are ascertained, or as permitted by law or the Court.

13 17. There exists, and at all times herein mentioned existed, a unity of interest
14 and ownership between the named defendants (including DOES) such that any corporate
15 individuality and separateness between the named defendants has ceased, and that the
16 named defendants are *alter egos* in that they effectively operate as a single enterprise, or
17 are mere instrumentalities of one another.

18 18. At all material times herein, each defendant was the agent, servant, co-
19 conspirator, and/or employer of each of the remaining defendants; acted within the
20 purpose, scope, and course of said agency, service, conspiracy, and/or employment and
21 with the express and/or implied knowledge, permission, and consent of the remaining
22 defendants; and ratified and approved the acts of the other defendants. However, each of
23 these allegations are deemed alternative theories whenever not doing so would result in a
24 contradiction with the other allegations.

25 19. Whenever reference is made in this Complaint to any act, deed, or conduct
26 of Defendant, the allegation means that Defendant engaged in the act, deed, or conduct
27 by or through one or more of its officers, directors, agents, employees, or representatives
28

1 who was actively engaged in the management, direction, control, or transaction of
2 Defendant's ordinary business and affairs.

3 20. As to the conduct alleged herein, each act was authorized, ratified, or
4 directed by Defendant's officers, directors, or managing agents.

5 **IV JURISDICTION AND VENUE**

6 21. This Court has subject matter jurisdiction over this case under 28 U.S.C. §
7 1331, 15 U.S.C. § 1693m, and 28 U.S.C. § 1367(a).

8 22. Venue is proper in this District because Wells Fargo transacts business,
9 Plaintiff and similarly situated persons entered contracts with Wells Fargo, and Wells
10 Fargo executed the unlawful policies and practices which are the subject of this action, in
11 this District.

12 **V BACKGROUND**

13 **A. Defendant Wells Fargo**

14 23. Defendant is a nationally chartered bank headquartered in San Francisco,
15 California with over 7,000 branches and 13,000 automatic teller machines (ATMs)
16 nationwide. As of September 2020, Wells Fargo reports that it has over 70,000,000
17 customers and 266,000 employees. Wells Fargo reports that it holds approximately \$1.92
18 trillion in assets on behalf of its customers. In 2019 alone, Wells Fargo collected just
19 under \$1.7 billion in consumer overdraft-related service charges on accounts intended
20 primarily for individuals with personal, household or family use.

21 24. One of the main services Defendant offers is checking accounts. A checking
22 account balance can increase or be credited in a variety of ways, including automatic
23 payroll deposits; electronic deposits; incoming transfers; deposits at a branch; and
24 deposits at ATM machines. Debits decreasing the amount in a checking account can be
25 made by using a debit card for purchases of goods and services (point of sale purchases)
26 that can be one-time purchases or recurring automatic purchases; through withdrawal of
27 money at an ATM; or by electronic purchases. Additionally, some of the other ways to
28 debit the account include writing checks; issuing electronic checks; scheduling

Automated Clearing House (ACH) transactions (which can include recurring automatic payments or one-time payments); transferring funds; and other types of transactions that debit from a checking account.

25. In connection with its processing of debit transactions (debit card, ATM, check, ACH, and other similar transactions), Defendant assesses overdraft fees (a fee for paying an overdrawn item) and non-sufficient funds (“NSF”) fees (a fee for a declined, unpaid returned item) to accounts when it claims to have determined that an account has been overdrawn.

26. The underlying principle for charging overdraft fees is that when a financial institution pays a transaction by advancing its own funds to cover the accountholder’s insufficient funds, it may charge a *contracted and/or disclosed* fee, provided that charging the fee is not prohibited by some legal regulation. The fee Defendant charges here constitutes very expensive credit that harms the poorest customers and creates substantial profit. According to a 2014 Consumer Financial Protection Bureau (“CFPB”) study:²

- Overdraft and NSF fees constitute the majority of the total checking account fees that customers incur.
- The transactions leading to overdrafts are often quite small. In the case of debit card transactions, the median amount of the transaction that leads to an overdraft fee is \$24.
- The average overdraft fee for bigger banks is \$34 and \$31 for smaller banks and credit unions.

Accordingly, as highlighted in the CFPB Press Release related to this study:

Put in lending terms, if a consumer borrowed \$24 for three days and paid the median overdraft of \$34, **such a loan would carry a 17,000 percent annual percentage rate (APR).**

² https://files.consumerfinance.gov/f/201407_cfpb_report_data-point_overdrafts.pdf (last visited Nov. 10, 2020).

(Emphasis added)³

27. Overdraft and NSF fees constitute a primary revenue generator for banks and credit unions. According to one banking industry market research company, Moebs Services, banks and credit unions in 2018 alone generated an estimated \$34.5 billion on overdraft fees.⁴

28. Defendant's financial filings and practices reveal that it has followed these trends to the letter. Defendant charges an overdraft/NSF fee of \$35.00 per item, with a purported limit of three overdraft charges per day. Even if Defendant had been properly charging overdraft fees, the \$35.00 overdraft fee bears no relation to the financial institution's minute risk of loss or cost for administering overdraft services. But the fee's practical effect is to charge those who pay it an interest rate with an APR in the thousands.

29. Accordingly, the overdraft fee is a punitive fee rather than a service fee, which makes it even more unfair because most account overdrafts are accidental and involve a small amount of money in relation to the fee. A 2012 study found that more than 90% of customers who were assessed overdraft fees overdrew their accounts by mistake.⁵ In a 2014 study, more than 60% of the transactions that resulted in a large overdraft fee were for less than \$50.⁶ More than 50% of those assessed overdraft fees do not recall opting into an overdraft program, (*id.* at p. 5), and more than two-thirds of

³ CFPB, CFPB Finds Small Debit Purchases Lead to Expensive Overdraft Charges (7/31/2014) <https://www.consumerfinance.gov/about-us/newsroom/cfpb-finds-small-debit-purchases-lead-to-expensive-overdraft-charges/> (last visited Nov. 10, 2020).

⁴ Moebs Services, *Overdraft Revenue Inches Up in 2018* (March 27, 2019), <http://www.moebs.com/Portals/0/pdf/Articles/Overdraft%20Revenue%20Inches%20Up%20in%202018%200032719-1.pdf?ver=2019-03-27-115625-283> (last visited Nov. 10, 2020).

⁵ Pew Charitable Trust Report, *Overdraft America: Confusion and Concerns about Bank Practices*, at p. 4 (May 2012), https://www.pewtrusts.org/-/media/legacy/uploadedfiles/pes_assets/2012/sciboverdraft20america1pdf.pdf (last visited Nov. 10, 2020).

⁶ Pew Charitable Trust Report, *Overdrawn*, at p. 8 (June 2014), https://www.pewtrusts.org/-/media/assets/2014/06/26/safe_checking_overdraft_survey_report.pdf (last visited Nov. 10, 2020).

1 customers would have preferred the financial institution decline their transaction rather
2 than being charged a very large fee, (*id.* at p. 10).

3 30. Finally, the financial impact of these fees falls on the most vulnerable among
4 the banking population with the least ability to absorb the overdraft fees. Younger,
5 lower-income, and non-white accountholders are among those most likely to be assessed
6 overdraft fees. *Id.* at p. 3. A 25-year-old is 133% more likely to pay an overdraft penalty
7 fee than a 65-year-old. *Id.* More than 50% of the customers assessed overdraft fees
8 earned under \$40,000 per year. *Id.* at p. 4. And non-whites are 83% more likely to pay
9 an overdraft fee than whites. *Id.* at p. 3.

10 **B. Plaintiff**

11 31. Plaintiff Mosanthony Wilson is a resident of the state of California and a
12 customer of Defendant. Plaintiff has held an account with Wells Fargo at all times
13 relevant to the allegations, and opted into Wells Fargo's overdraft program for his debit
14 card and ATM transactions. As will be established using Wells Fargo's own records,
15 Plaintiff has been assessed numerous improper fees on debit card and ATM transactions.
16 By way of example, on August 17, 2020, Plaintiff was assessed a \$35 overdraft fee on a
17 \$20.11 non-recurring debit card transaction even though Plaintiff had a positive account
18 balance and had money in the account to pay the transaction. Based on information and
19 belief, Defendant was not required to advance any of its own funds to cover the
20 transaction, and Plaintiff was only assessed an overdraft fee because of Wells Fargo's use
21 of the available balance instead of the actual balance to determine if the account was
22 overdrawn. Defendant continued to assess overdraft fees on numerous of Plaintiff's other
23 debit card transactions the following day. The extent of improper charges assessed on
24 Plaintiff and other California customers will be determined in the course of discovery
25 using Defendant's records.

26 **C. Regulation E**

27 32. For many years, banks and credit unions have offered overdraft services to
28 their accountholders. Historically, the fees generated by these services were relatively

low, particularly when methods of payment were limited to cash, check, and credit card. But the rise of debit card transactions replacing cash for smaller transactions—especially for younger customers who carried lower balances—provided an opportunity for financial institutions to increase the number of transactions in a checking account that could potentially be considered overdraft transactions, and for which the financial institution could assess a hefty overdraft fee. The increase in these types of transactions was timed perfectly for financial institutions, which faced falling revenue as a result of lower overall interest rates and the rise of competitive innovations such as no-fee checking accounts. Financial institutions thus recognized in overdraft fees a new and increasing revenue stream.

33. As a result, the overdraft process became one of the primary sources of revenue for financial depository institutions—banks and credit unions—both large and small. As such, financial institutions became eager to provide overdraft services to consumers because not only do overdrafts generate revenue, they do so with little risk. When an overdraft is covered, it is on average repaid in three days, meaning that the financial institution advances small sums of money for no more than a day or two.

34. Using common understanding bolstered by disclosures by Wells Fargo, an overdraft occurs when two conditions are satisfied. First, the accountholder initiates a transaction that will result in the money in the account falling below zero if the financial institution makes payment on the transaction. Second, the financial institution pays the transaction by advancing its own funds to cover the shortfall. An overdraft, therefore, is an extension of credit. The financial institution advancing the funds, allows the accountholder to continue paying transactions even when the account has no money in it, or the account has insufficient funds to cover the amount of the withdrawal.⁷ The financial institution uses its own money to pay the transaction, on the assumption that the accountholder will eventually cover the shortfall.

⁷ For a thorough description of the mechanics of an “overdraft,” see <https://www.investopedia.com/terms/o/overdraft.osp> (last visited Nov. 10, 2020).

1 35. Before the Federal Reserve adopted Regulation E, many financial
2 institutions unilaterally adopted internal “overdraft payment” plans. Consumers would
3 initiate transactions that financial institutions would identify as “overdrafts,” then the
4 financial institution would go ahead and cover the overdraft while charging the standard
5 overdraft fee. Under such programs, consumers were charged a substantial fee—on
6 average higher than the debit card transaction triggering the overdraft itself—without
7 ever having made any choice as to whether they wanted such transactions approved or
8 instead declined and providing the opportunity to select another form of payment rather
9 than turning the \$4 cup of coffee at Starbucks into a \$40 cup of coffee.

10 36. The Federal Reserve, which has regulatory oversight over financial
11 institutions, recognized that banks and credit unions had strong incentives to adopt these
12 punitive overdraft programs. Banks and credit unions could rely on charging high fees
13 for very little service and almost no risk on thousands of transactions per day, giving
14 consumers no choice in the matter if they wanted to have a bank account at all. It is for
15 these reasons that in 2009, the Federal Reserve Board amended Regulation E to require
16 financial institutions to obtain affirmative consent (or so-called “opt in”) from
17 accountholders for overdraft coverage on ATM and non-recurring “point of sale” debit
18 card transactions. After Regulation E’s adoption, a financial institution could only
19 lawfully charge an overdraft fee on one-time debit card purchases and ATM withdrawals
20 if the consumer opted into the financial institution’s overdraft program. Otherwise, the
21 bank or credit union could either cover the overdraft without charging a fee or, simply
22 direct the transaction to be denied at the point of sale. Further, without the opt-in, there
23 could be no NSF fee incurred because the denial of the transaction meant no transaction
24 had taken place, and thus no transaction to return unpaid.

25 37. With the creation of the CFPB, it subsequently undertook the study
26 referenced above regarding financial institutions’ overdraft programs and whether they
27 were satisfying consumer needs. Unsurprisingly, the CFPB found that overdraft
28 programs had a series of problems. The most pressing problem was that overdraft

1 services were costly and damaging to accountholders. The percentage of accounts
 2 experiencing at least one overdraft (or NSF) transaction in 2011 was 27%, and the
 3 average amount of overdraft and NSF-related fees paid by accounts that paid fees was
 4 \$225. The CFPB further estimated that the banking industry may have collected
 5 anywhere from \$12.6 to \$32 billion in consumer NSF and overdraft fees in 2011,
 6 depending on what assumptions the analyst used in calculating the percentage of reported
 7 fee income should be attributed to overdrafts. The CFPB also noted that there were
 8 numerous “variations in overdraft-related practices and policies,” all of which could
 9 “affect when a transaction might overdraw a consumer’s account and whether or not the
 10 consumer would be charged a fee.”⁸

11 38. Given the state of overdraft programs prior to Regulation E, it is easy to
 12 understand why the Federal Reserve was concerned about protecting consumers from
 13 financial institutions unilaterally imposing high fees. Banks and credit unions in this
 14 scenario had significant advantages over consumers when it came to imposing overdraft
 15 policies. By defaulting to charging fees for point-of-sale transactions, banks and credit
 16 unions created for themselves a virtual no-lose scenario—advance small amounts of
 17 funds (average \$24) for a small period of time (average 3 days), then charge a large fee
 18 (average \$34) that is unrelated to the amount of money advanced on behalf of the
 19 customer, resulting in a APR of thousands of percent interest (using averages - 17,000%
 20 APR), all while assuming very little risk because only a very small percentage of the
 21 overdraft customers failed to repay the overdraft.

22 39. Because of this, Regulation E does not merely require a financial institution
 23 to obtain an opt-in disclosure agreement before charging fees for transactions that result
 24 in overdrafts. It also provides that the opt-in disclosure agreement must satisfy certain
 25 requirements to be valid. The agreement must be a stand-alone document, not combined
 26

27 ⁸ The Federal Reserve has previously noted that “improvements in the disclosures
 28 provided to consumers could aid them in understanding the costs associated with
 overdrawing their accounts and promote better account management.” 69 Fed. Reg. 31761
 (June 7, 2004).

1 with other forms, disclosures, or contracts provided by the financial institution. It must
2 also accurately disclose to the accountholder the institution's overdraft charge policies.
3 The accountholder's choices must be presented in a "clear and readily understandable
4 manner." 12 C.F.R. § 1005.4(a)(1). The financial institution must ultimately establish
5 that the accountholder has opted-in to overdraft coverage either through a written
6 agreement, or through a confirmation letter to the customer confirming opt-in if the opt-in
7 has taken place by telephone or computer after being provided a compliant opt-in
8 disclosure agreement.

9 40. In the wake of Regulation E, some financial institutions simply decided to
10 forego charging overdraft fees on non-recurring debit card and ATM transactions. These
11 include large banks such as Bank of America, and smaller banks such as One West Bank,
12 First Republic Bank, and Mechanics Bank. However, most financial institutions
13 continued to maintain overdraft services on one-time debit card and ATM withdrawals.
14 As such, these banks and credit unions must satisfy Regulation E's requirements in order
15 to obtain compliant affirmative consent from their accountholders before charging
16 overdraft fees on eligible transactions.

17 41. But charging these exorbitant penalty fees for the bank or credit union's
18 small advance of funds to cover overdrafts was not where it stopped. Many financial
19 institutions began manipulating the process as to when they would consider a transaction
20 an overdraft to further increase the profit generated by their overdraft programs. They
21 charged overdraft fees no longer just when the financial institution actually advanced
22 money on behalf of the customer, but assessed overdraft fees on transactions when they
23 paid the transaction with the customers' money. That is, the financial institution
24 unilaterally decided the account was overdrawn not by the actual lack of funds in the
25 account, but by whether the money in the account minus holds the financial institution
26 unilaterally decided was for future events was enough to cover an ATM or one-time debit
27 transaction when these transactions came in for payment at some future date.
28

42. Most banks and credit unions calculate two account balances related to their accounting of a customer checking account. “Actual balance,” “ledger balance,” or “current balance” are all terms used to describe the actual amount of the accountholder’s money in the account at any particular time. In contrast, “available balance” is a term the financial industry recognizes as a balance reduced from the actual account balance by the amount the bank or credit union has either held from deposits or held from the account because of authorized debit transactions that have not yet come in (and may never come in) for payment.⁹

43. Although financial institutions calculate two balances, the actual/ledger/current balance of the money in the account is the official balance of the account. It is used when financial institutions report deposits to regulators, when they pay interest on an account, and when they report the amount of money in the account in monthly statements to the customer—the official record of the account.

44. While there is no regulation barring any financial institution from deciding whether it will assess overdraft or NSF fees based on the actual balance or the “available balance” for overdraft assessment purposes, per Regulation E, the terms of the overdraft program must be clearly and accurately disclosed. Whether the financial institution uses the actual money in the account or an internal artificial available balance to assess overdraft fees, is information the customer needs to understand the overdraft program.

45. Many financial institutions use the “available balance” for overdraft assessment purposes as it is consistent with these institutions’ self-interest because the available balance is always the same or lower, by definition, than the actual balance. The actual balance includes all money in the account. The available balance, on the other hand, always subtracts any holds placed on the funds in the account that may affect the money in the account in the future. It never adds funds to the account. To be clear, even

⁹ Some financial institutions, including Wells Fargo, have or do use a third balance called the collected balance, which is also an internal calculated balance that is the actual account balance minus only deposit holds, and does not include debit holds.

1 when a financial institution has put a hold on funds in an account, the funds remain in the
2 account. The financial institution's "hold" is merely an internal characterization the bank
3 or credit union uses to categorize some of the money. All of the accountholder's money
4 remains in the account, even the money Defendant has defined as "held." The fact that
5 the money has a "hold" on it does not mean it has been removed from the account.

6 46. The difference between which of the two balances a financial institution may
7 use to calculate overdraft transactions is material to both the financial institution and
8 accountholders. Prior investigation in similar lawsuits demonstrates that financial
9 institutions using the available balance, instead of actual balance, increase the number of
10 transactions that are assessed overdraft fees approximately 10-20%. What happens in
11 those 10-20% of transactions is that sufficient funds are in the account to pay the
12 transaction and therefore the bank or credit union has not advanced any funds to the
13 customer. At all times, the financial institution uses the customer's own money to pay
14 the transaction, which really means there has never been an overdraft at all—yet the
15 financial institution charges an overdraft fee on the transaction anyway.

16 47. A hypothetical demonstrates what the financial institution is doing under
17 these circumstances. Suppose that an individual has \$1,000. The individual intends to
18 use \$800 of this amount to pay rent. The individual then intends to use the other \$200 to
19 make his monthly car payment. But before the rent and car payment come due, the
20 individual receives a \$40 water bill which informs that the bill must be paid immediately,
21 or water service will be cut off. The individual now takes \$40 from the money he has
22 earmarked for his car payment to pay the water bill. This individual has not spent more
23 money that he has on hand—but he does need to find an additional \$40 before the car
24 payment comes due. And if the individual does find the additional \$40 before paying the
25 car payment, there will never be a problem. If he falls short, he may choose to proceed
26 with the transaction anyway, for example, by writing a check for the car payment when
27 he does not have funds to cover the bill. He would then create a potential "overdraft" of
28 his funds for the car payment, but not the rent payment and the water bill.

1 48. The same pattern holds for financial institutions that calculate overdrafts
2 using the actual (or ledger or current) balance of an account. Suppose the same
3 individual put the \$1,000 in his checking account under similar circumstances on the 27th
4 of the month. That day, he also authorizes his \$800 rent to be paid on the first of the next
5 month, and his \$200 car payment to be paid on the third of the next month. The
6 individual then realizes that the \$40 payment on his water bill must be paid that day—the
7 27th of the month—or he will incur a fee. He approves the water bill payment, and it
8 posts immediately. Then, a few days later, he transfers an additional \$40 into the account
9 which is enough to offset the water bill payment before the initial \$800 rent and \$200 car
10 payments post and clear the account. All three payments are made with the individual's
11 own account funds. The financial institution never uses its own funds as an advance, and
12 there is no “overdraft” of the account because the balance always remains positive.
13 However, even if the customer does not transfer the \$40, it is only the car payment which
14 posts last that is paid without sufficient money in the account to cover it. Thus, there is
15 only one transaction (*i.e.*, the car payment) eligible for an overdraft fee.

16 49. A financial institution that uses the “available balance” method of
17 calculating overdrafts would come to a different conclusion. Because the available
18 balance subtracts from the account the amount of money that the financial institution is
19 “holding” for other pending transactions, the financial institution considers the money set
20 aside and unavailable, even though it is still in the account. This means that after the
21 \$800 and \$200 transactions are scheduled, the “available balance” of the account is \$0
22 even though \$1,000 still remains in the account. Under these circumstances, when the
23 individual makes the additional \$40 payment and it posts first, the “available balance” is
24 negative and the accountholder is charged an overdraft fee—even though the original
25 \$1,000 is still in the account. And what is worse, even if the accountholder deposits \$40
26 in the account before the original \$800 and \$200 payments post and clear, he is still
27 subject to the overdraft fee for the \$40 transaction even though the financial institution
28 never “covered” any portion of the payment with its own funds. Finally, what is worse

1 still, if the customer does not make a deposit to cover the overdraft, the customer will be
 2 assessed an overdraft fee for all three transactions. Thus, using the available balance,
 3 although the financial institution only has to advance its own funds for one transaction
 4 (*i.e.*, the car payment), the financial institution will assess three overdraft fees tripling its
 5 profits from the same transactions.

6 50. Financial institutions have been put on notice by regulators, banking
 7 associations, their insurance companies and risk management departments, and from
 8 observing litigation and settlements that the practice of using the available balance
 9 instead of the actual amount of money in the account (*i.e.*, the actual, ledger, or current
 10 balance) to calculate overdrafts without clear disclosure of that practice likely violates
 11 Reg E and state consumer laws. For instance, the FDIC stated in 2019:

12 Institutions' processing systems utilize an "available balance"
 13 method or a "ledger balance" method to assess overdraft fees.
 14 The FDIC identified issues regarding certain overdraft
 15 programs that used an available balance method to determine
 16 when overdraft fees could be assessed. Specifically, FDIC
 17 examiners observed potentially unfair or deceptive practices
 18 when institutions using an available balance method assessed
 more overdraft fees than were appropriate based on the
 consumer's actual spending or when institutions did not
 adequately describe how the available balance method works in
 connection with overdrafts.¹⁰

19 The CFPB provided in its Winter 2015 Supervisory Highlights, that:

20 A ledger-balance method factors in only settled transactions in
 21 calculating an account's balance; an available-balance method
 22 calculates an account's balance based on electronic transactions
 23 that the institutions have authorized (and therefore are obligated
 24 to pay) but not yet settled, along with settled transactions. An
 25 available balance also reflects holds on deposits that have not
 26 yet cleared. Examiners observed that in some instances,
 27 transactions that would not have resulted in an overdraft (or an
 overdraft fee) under a ledger-balance method did result in an
 overdraft (and an overdraft fee) under an available-balance
 method. At one or more financial institutions, examiners noted
 that these changes to the balance calculation method used were
 not disclosed at all, or were not sufficiently disclosed, resulting

28 ¹⁰<https://www.fdic.gov/regulations/examinations/consumercompsupervisoryhighlights.pdf> (last visited Nov. 10, 2020).

1 in customers being misled as to the circumstances under which
 2 overdraft fees would be assessed. Because these misleading
 3 practices could be material to a reasonable consumer's decision
 making and actions, they were found to be deceptive.¹¹

4 51. Under Regulation E, the financial institution may decide which balance it
 5 chooses to use for overdraft fees on one-time debit card and ATM transactions, but it is
 6 also very clear that it must disclose this practice accurately, clearly and in a way that is
 7 easily understood. As the Regulation E opt-in disclosure agreement must include this
 8 information in a stand-alone document, the use of available balance must be stated in the
 9 opt-in disclosure agreement to conform to Regulation E and permit the financial
 10 institution from charging that customer overdraft fees on one-time debit card and ATM
 11 transactions. Either inaccurately or failing to describe the use of available balance as part
 12 of its overdraft practice violates the plain language of Regulation E.

13 **D. Wells Fargo's Regulation E Practices**

14 52. Wells Fargo opted customers into its overdraft practices using an opt-in
 15 disclosure agreement titled, *"What You Need to Know About Overdrafts and Overdraft*
 16 *Fees."* (Ex. A.) A reasonable consumer reading a disclosure agreement requiring a
 17 signature or acknowledgement, and which relates to overdrafts and overdraft fees and
 18 represents that it contains information the customer needs to know about overdrafts and
 19 overdraft fees, would rely on the opt-in disclosure agreement without supplementing that
 20 knowledge with reference to other marketing materials and or account agreement
 21 language relating to overdrafts.

22 53. The opt-in disclosure agreement explained that an overdraft "occurs when
 23 you do not have enough money in your account to cover a transaction but we pay it
 24 anyway." The agreement makes no reference to "available" balance, "available" funds or
 25 any description of how Wells Fargo's internal hold policies affect the balance. The opt-

26
 27
 28 ¹¹ https://files.consumerfinance.gov/f/201503_cfpb_supervisory-highlights-winter-2015.pdf, p. 8 (last visited Nov. 10, 2020).

1 in disclosure agreement instead only explains that an overdraft occurs when there is not
2 enough “money in [the] account” and Wells Fargo pays it from their own funds.

3 54. By defining overdrafts in this way, it is reasonable and expected for
4 accountholders to understand that Wells Fargo uses the actual balance and money in the
5 account to calculate whether an overdraft has occurred. Many courts have already found
6 that this exact same language is at least ambiguous as to whether it means the actual
7 balance or available balance is used in determining overdraft fees.¹² By using ambiguous
8 language to describe what constitutes an overdraft, Wells Fargo has failed to provide a
9 clear and easily understandable description of its overdraft services in its opt-in
10 disclosure agreement as Regulation E demands.

11 55. Many financial institutions that use the available balance to calculate
12 overdrafts have specifically addressed the practice in their opt-in disclosure agreements.
13 San Diego County Credit Union, for example, defines an “overdraft” as when “the
14 available balance in your account is nonsufficient to cover a transaction at the time that
15 the transaction posts to your account, but we pay it anyway.” Synovus Bank defines an
16 overdraft similarly to Wells Fargo, but adds the additional caveat that it “authorize[s] and
17 pay[s] transactions using the Available Balance in [the] account,” and then specifically
18 defines the Available Balance. TD Bank’s opt-in disclosure agreement states as follows:
19

20 ¹² *Tims v. LGE Cmty. Credit Union*, 935 F.3d 1228, 1237-38; 1243-45 (11th Cir.
21 2019); *Bettencourt v. Jeanne D’Arc Credit Union*, 370 F. Supp. 3d 258, 261-66 (D. Mass.
22 2019); *Pinkston-Poling v. Advia Credit Union*, 227 F. Supp. 3d 848, 855-57 (W.D. Mich.
23 2016); *Walbridge v. Northeast Credit Union*, 299 F. Supp. 3d 338, 343-46; 348 (D.N.H.
24 2018) (holding that terms such as “enough money,” “insufficient funds,” “nonsufficient
25 funds,” “available funds,” “insufficient available funds,” and “account balance” were
26 ambiguous such that the Reg E claim was not dismissed); *Smith v. Bank of Hawaii*, No.
27 16-00513 JMS-RLP, 2017 WL 3597522, at *6–8 (D. Haw. Apr. 13, 2017) (“sporadic” use
28 of terms such as “available” funds or balances insufficiently explained to consumer when
overdraft fee could be charged and ambiguous use of terms in opt-in agreement constituted
a proper allegation of a Reg E violation); *Walker v. People’s United Bank*, 305 F. Supp. 3d
365, 375-76 (D. Conn. 2018) (holding that allegations were sufficient to state a cause of
action for violation of Reg E where opt-in form failed to provide customers with a valid
description of overdraft program); *Ramirez v. Baxter Credit Union*, No. 16-CV-03765-SI,
2017 WL 1064991, at *4-8 (N.D. Cal. Mar. 21, 2017); *Gunter v. United Fed. Credit
Union*, No. 315CV00483MMDWGC, 2016 WL 3457009, at *3-4 (D. Nev. June 22, 2016).

1 “An overdraft occurs when your available balance is not sufficient to cover a transaction,
2 but we pay it anyway. Your available balance is reduced by any ‘pending’ debit card
3 transactions (purchases and ATM withdrawals) and includes any deposited funds that
4 have been made available pursuant to our Funds Availability Policy.” Similarly,
5 Communication Federal Credit Union’s opt-in disclosure agreement states, “[a]n
6 overdraft occurs when you do not have enough money in your account to cover a
7 transaction, or the transaction exceeds your available balance, but we pay it anyway.
8 ‘Available Balance’ is your account balance less any holds placed on your account.”

9 56. In addition, many financial institutions that use the actual balance to
10 determine whether an account is in overdraft (meaning it looks strictly at the amount of
11 funds in an account), as does, *e.g.*, MidFlorida Credit Union, use the same language as
12 Wells Fargo, to reference the actual balance, not the available balance. *See*
13 <https://www.midflorida.com/terms-and-conditions/overdraft-agreement/> (last visited Nov.
14 10, 2020) (explaining that the language “[a]n overdraft occurs when you do not have
15 enough money in your account to cover a transactions, but MIDFLORIDA pays it
16 anyway” refers to the “[a]ctual balance.” Thus, if there is sufficient money in the account
17 to cover a transaction—even if the money is subject to a hold for pending transactions—
18 then the financial institution will not charge an overdraft fee.

19 57. Here, Wells Fargo’s failure to accurately, clearly, and in an easily
20 understandable way identify the balance Wells Fargo uses to assess overdraft fees in the
21 stand-alone opt-in disclosure agreement resulted in its failure to obtain the appropriate
22 affirmative consent necessary to opt customers into its overdraft program. Wells Fargo
23 has and continues to charge customers overdraft fees for non-recurring debit card and
24 ATM transactions in violation of Regulation E. Further, Wells Fargo continues to “opt-
25 in” new checking account customers into its overdraft program using the improper opt-in
26 disclosure agreement.
27
28

E. Wells Fargo's History Of Charging Illegal Overdraft Fees

58. Increasing the need for judicial intervention and injunction, following a bench trial before Judge William Alsup, Wells Fargo was found in 2010 to have engaged in profiteering and gouging customers with regard to its overdraft practices at that time. It was also found to have misrepresented the manner and order in which it posted transactions and charged overdraft fees as a result. *Gutierrez v. Wells Fargo Bank, N.A.*, 730 F. Supp. 2d 1080, 1083 (N.D. Cal. 2010), *aff'd in part, rev'd in part and remanded sub nom. Gutierrez v. Wells Fargo Bank, NA*, 704 F.3d 712 (9th Cir. 2012). After the appellate courts upheld the trial court's findings, the trial court entered an order permanently enjoining Wells Fargo from making any false or misleading representations relating to the posting order of debit-card transactions. *Gutierrez v. Wells Fargo Bank, N.A.*, 944 F. Supp. 2d 819, 830 (N.D. Cal. 2013), *aff'd in part, vacated in part, remanded sub nom. Gutierrez v. Wells Fargo Bank, NA*, 589 F. App'x 824 (9th Cir. 2014).

59. Based on information and belief, in the time period between the trial court's 2010 order and some time in 2014, Wells Fargo was using consumers' collected balance (a balance that is reduced for pending deposits but not pending debit holds) to assess overdraft fees on debit cards. But in 2014, Wells Fargo switched to using a consumer's "available balance" to assess overdraft fees, meaning that it began to assess overdraft fees when there was money in the account, but the money was earmarked for some other future debit purpose. Wells Fargo, however, did not materially change the language of its Regulation E opt-in disclosure agreement, thereby failing to disclose its actual practice and misleading and inaccurately continuing to disclose only that Wells Fargo considers an overdraft to have occurred "when you do not have enough money in your account to cover a transaction but we pay it anyway."

60. Regulation E requires that a financial institution's overdraft disclosures describe the institution's overdraft policies without reference to any other document. This requirements ensures that consumers are not required to parse pages of dense legalese before deciding whether to opt in to an institution's overdraft program. But

1 Wells Fargo expressly does not do so in its Regulation E required disclosure. The reason
2 for this is not difficult to discern.

3 VI FACTUAL ALLEGATIONS AGAINST DEFENDANT

4 61. At all relevant times, Wells Fargo used the “available balance,” and not the
5 actual account balance or the formerly used collective balance, to determine whether to
6 assess overdraft fees on one-time debit card and ATM transactions.

7 62. At all relevant times, Wells Fargo knew or should have known, that in order
8 to legally charge its customers overdraft fees, it was required to first obtain affirmative
9 consent from the customer using a Regulation E compliant stand-alone opt-in disclosure.
10 Regulation E compliance requires, at a minimum, that a financial institution accurately
11 disclose all material parts of its overdraft program and policies in the opt-in disclosure
12 agreement in clear and easily understood language before obtaining consent from a
13 customer to “opt in” to those programs.

14 63. At all relevant times, Wells Fargo used an identical opt-in disclosure
15 agreement with Plaintiff and all putative class members that defined an overdraft as
16 occurring “when you do not have enough money in your account to cover a transaction,
17 but we pay it anyway.”

18 64. This definition of overdraft would disclose and be interpreted by reasonable
19 customers to mean as follows: (1) “not enough money in your account” means the Actual
20 balance/Current Balance/Ledger Balance in the account; (2) to “cover a transaction”
21 means that the overdraft decision is made at time of posting and payment; and (3) “we
22 pay it anyway” means that Defendant has advanced or loaned the customer money to pay
23 the transaction. However, as Wells Fargo determines overdraft fees based on the
24 “available balance” that factors in credit and debit holds, approximately 10-20% of
25 overdraft fees are assessed on transactions when there was money in the account to cover
26 the transaction at the time it was posted and paid, and Wells Fargo did not advance or
27 loan the customer any money to pay the transaction.
28

1 65. The opt-in disclosure agreement did not accurately and in a clear and easily
2 understandable way describe what constitutes an overdraft and under what circumstances
3 the customer would be assessed an overdraft fee, and as such the opt-in disclosure
4 agreement did not comply with Regulation E's requirements.

5 66. Because Wells Fargo uses an opt-in disclosure agreement that does not
6 accurately describe its overdraft practices and thus is not compliant with Regulation E,
7 Wells Fargo is not permitted to charge customers overdraft fees on one-time debit card
8 and ATM transactions.

9 67. At all relevant times, Wells Fargo knew it was using the available balance to
10 assess overdraft fees, and further knew or should have known that as a stand-alone
11 document, its opt-in disclosure agreement was not providing an accurate, clear and easily
12 understandable definition of an overdraft when it identified an overdraft as "when you do
13 not have enough money in your account to cover a transaction, but we pay it anyway."

14 68. At all relevant times, Wells Fargo charged Plaintiff and the putative class
15 overdraft fees on one-time debit card and ATM transactions even though it had not
16 complied with Regulation E to first obtain customers' affirmative consent using a
17 Regulation E compliant opt-in disclosure agreement before it charged these fees.

18 69. Based on information and belief, Wells Fargo continues to "opt-in" to its
19 overdraft program customers using a non-compliant opt-in disclosure agreement, and
20 then charges those customers overdraft fees on one-time debit card and ATM
21 transactions.

22 70. Based on information and belief, Wells Fargo continues to charge existing
23 customers overdraft fees on one-time debit card and ATM transactions who had "opted-
24 in" using that same non-compliant opt-in disclosure agreement.

25 **VII CLASS ACTION ALLEGATIONS**

26 71. The preceding allegations are incorporated by reference and re-alleged as if
27 fully set forth herein.
28

1 72. Plaintiff brings this case, and each of the respective causes of action, as a
2 class action.

3 73. The “Class” is composed of one of the following:

4 The Regulation E Class:

5 All California customers of Defendant who have or have had
6 accounts with Defendant who were assessed an overdraft fee on
7 a one-time debit card or ATM transaction beginning one-year
8 preceding the filing of this complaint and ending on the date the
Class is certified. Following discovery, this definition will be
amended as appropriate.

9 The UCL, Section 17200 Class:

10 All California customers of Defendant who have or have had
11 accounts with Defendant who were assessed an overdraft fee on
12 a one-time debit card or ATM transaction beginning four-years
preceding the filing of this complaint and ending on the date the
Class is certified. Following discovery, this definition will be
amended as appropriate.

13 74. Excluded from the Classes are: 1) any entity in which Defendant has a
14 controlling interest; 2) officers or directors of Defendant; 3) this Court and any of its
15 employees assigned to work on the case; and 4) all employees of the law firms
16 representing Plaintiff and the Class Members.

17 75. This action has been brought and may be properly maintained on behalf of
18 each member of the Class pursuant to Fed. R. Civ. P. 23(a), (b)(2), and (b)(3).

19 76. **Numerosity** – The members of the Class (“Class Members”) are so
20 numerous that joinder of all Class Members would be impracticable. While the exact
21 number of Class Members is presently unknown to Plaintiff, and can only be determined
22 through appropriate discovery, Plaintiff believes based on the percentage of customers
23 that are harmed by these practices with banks and credit unions with similar practices,
24 that the Class is likely to include thousands of customers.

25 77. Upon information and belief, Defendant has databases, and/or other
26 documentation, of its customers’ transactions and account enrollment. These databases
27 and/or documents can be analyzed by an expert to ascertain which of Defendant’s
28 customers has been harmed by its practices and thus qualify as a Class Member. Further,

the Class definitions identify groups of unnamed plaintiffs by describing a set of common characteristics sufficient to allow a member of that group to identify himself or herself as having a right to recover. Other than by direct notice through mail or email, alternative proper and sufficient notice of this action may be provided to the Class Members through notice published in newspapers or other publications.

78. **Commonality** – This action involves common questions of law and fact. The questions of law and fact common to both Plaintiff and the Class Members include, but are not limited to, the following:

- Whether Defendant used the available balance for making a determination of whether to assess overdraft fees on one-time debit card and ATM transactions;
- Whether the opt-in disclosure agreement Defendant used to opt-in Class Members violated the mandate of Regulation E that the opt-in disclosure agreement must accurately, clearly, and in an easily understandable way describe the overdraft services of Defendant;
- Whether Defendant breached Regulation E when it assessed overdraft fees on one-time debit card and ATM transactions against Class Members;
- Whether Defendant's conduct in violating Regulation E also violated the Section 17200; and
- Whether Defendant continues to violate Regulation E and Section 17200 by opting in customers and the public using an opt-in disclosure agreement that violates Regulation E and continuing to assess customers overdraft fees on one-time debit card and ATM transactions based on an opt-in disclosure agreement that violates Regulation E.

79. **Typicality** – Plaintiff's claims are typical of all Class Members. The evidence and the legal theories regarding Defendant's alleged wrongful conduct

1 committed against Plaintiff and all of the Class Members are substantially the same
2 because the opt-in disclosure agreement used to opt-in Plaintiff is the same as the opt-in
3 disclosure agreement used by Defendant to opt-in the Class Members and the general
4 public. Further, Plaintiff and the Class Members have each been assessed overdraft fees
5 on one-time debit card and ATM transactions. Accordingly, in pursuing his own self-
6 interest in litigating his claims, Plaintiff will also serve the interests of the other Class
7 Members and the general public.

8 80. **Adequacy** – Plaintiff will fairly and adequately protect the interests of the
9 Class Members. Plaintiff has retained competent counsel experienced in class action
10 litigation, and specifically financial institution overdraft class action cases to ensure such
11 protection. There are no material conflicts between the claims of the representative
12 Plaintiff and the members of the Class that would make class certification inappropriate.
13 Plaintiff and counsel intend to prosecute this action vigorously.

14 81. **Predominance and Superiority** – The matter is properly maintained as a
15 class action because the common questions of law or fact identified herein and to be
16 identified through discovery predominate over questions that may affect only individual
17 Class Members. Further, the class action is superior to all other available methods for the
18 fair and efficient adjudication of this matter. Because the injuries suffered by the
19 individual Class Members are relatively small compared to the cost of the litigation, the
20 expense and burden of individual litigation would make it virtually impossible for
21 Plaintiff and Class Members to individually seek redress for Defendant's wrongful
22 conduct. Even if any individual person or group(s) of Class Members could afford
23 individual litigation, it would be unduly burdensome to the courts in which the individual
24 litigation would proceed. The class action device is preferable to individual litigation
25 because it provides the benefits of unitary adjudication, economies of scale, and
26 comprehensive adjudication by a single court. In contrast, the prosecution of separate
27 actions by individual Class Members would create a risk of inconsistent or varying
28 adjudications with respect to individual Class Members that would establish incompatible

standards of conduct for the party (or parties) opposing the Class and would lead to repetitious trials of the numerous common questions of fact and law. Plaintiff knows of no difficulty that will be encountered in the management of this litigation that would preclude its maintenance as a class action. As a result, a class action is superior to other available methods for the fair and efficient adjudication of this controversy. Absent a class action, Plaintiff and the Class Members will continue to suffer losses, thereby allowing Defendant's violations of law to proceed without remedy and allowing Defendant to retain the proceeds of its ill-gotten gains.

82. Plaintiff does not believe that any other Class Members' interests in individually controlling a separate action are significant, in that Plaintiff has demonstrated above that his claims are typical of the other Class Members and that he will adequately represent the Class. This particular forum is desirable for this litigation because Plaintiff's claims arise from activities that occurred largely therein. Plaintiff does not foresee significant difficulties in managing the class action in that the major issues in dispute are susceptible to class proof.

83. Plaintiff anticipates the issuance of notice, setting forth the subject and nature of the instant action, to the proposed Class Members. Upon information and belief, Defendant's own business records and/or electronic media can be utilized for the contemplated notices. To the extent that any further notices may be required, Plaintiff anticipates using additional media and/or mailings.

84. This matter is properly maintained as a class action pursuant to Fed. R. Civ. P. 23 in that without class certification and determination of declaratory, injunctive, statutory and other legal questions within the class format, prosecution of separate actions by individual members of the Class will create the risk of:

- inconsistent or varying adjudications with respect to individual members of the Class which would establish incompatible standards of conduct for the parties opposing the Class; or
- adjudication with respect to individual members of the Class would,

as a practical matter, be dispositive of the interests of the other members not parties to the adjudication or substantially impair or impede their ability to protect their interests.

Common questions of law and fact exist as to the members of the Class and predominate over any questions affecting only individual members, and a class action is superior to other available methods of the fair and efficient adjudication of the controversy, including consideration of:

- the interests of the members of the Class in individually controlling the prosecution or defense of separate actions;
- the extent and nature of any litigation concerning the controversy already commenced by or against members of the Class;
- the desirability or undesirability of concentrating the litigation of the claims in the particular forum; and the difficulties likely to be encountered in the management of a class action.

85. Defendant has acted or refused to act on grounds generally applicable to the class, thereby making appropriate final declaratory and injunctive relief with respect to the class as a whole under Federal Rule of Civil Procedure 23(b)(2). Moreover, on information and belief, Plaintiff alleges that Defendant's use of a non-compliant Regulation E opt-in disclosure agreement is substantially likely to continue in the future if an injunction is not entered.

FIRST CAUSE OF ACTION (Violation of Regulation E)

86. The preceding allegations are incorporated by reference and re-alleged as if fully set forth herein.

87. By charging overdraft fees on ATM and non-recurring debit card transactions, Defendant violated Regulation E, 12 C.F.R. §§ 1005, *et seq.*, whose "primary objective" is "the protection of individual consumers," 12 C.F.R. § 1005.1(b),

1 and which “carries out the purposes of the Electronic Fund Transfer Act, 15 U.S.C. §§
2 1693, *et seq.*, the ‘EFTA,’” 12 C.F.R. § 1005.1(b)).

3 88. Specifically, the charges violated what is known as the “Opt In Rule” of
4 Regulation E. 12 C.F.R. § 1005.17. The Opt In Rule states: “a financial institution . . .
5 *shall not assess a fee or charge . . . pursuant to the institution’s overdraft service, unless*
6 *the institution: (i) [p]rovides the consumer with a notice in writing [the opt-in notice] . . .*
7 *describing the institution’s overdraft service*” and (ii) “[p]rovides a reasonable
8 opportunity for the consumer to *affirmatively consent*” to enter into the overdraft
9 program. *Id.* (emphasis added). The notice “shall be clear and readily understandable.”
10 12 C.F.R. § 1005.4(a)(1). To comply with the affirmative consent requirement, a
11 financial institution must provide a segregated description of its overdraft practices that is
12 accurate, non-misleading and truthful and that conforms to 12 C.F.R. § 1005.17 prior to
13 the opt-in, and must provide a reasonable opportunity to opt-in after receiving the
14 description. The affirmative consent must be provided in a way mandated by 12 C.F.R. §
15 1005.17, and the financial institution must provide confirmation of the opt-in in a manner
16 that conforms to 12 C.F.R. § 1005.17. Furthermore, choosing not to “opt-in” cannot
17 adversely affect any other feature of the account.

18 89. The intent and purpose of this opt-in disclosure agreement is to “assist
19 customers in understanding how overdraft services provided by their institutions operate.
20 . . by explaining the institution’s overdraft service . . . in a clear and readily
21 understandable way”—as stated in the Official Staff Commentary, 74 Fed. Reg. 59033,
22 59035, 59037, 5940, 5948, which is “the CFPB’s official interpretation of its own
23 regulation,” “warrants deference from the courts unless ‘demonstrably irrational,’” and
24 should therefore be treated as “a definitive interpretation” of Regulation E. *Strubel v.*
25 *Capital One Bank (USA)*, 179 F. Supp. 3d 320, 324 (S.D.N.Y. 2016) (quoting *Chase*
26 *Bank USA v. McCoy*, 562 U.S. 195, 211 (2011)) (so holding for the CFPB’s Official Staff
27 Commentary for the Truth In Lending Act’s Reg Z).
28

1 90. Defendants failed to comply with Regulation E, 12 C.F.R. § 1005.17, which
2 requires affirmative consent before a financial institution may assess overdraft fees
3 against customers' accounts through an overdraft program for ATM withdrawals and
4 non-recurring debit card transactions. Defendant has failed to comply with the 12 C.F.R.
5 § 1005.17 opt-in requirements, including failing to provide its customers in a "clear and
6 readily understandable way" a valid description of the overdraft program which meets the
7 strictures of 12 C.F.R. § 1005.17. Defendant has selected an opt-in method that fails to
8 satisfy 12 C.F.R. § 1005.17 because, *inter alia*, it states in the non-conforming disclosure
9 agreement that an overdraft occurs when there is not enough money in the account to
10 cover a transaction but Defendant pays it anyway. But, in fact, Defendant assesses
11 overdraft fees even when there is enough money in the account to pay for the transaction
12 and Defendant needs to advance no funds at all. This is accomplished by using the
13 internal bookkeeping available balance to assess overdraft fees, rather than the actual and
14 official balance of the account. Defendant failed to use language to describe the
15 overdraft service that identified that it was using the available balance to assess overdraft
16 fees, which meant that in a significant percentage of the transactions that were the subject
17 of the overdraft fee, there was money in the account to cover the transaction and
18 Defendant did not have to advance any money – yet Defendant assessed an overdraft fee
19 anyway.

20 91. As a result of violating Regulation E's prohibition against assessing
21 overdraft fees on ATM and non-recurring debit card transactions without obtaining valid
22 affirmative consent to do so, Defendant was not legally permitted to assess any overdraft
23 fees on one-time debit card or ATM transactions, and it has harmed Plaintiff and the
24 Class Members by assessing overdraft fees on one-time debit card and ATM transactions.

25 92. As the result of Defendant's violations of Regulation E, 12 C.F.R. § 1005, *et*
26 *seq.*, Plaintiff and members of the Class are entitled to statutory damages, as well as
27 attorneys' fees and costs of suit, pursuant to 15 U.S.C. § 1693m.
28

1 **SECOND CAUSE OF ACTION**

2 **(Violation of California Unfair Competition Law, Business & Professions Code**
 3 **Section 17200, *et seq.*)**

4 93. The preceding allegations are incorporated by reference and re-alleged as if
 5 fully set forth herein.

6 94. Defendant's conduct described herein violates California's Unfair
 7 Competition Law (the "UCL"), codified at Business and Professions Code section 17200,
 8 *et seq.* The UCL prohibits, and provides civil remedies for, unfair competition. Its
 9 purpose is to protect both consumers and competitors by promoting fair competition in
 10 commercial markets for goods and services. In service of that purpose, the Legislature
 11 framed the UCL's substantive provisions in broad, sweeping language. By defining
 12 unfair competition to include any "any unlawful, unfair or fraudulent business act or
 13 practice," the UCL permits violations of other laws to serve as the basis of an
 14 independently actionable unfair competition claim, and sweeps within its scope acts and
 15 practices not specifically proscribed by any other law.

16 95. The UCL expressly provides for injunctive relief, and contains provisions
 17 denoting its public purpose. A claim for injunctive relief under the UCL is brought by a
 18 plaintiff acting in the capacity of a private attorney general. Although the private litigant
 19 controls the litigation of an unfair competition claim, he or she is not entitled to recover
 20 compensatory damages for his or her own benefit, but only disgorgement of profits made
 21 by the defendant through unfair competition in violation of the statutory scheme, or
 22 restitution to victims of the unfair competition.

23 96. As further alleged herein, Defendant's conduct violates the UCL's
 24 "unlawful" prong because that conduct violates public policy and/or the text of
 25 Regulation E. Defendant's conduct was not motivated by any legitimate business or
 26 economic need or rationale. The harm and adverse impact of Defendant's conduct on
 27 members of the general public was neither outweighed nor justified by any legitimate
 28 reasons, justifications, or motives. The harm to Plaintiff and Class Members arising from

1 Defendant's unlawful practices relating to the imposition of the improper fees outweighs
2 the utility, if any, of those practices.

3 97. Defendant's unlawful business practices as alleged herein are immoral,
4 unethical, oppressive, unscrupulous, unconscionable, and/or substantially injurious to
5 Plaintiff and Class Members, and the general public. Defendant's conduct was
6 substantially injurious to Plaintiff and the Class Members as they have been forced to pay
7 millions of dollars in improper fees, collectively.

8 98. Moreover, as described herein, Defendant's conduct also violates the UCL's
9 "unfairness" prong.

10 99. As a direct and proximate result of Defendant's violations of the UCL,
11 Plaintiff and Class Members have been assessed improper and illegal overdraft fees and
12 those funds removed from their account, and Defendant has received, or will receive,
13 income, profits, and other benefits, which it would not have received if it had not engaged
14 in the violations of Section 17200 described in this Complaint.

15 100. Further, absent injunctive relief forcing Defendant to disgorge itself of its ill-
16 gotten gains and public injunctive relief prohibiting Defendant from misrepresenting and
17 omitting material information concerning its overdraft fee policy at issue in this action in
18 the future and requiring Defendant to immediately stop charging illegal overdraft fees
19 unless and until it re-opts-in current customers using a Regulation E complaint opt-in
20 disclosure agreement, Plaintiff and other existing accountholders, and the general public,
21 will suffer from and be exposed to Defendant's conduct violative of the UCL.

22 101. Plaintiff requests that he be awarded all other relief as may be available by
23 law, pursuant to California Business & Professions Code § 17203, including an order of
24 this court compelling Defendants to cease all future unlawful and unfair business
25 practices related to its overdraft practices.

26 **VIII PRAYER FOR RELIEF**

27 WHEREFORE, Plaintiff and the Class pray for judgment as follows:

- 28 a. for an order certifying this action as a class action;

- 1 b. for an order requiring Defendants to disgorge, restore, and return all
2 monies wrongfully obtained together with interest calculated at the maximum legal
3 rate;
4 c. for statutory damages;
5 d. for civil penalties;
6 e. for an order enjoining the continued wrongful conduct alleged herein;
7 f. for costs;
8 g. for pre-judgment and post-judgment interest as provided by law;
9 h. for attorneys' fees under the Electronic Fund Transfer Act, the
10 common fund doctrine, and all other applicable law; and
11 i. for such other relief as the Court deems just and proper.

INSTRUCTIONS FOR ATTORNEYS COMPLETING CIVIL COVER SHEET FORM JS 44

Authority For Civil Cover Sheet

The JS 44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and service of pleading or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. The attorney filing a case should complete the form as follows:

- I.(a) Plaintiffs-Defendants.** Enter names (last, first, middle initial) of plaintiff and defendant. If the plaintiff or defendant is a government agency, use only the full name or standard abbreviations. If the plaintiff or defendant is an official within a government agency, identify first the agency and then the official, giving both name and title.
 - (b) County of Residence.** For each civil case filed, except U.S. plaintiff cases, enter the name of the county where the first listed plaintiff resides at the time of filing. In U.S. plaintiff cases, enter the name of the county in which the first listed defendant resides at the time of filing. (NOTE: In land condemnation cases, the county of residence of the "defendant" is the location of the tract of land involved.)
 - (c) Attorneys.** Enter the firm name, address, telephone number, and attorney of record. If there are several attorneys, list them on an attachment, noting in this section "(see attachment)".
- II. Jurisdiction.** The basis of jurisdiction is set forth under Rule 8(a), F.R.Cv.P., which requires that jurisdictions be shown in pleadings. Place an "X" in one of the boxes. If there is more than one basis of jurisdiction, precedence is given in the order shown below.
- United States plaintiff. (1) Jurisdiction based on 28 U.S.C. 1345 and 1348. Suits by agencies and officers of the United States are included here.
- United States defendant. (2) When the plaintiff is suing the United States, its officers or agencies, place an "X" in this box.
- Federal question. (3) This refers to suits under 28 U.S.C. 1331, where jurisdiction arises under the Constitution of the United States, an amendment to the Constitution, an act of Congress or a treaty of the United States. In cases where the U.S. is a party, the U.S. plaintiff or defendant code takes precedence, and box 1 or 2 should be marked.
- Diversity of citizenship. (4) This refers to suits under 28 U.S.C. 1332, where parties are citizens of different states. When Box 4 is checked, the citizenship of the different parties must be checked. (See Section III below; **NOTE: federal question actions take precedence over diversity cases.**)
- III. Residence (citizenship) of Principal Parties.** This section of the JS 44 is to be completed if diversity of citizenship was indicated above. Mark this section for each principal party.
- IV. Nature of Suit.** Place an "X" in the appropriate box. If there are multiple nature of suit codes associated with the case, pick the nature of suit code that is most applicable. Click here for: [Nature of Suit Code Descriptions](#).
- V. Origin.** Place an "X" in one of the seven boxes.
- Original Proceedings. (1) Cases which originate in the United States district courts.
- Removed from State Court. (2) Proceedings initiated in state courts may be removed to the district courts under Title 28 U.S.C., Section 1441. When the petition for removal is granted, check this box.
- Remanded from Appellate Court. (3) Check this box for cases remanded to the district court for further action. Use the date of remand as the filing date.
- Reinstated or Reopened. (4) Check this box for cases reinstated or reopened in the district court. Use the reopening date as the filing date.
- Transferred from Another District. (5) For cases transferred under Title 28 U.S.C. Section 1404(a). Do not use this for within district transfers or multidistrict litigation transfers.
- Multidistrict Litigation – Transfer. (6) Check this box when a multidistrict case is transferred into the district under authority of Title 28 U.S.C. Section 1407.
- Multidistrict Litigation – Direct File. (8) Check this box when a multidistrict case is filed in the same district as the Master MDL docket.
- PLEASE NOTE THAT THERE IS NOT AN ORIGIN CODE 7.** Origin Code 7 was used for historical records and is no longer relevant due to changes in statute.
- VI. Cause of Action.** Report the civil statute directly related to the cause of action and give a brief description of the cause. **Do not cite jurisdictional statutes unless diversity.** Example: U.S. Civil Statute: 47 USC 553 Brief Description: Unauthorized reception of cable service
- VII. Requested in Complaint.** Class Action. Place an "X" in this box if you are filing a class action under Rule 23, F.R.Cv.P.
- Demand. In this space enter the actual dollar amount being demanded or indicate other demand, such as a preliminary injunction.
- Jury Demand. Check the appropriate box to indicate whether or not a jury is being demanded.
- VIII. Related Cases.** This section of the JS 44 is used to reference related pending cases, if any. If there are related pending cases, insert the docket numbers and the corresponding judge names for such cases.

Date and Attorney Signature. Date and sign the civil cover sheet.

EXHIBIT A

What You Need to Know About Overdrafts and Overdraft Fees

Important information about overdrafts

An overdraft occurs when you do not have enough money in your account to cover a transaction but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft coverage that comes with your account.
2. We also offer overdraft protection plans, such as a link to an eligible savings account, eligible line of credit or eligible credit card, which may be less expensive than our standard overdraft coverage. To learn more, ask us about these plans.

This notice explains our standard overdraft coverage.

What is the standard overdraft coverage that comes with my account?

We may authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments (such as recurring debit card and ACH payments)

We will not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions (such as one-time debit card and ATM card purchases)

We pay overdrafts at our discretion which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

If you'd like more information about available options related to standard overdraft coverage, please speak with a Wells Fargo banker.

What fees will the bank charge if it pays my overdraft?

Under our standard overdraft coverage:

- We will charge you a fee of \$35 each time we pay an overdraft item to your account
- There is a limit of three overdraft and/or returned item fees per day

What if I want Wells Fargo to authorize and pay overdrafts on my ATM and everyday debit card transactions?

You can add Debit Card Overdraft Service anytime by calling us at 1-800-TO-WELLS (1-800-869-3557), signing on to *Wells Fargo Online*® Banking from a computer or tablet (search Overdraft Services), visiting a Wells Fargo ATM (select More Choices), or speaking to a banker at any Wells Fargo branch. You can remove the service at any time.
